

**Proposed Revision to 333-019-0031 (Deletions lined through, new language bold/*italic*)**

**Acquired Immunodeficiency Syndrome/Human Immunodeficiency Virus**

~~(1) Reporting of AIDS: Each case or suspected case of AIDS shall be reported to the Local Public Health Authority, or to DHS if specified by the Local Public Health Authority within one week from the time of identification.~~

~~(2) Reporting of HIV.~~

~~(a) Each case or suspected case of HIV infection shall be reported to the DHS within one day from the time of identification.~~

~~(b) Investigation of HIV Cases.~~

~~(A) Investigations of HIV cases shall be conducted to the extent that resources permit. The Local Public Health Authority, or the DHS at the request of the Local Public Health Authority, will assure that each identified case is referred to prevention and care services, encouraged to contact his or her sexual partners and needle-sharing partners of their potential exposure, and inform partners of the availability of counseling and HIV testing services.~~

~~(B) After completion of the case investigation, but in no instance more than 90 days after receipt of a report, the DHS shall create an encrypted unique alphanumeric code for each case from the patient's name, or the necessary letters of the name, and other information contained on the case report. This code shall be substituted for the patient's name on all case-related reporting information retained by DHS and Local Public Health Authorities. The patient's name shall not be retained by either the state or Local Public Health Authority except as authorized by the patient for the purposes of providing HIV-related services to the patient.~~

***Investigation of cases of HIV infection or AIDS. Investigations of HIV infection or AIDS shall be conducted to the extent that resources permit. DHS, or the Local Public Health Authority, will ensure that each identified case is offered prevention, care, and partner counseling and referral services.***

**NOTE:** Specific rules regarding ***reporting requirements for HIV and AIDS may be found in OAR 333-018-0015. Rules regarding*** informed consent for HIV testing and confidentiality of HIV test results may be found in OAR 333-012-0265 and 333-012-0270.
