BUDGET NARRATIVE

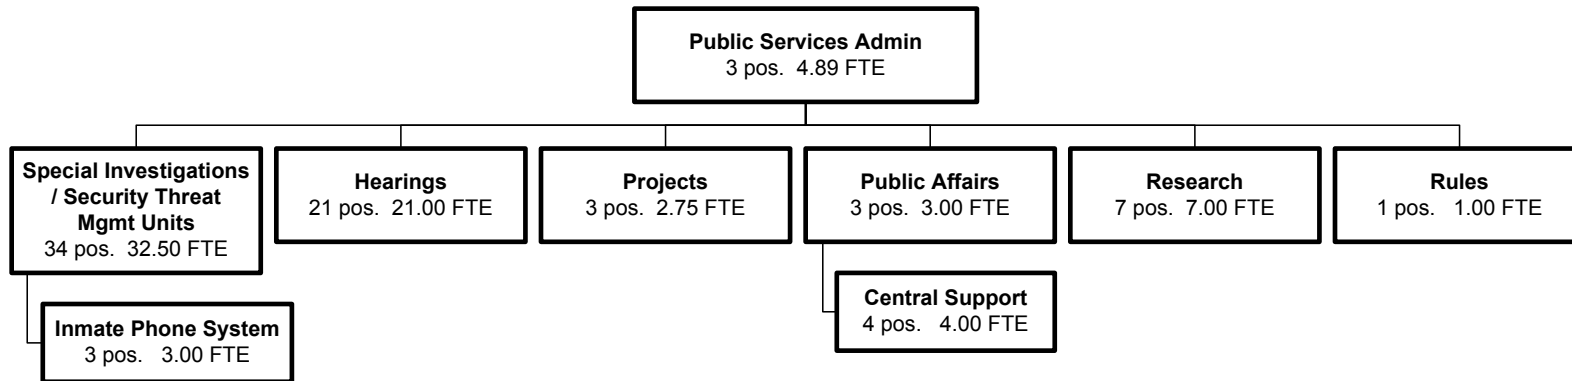

Public Services Division

The Public Services Division, led by an Assistant Director, is comprised of the Office of Research and Evaluation, the Office of Project Management, Rules and Policies, the Office of Public Affairs and Central Support Services, and the Office of New Prison Construction and Community Development.

Program Objectives and Services

Key objectives and services include developing and disseminating statistical and narrative information about the Department' of Corrections (DOC) policies, activities and mission to a broad array of stakeholders. Manages agency and interagency projects; manages legislative and media activity for the department; provides administrative support services; monitors inmate legal issues; provides research to support evidence based practices, and coordinates agency rule making.

Key Initiatives 2011-2013

- Strengthen working relationships and service delivery through communication with internal and external stakeholders
- Expand education within the agency on professional project management skills. Develop repeatable process through project management methodology
- Provide agency leaders with support and expertise to continue to create efficiencies in managing litigation while in support of the agency's mission, vision, core values and the Oregon Accountability Model
- Continue to develop and expand the department's information on the Internet, implementing new technologies as they become feasible and of value to those accessing the information
- Provide mission-critical information on inmate/offender populations, program performance and policy impacts

Office of Research and Evaluation

Overview

Research and Evaluation provides quality research, evaluation and statistics to support the mission and vision of the Department of Corrections (DOC) in the development of criminal justice policy, outcomes oriented strategies and the evaluation of offender programs.

Organization and Staffing

Research and Evaluation includes one unit manager and six staff positions.

Program Objectives and Services

Research and Evaluation provides mission-critical information on inmate/offender populations, program performance and policy impact which is essential for planning, evaluating and directing the operations of the DOC. The information is necessary for decision-making and operation of 15 state prisons and 36 county corrections offices. In addition, Research and Evaluation provides information to an expanding pool of outside customers and partners. More state agencies and local governments depend on the department's data to meet their mission-critical needs. These include the Board of Parole and Post-Prison Supervision, Department of Administrative Services, Department of Justice, Criminal Justice Commission, Oregon Youth Authority (OYA), Department of Human Services, Multnomah County, Clackamas County, Washington County, Portland Police, Salem Police and others.

Accomplishments 2009-11

- Developed the Prison Management Alert System
- Created a new risk/need report in the data warehouse
- National and local presentations modules
- Program evaluation for SB267
- Assess staff management collaboration
- Forecast medical expenditures
- Assess inmate transition to post prison
- Developed an Automated Risk Assessment Tool
- Began study on measure 57

BUDGET NARRATIVE

- Implemented Shared Resource Model (developed Automated Criminal Risk Score (ACRS) for OYA)
- Conducted and reported results for Parole Officer Study for Customer Service

Office of Project Management

Overview

The Office of Project Management manages implementation of agency-wide and interagency projects requiring the expertise of professional project managers. The office has primary responsibility for providing project direction and support to ensure that critical department-wide and interagency projects meet established timelines and outcomes while supporting the Department of Corrections (DOC) succession planning efforts.

BUDGET NARRATIVE

Organization and Staffing

The Operations and Policy Analyst 4 leads the Office, manages the agency's strategic plan project portfolio, oversees developmental project managers managing critical department-wide projects, and provides training and mentorship throughout the department regarding processes and effective project management. The Project Manager 2 leads critical agency projects and coaches developmental project managers.

Program Objectives and Services

Project Management is the application of knowledge, skills, tools and techniques to project activities to meet the project requirements. The mission of the Office of Project Management is to be a resource to the department to develop creative strategies, promote systems thinking, and build effective and repeatable processes and to assist in mentorship and delivery of critical project management services.

Accomplishments 2009-2011

The Office directed, managed or staffed numerous projects in support of agency strategic initiatives and critical department change, including:

- Provided project management support to the Operations Division during the many facets of the Behavioral Health Services moves of mental health units, inmates services and facilities changes
- Following passage of SB257, assisted Professional Development Unit staff in organizing and implementing workgroup activities around absorbing in-house training of all correctional staff from the Department of Public Safety, Standards and Training. Project complete
- Provided technical support and mentoring to project managers representing six key DOC projects. Projects complete or closing; Business Continuity Planning on hold due to budget constraints
- Managing workgroup assigned to identify areas for agency process improvement. Analyzing current key performance measures with a view for more meaningful metrics

Rules Coordination

Overview

The Rules Unit oversees the development and maintenance of all agency Administrative Rules, ensuring compliance with department policy, the Attorney General Model Rules, and the Administrative Procedures Act. The Rules Coordinator position is required by state law and is crucial to proper administration of rule-making authority. In addition the Rules Coordinator conducts public hearings in the community on proposed rule changes; ensures department policies reflect the goals and intentions of program managers; and reviews operational procedures specific to institutions and programs to ensure they align with and do not conflict with department-wide rules and policies. The Rules Unit also assists the Inspector General's Office with review and response to inmate petitions for administrative review of disciplinary hearings.

Organization and Staffing

The Rules Unit consists of one Rules Coordinator, who serves under the direction of the Public Services Chief Administrator.

Program Objectives & Services

The Rules Unit provides crucial assistance in the proper administration of the department's rules and policies. This is done in accordance with the Administrative Procedures Act and the Attorney General Uniform and Model rules. In addition, the Rules Coordinator assists in the drafting and implementation of agency policies and functional unit procedures. Changes in law, agency

BUDGET NARRATIVE

philosophy or practice necessitate the development and/or revision of rules and policy, with the role of the rules coordinator to write appropriate, legally sufficient language for use in the rules and policies.

Accomplishments 2009-2011

- Cross training of other staff in administrative rules processes to address continuity of business requirements
- Collaboration with Board of Parole and Post Prison Supervision and the Criminal Justice Commission in both shared resources and revision of joint rules that affect the department and corresponding agency
- Major revision of the rules for volunteers and student interns and development of a separate policy for internal operations of the program
- Drafting a briefing paper on Practices of Native American Spirituality in department institutions
- 50 rulemakings per biennium
- 25 policies revisions
- 120 procedures reviewed and certified

Office of Public Affairs and Central Support Services

Overview

The Office of Public Affairs has primary responsibility for providing information about the department's policies, activities and mission to a broad array of stakeholders. Key responsibilities include dissemination of information about the department, advocating department policy and providing routine and crisis communication. The Office of Public Affairs also includes management of central operations support functions for the department's main administrative offices.

Office of Public Affairs

Organization and Staffing

The Office of Public Affairs consists of Public Affairs and Central Services Administrator, Communications and Government Relations Manager, Assistant Communications Manager and an Administrative Support Specialist. Each team member develops, implements and evaluates strategies in their area of responsibility in the context of the department's mission. The office values collaborative work within the agency and in conjunction with federal, state and local government agencies, lawmakers, the news media and other stakeholders, including community associations, professional organizations and the public.

Program Objectives and Services

The overarching goal of the Office of Public Affairs is to: "Promote a broad understanding of the Department of Corrections and its mission, vision, values and the Oregon Accountability Model." Under this umbrella, the staff focuses on the following chief objectives:

Internal Communication

Inform employees and provide an effective means of feedback regarding all major department activities as well as philosophical, policy and practice changes. This is accomplished using diverse communication methods. Methods include extensive use of electronic messages for employee newsletters, Director's messages and interagency communications, the department's Web site, presentations to employees and in-service training sessions.

External Communication

The Office of Public Affairs provides external audiences with accurate, timely information targeted to meet their specific needs. Primary external audiences include the Governor's Office, lawmakers, the public, other government agencies (federal, state and local), non-profit organizations, inmate families, public and private-sector partners, and news media. Communication modes include managing the

BUDGET NARRATIVE

department's Web site and content, publications (electronic and print, including a quarterly electronic newsletter), responding to inquiries and public records requests (including the doc.info@state.or.us e-mail account), and personal contact.

Government Relations

The Office of Public Affairs provides leadership in building and maintaining strong working relationships between the department and other government entities and developing partnerships with other agencies and organizations. This role includes work on the department's substantive legislation, facilitating good communication with lawmakers and legislative committees, providing tours and otherwise informing legislators about the department and the Oregon Accountability Model, tracking and developing positions on federal legislation, and responding to the inquiries of elected officials and their constituents regarding department activities, policies, and actions.

Central Support Services

Overview

Central Support Services provides reception services for the Department of Corrections' (DOC) Central Office and mail services for several of the Salem DOC facilities. This section provides maintenance and custodial services for Central Office. This section also manages statewide and department-wide projects including, but not limited to: Charitable Fund Drive, State Employee's Food Drive, the DOC annual awards ceremony and the School to Work Program for Central Office.

Organization and Staffing

Central Support Services is under the direction of the Public Affairs/Central Support Services Administrator and is managed by the manager of Central Support Services. In addition to the Central Support Services Manager, the unit includes a Maintenance Specialist, and Office Specialists.

Program Objectives and Services

Key objectives and services include processing incoming and outgoing mail and providing mail pick-up and delivery services and mail processing services to other DOC facilities; serving as one of the primary points of contact for inquiries from the public; from local, state and federal agencies; and from inmate families and friends; providing maintenance and janitorial services to Central Office staff and managing statewide and department-wide projects.

BUDGET NARRATIVE

Accomplishments 2009-11

- Updated the Public Affairs Communication Plan; a tool to identify goals associated with specific deadlines
- Expanded use of communication to employees ensuring timely, accurate and cost-effective communication of department messages to all staff including newsletters, director's messages, news releases, digital press clips, director's video messaging, all staff conference calls and bi-weekly staff one pagers
- Conducted tours of department prisons and other facilities for lawmakers and staff, government partners and other key stakeholders
- Implemented the use of Facebook and Twitter in order to better communicate with the department's external stakeholders
- Updated relevant issue briefs and posted on the Web
- Coordinated and staffed the statewide awards ceremony, State Employees food drive, Charitable Fund drive and the inmate art contest

BUDGET NARRATIVE

New Prison Construction and Community Development

Organizationally the New Prison Construction and Community Development Units are operating under the Public Services Division although the budget is partially located within the Central Administration Division. The Governor's Balanced Budget moves the associated positions and Other Funds budget from the Central Administration Division to the Public Services Division. However, the Department will be requesting a technical adjustment during the development of the Legislatively Adopted Budget to move the remaining funds from the Central Administration Division to the Public Services Division.

New Prison Construction and Community Development staff are responsible for all activities necessary to bring new facilities on-line as scheduled, and that the Department designs and builds the right type of beds for the forecasted inmate population. This involves not only the actual construction, but also development of infrastructure agreements with service providers at a just, fair, and reasonable price. The goal to become an integral part of each community that hosts new facilities is also significant. Community Development staff take the lead in fostering the understanding that the Department of Corrections will be a good neighbor. Prison Advisory Committees and other local constituents in those areas are active participants with the DOC in local conversations.

Accomplishments 2009-11

The Department's Long-Range Construction Plan is based upon the Oregon Corrections Population Forecast issued by the Department of Administrative Services Office of Economic Analysis each April and October. The April 2009 forecast was used by the legislative assembly to finalize the department's 2009-11 Legislatively Adopted Budget.

The October 2009 and April 2010 Oregon Corrections Population Forecasts have continued to show continued growth of Oregon's prison population, with 2,000 more inmates expected over the next ten years. With the passage of Ballot Measure 57 (2008), which was temporarily suspended by Legislative action during the 2009-2011 regular session, the Department is focusing on construction of a new facility to be built and brought on-line in Junction City. This facility will focus on special needs inmate populations, with the first minimum custody portion scheduled to open in March 2015. Planning is continuing for the design, construction, and site/community development activities, including infrastructure solutions and designs, for the Junction City facility. A Construction Management / General Contractor (CM/GC) was hired in December 2009. Major portions of the city's new infrastructure system are under construction and include Junction City water and sewer improvements including a new well, water towers and water and sewer lines from the city three miles to site. Off-site infrastructure and on-site access are being done in conjunction with the Oregon State Hospital Replacement Project.

BUDGET NARRATIVE

Initial site work began for this facility in 2010, and focused on on-site wetland mitigation work and infrastructure systems. This early work includes:

- Wetlands Mitigation
 - Study and Permitting - \$0.5M
 - Purchase of 35 off-site credits - \$1.8M
 - On-site construction - \$5.0M

- Contract Early Work
- Installation of water and sewer trunk lines on site
- Decommission old wells on site and develop two new irrigation wells
- Installation of water tower on site
- Removal of farm house and out buildings
- Construction of spine road
- Improvement and extension of Skinner Lane across the site
- Total Water and sewer infrastructure costs for Junction City improvements and on-site work - \$34M

Key Initiatives 2011-13

- Restart design of minimum custody facility
- Work with ODOT for design and improvement of the Highway 99 and Mill Iron Rd. intersection.
- Continue work with Oregon State Hospital Replacement Project Team to identify co-located savings

BUDGET NARRATIVE

Public Services Division

010 Non-PICS Psnl Svc / Vacancy Factor

Package Description

Purpose

This essential package includes three components: 1) The cost of Personal Services adjustments, such as inflation on non-PICS accounts, i.e., unemployment compensation, overtime, differentials, and mass transit taxes, which are not automatically generated by the PICS system and are therefore budgeted here; 2) An adjustment for the anticipated savings associated with normal employee turnover, commonly referred to as vacancy savings, which is developed using a formula prescribed by the Department of Administrative Services (DAS) that considers both the savings and costs associated with normal turnover activity; 3) An adjustment to the PERS Pension Obligation Bond assessment, which is also developed by DAS.

How Achieved

Non-PICS Accounts – With the exception of Mass Transit, adjustment amounts are computed by multiplying the above referenced accounts in the 2011-13 Base Budget by the standard inflation factor of 2.4%. Adding to those amounts is the additional value of Essential Budget Level Exception #291-02 approved by the Department of Administrative Services. This exception resulted in a reduction of \$67 General Fund for security differentials awarded to represented non-security staff that perform specific security functions.

Vacancy Savings – An estimate of the savings associated with vacancies and hiring delays is included in this package. Vacancy savings are computed using the formula and guidelines prescribed in the Budget and Legislative Concept Instructions and approved in advance by the Department of Administrative Services Budget and Management Division. In the Public Services Division, projected vacancy savings decreased by \$245 General Fund and \$57 Other Funds from the 2009-11 budgeted levels.

PERS Pension Obligation Bonds – This package includes an increase of \$50,109 General Fund and \$1,804 Other Funds from 2009-11 budgeted levels for distribution to the Department of Administrative Services for Debt Service on Public Employee Retirement System Pension Obligation Bonds issued during the 2003-05 biennium.

Governor's Balanced Budget

The Governor did not make any changes to this package; however, package 086 removes standard inflation included in this package.

Staffing Impact

None

Revenue Source

General Fund	\$59,698
Other Funds	1,996

2013-15 Fiscal Impact

Actions approved in this package will have varying impacts on future periods. Normal inflation will be integrated into and become part of the Base Budget for 2013-15, as will the funding approved in the non-PICS exceptions. Vacancy savings are re-projected each biennium based on agency experience. The Pension Obligation Bond financing will be an ongoing liability for the agency.

Public Services Division

021 Phase-In

Package Description

Purpose

This package includes the additional costs associated with 24 month operation of programs or services phased-in during the prior biennium. The elimination of costs for programs that were terminated or phased-out during the prior biennium is reported in Package 022, as are budgets for extraordinary one-time expenditures in the prior biennium. Specific actions taken by this Division are described below.

How Achieved

This package provides the necessary funding for non-PICS Personal Services, Services & Supplies, Capital Outlay, and Special Payments accounts to provide for 24-month operation of units brought on-line during the 2009-11 biennium. The restoration of the budget reduction for the temporary suspension of Ballot Measure 57 is also included.

The additional funding for positions approved by the 2009-11 Legislature and phased-in during the biennium (after July 1, 2009) is budgeted in the Base Budget as part of the automated budget system process. Only the incremental cost for the above mentioned accounts is included in this package. Inflation for these additional costs is also included in this package at the factors prescribed by the Department of Administrative Services.

031 Standard Inflation

Package Description

Purpose

This package includes funding for inflation and adjustments to reflect the Price List of Goods and Services issued by the Department of Administrative Services. The prescribed standard inflation factors were used for all accounts in this Division.

How Achieved

For 2011-13 inflation factors are 2.4% for standard inflation, 3.1% for Professional Services and 11% for Attorney General charges. Inflation requested in this package is for the 2011-13 Base Budget. Inflation associated with biennialized phased-in programs, when applicable, is included in package #021. Inflation associated with new institution start-up and operation is included in the essential package for caseload, package #040.

040 Mandated Caseload

Package Description

Purpose

Mandated caseload changes included in this package are based on caseload changes for programs that are required by the federal government, the state constitution, or court actions. Mandated caseload costs include but are not limited to the cost of the additional staff and operating costs required to operate these programs. The April 2010 Oregon Corrections Population Forecast, published by the Department of Administrative Services Office of Economic Analysis, is the basis for actions presented in this package.

How Achieved

In response to the caseload projections included in the April 2010 Population Forecast, the department's Long-range Construction and Population Management Plans have been revised. Based on projected inmate growth, occupancy of the 1,227-bed medium-custody men's facility in Madras will continue to be phased in. The Population Management Plan also reflects continued use of temporary and emergency beds within the department's facilities as needed to manage the growing prison population.

060 Technical Adjustments

Package Description

Purpose

This package is used to highlight adjustments to the agency budget that do not meet the criteria of other essential packages, but still are significant to the overall understanding and presentation of the agency budget.

How Achieved

Public Services was allocated \$25,451 in General Fund for an agency-wide fleet reduction originally taken by Central Administration Division.

086 Eliminate Inflation

Package Description

Purpose

This package, added by the Governor, eliminates standard inflation from essential packages in the 2011-13 Current Service Level budget.

How Achieved

Standard inflation rates and adjustments were removed from non-PICS personal services budget items such as temporary appointments, overtime and differentials. In addition, standard inflation was removed from specific service and supply, capital outlay, and special payments line items, including biennialized phase-in programs, caseload changes and elements of the Price List of Goods and Services issued by the Department of Administrative Services

BUDGET NARRATIVE

Public Services Division

090 Analyst Adjustments

Package Description

Purpose

This package added by the Governor, reflects additional reductions taken to meet a 25% General Fund target for the public safety program area.

How Achieved

This package includes two technical adjustments. First is an internal reorganization to move New Prison Construction and Community Development from the Central Administration Division to the Public Services Division, resulting in an Other Fund transfer of \$1,014,021. The second is an internal reorganization to move the Office of the Inspector General from the Public Services Division to the Central Administration Division, resulting in a General Fund transfer of (\$11,857,745) and an Other Fund transfer of (\$502,784). The transfer amounts for these technical adjustments did not take into consideration adjustments made in packages 086 and 087. Therefore, a further technical adjustment will be requested to resolve this issue.

BUDGET NARRATIVE

Public Services Division

301 SAS Contract and License Renewal

Package Description

Purpose

The SAS (previously known as Statistical Analysis Systems) software system is the software that the Department of Corrections (DOC) Research Office uses to analyze data, assess program effectiveness, and quantify risk; virtually all statistical analyses are conducted using SAS. SAS software is also the software system used to create the DOC Data Warehouse and Corrections Management Information System (CMIS). Though DOC has contracted with SAS since 1999, there was never money appropriated to Information Technology (IT) Services for the contract. In 2000 the Research function was moved from Information Technology Services to the Administration Division and subsequently to the Public Services Division, however there were no funds that followed that transition. IT Services continued to finance the SAS software after Research moved out of its office. Without the SAS software, the warehouse and nearly all analyses would not be possible.

302 Data Warehouse Staff Enhancement

Package Description

Purpose

The current staffing level for the department's data warehouse is not sufficient to maintain and enhance existing Corrections Management Information System (CMIS) modules while also continuing to develop needed new modules. As new modules are added to CMIS, the amount of maintenance and number of requested enhancements increases proportionately. Unless new resources are allocated, the data warehouse team will soon lose the capacity to build new modules while maintaining and enhancing the data warehouse. The department estimates that it will take the current team the entire 2009-11 biennium to complete existing requests for enhancements while maintaining CMIS and the integrity of the data. In summary, to keep up with the existing workload, no new modules will be added to CMIS until 2011. These new modules will roll out at a slower rate until, eventually, there is no capacity to build new modules.

The department currently realizes cost savings from the data warehouse: tangible savings from line staff and research staff time saved by the automation of reporting and timeliness of information for the legislature, and intangible savings by having information available consistently and accurately across the agency. Future development will bring additional savings through the integration of program, cost, offender and staff data in one system where the agency can truly see the impact and cost of policies and programs. This collective data supports the department's mission and strategic plan through accurate measurement of policies and programs for operational effectiveness and future planning. Without the addition of new resources, these future savings and the benefits of better information for strategic decision-making will be reduced. The benefits to the agency in return for this relatively small investment are many and far-reaching.

How Achieved

The department proposes addition of one Information Systems Specialist 6 (ISS6) that would handle maintenance and a majority of enhancements for CMIS on an ongoing basis. The additional position would enable the data warehouse team to continue to provide critical information on program performance, supervision outcomes, policy impacts and offender populations in a timely and accurate manner. This request is essential to the continued support of the DOC mission, business plan and strategic initiatives, including identified performance measures. Many of the initiatives require intensive exploration and use of department data to plan initiative development, as well as measure progress and effectiveness. Examples include recidivism numbers, percentage of inmates completing programs, and data related to inmate/staff assaults or serious inmate misconduct.

BUDGET NARRATIVE

This would serve as a dedicated position that would ensure the integrity and accuracy of data in the data warehouse and enable the data warehouse team to grow the capabilities of CMIS and add new modules. Additionally dedicated commitment to the data warehouse permits the Research Unit to concentrate greater efforts in actual research, thus supporting statutory obligations around evidence-based programs, as well as providing information supporting the department's performance measures, strategic initiatives and mission, goals and objectives. The position would be recruited for and filled within the first 60 days of the new biennium. The first 90 days would be dedicated to training associated with DOC mission, goals, objectives and operations; unit activities around research, evaluations, statistical analyses; and intense familiarization and education regarding CMIS. After 90 days, it is expected the individual in this position will have the capability to fully manage data warehouse requests.

Research Unit staff, to include two (2) Information Systems Specialists 7, three (3) Research Analysts 3, one (1) Research Analyst 4, and one Principal Executive Manager D supervisor, developed a workload analysis outlining accomplishments over the past 5 years, current projects, future projects and staffing capabilities. Due to the current staffing structure, **at that time**, the Research Unit and Public Services Division made the recommendation to the department's decision-making body, the Policy Group, regarding a specific timeline for data warehouse enhancements to existing modules and new module development. (See timeline below) The timelines proposal was accepted. As a result of current staffing capabilities and increased workload, that timeline is being adjusted to move both enhancement and new development back more than one year.

Quantifying Results

Results of adding, recruiting, and hiring for the ISS 6 position will be quantified through monitoring the attached timeline which sets forth specific dates for completion of enhancements to existing data warehouse modules and development of new modules. This individual's work will significantly reduce the time it will take to complete the tasks listed on the timeline.

BUDGET NARRATIVE

Additionally, the dedicated time and commitment will free up staff resources for research projects. Results will be measured by evaluating numbers of projects undertaken, percentage completed and timelines for completion.
