

## Assessment Quick Reference by Age/Grade School Year 2006-2007

The following table shows what children who are vaccinated on time will have received by the following age/grade levels. If a child has received **ALL** of these doses they are either up-to-date or complete.

Doses	Status
Children under 18 months: See your physician/health care provider	
Pre-kindergarten, ages 18 months to 5 years	
4 D/T, 3 polio, 1 varicella, 1 MMR, 3 hepatitis B, 4 Hib	Up-to-date
School age, grades K through 12	
5 D/T, 4 polio, 1 varicella, 2 MMR, 3 hepatitis B	Complete

If a child's record doesn't match the above criteria, please use the primary review table to assess the record. Remember that a child can start school, preschool or childcare if the record shows at least one dose of each required vaccine.
