The DUNC workgroup reviewed and finalized the database inventory. EPHT staff will summarize the results and post on the web. The next step for the inventory is to create metadata from those entries ranked “1”.

Mandy Green gave an update on the status of the national EPHT indicators. Reported that these indicators due date has been postponed for another month.

DUNC also discussed the next meeting and the next full meeting of OTAG, scheduled for November 8, 2007. Next DUNC meeting we hope to provide a summary of the national EPHT indicators and finalize a briefing of DUNC activities to the full OTAG.
