

CIS-ISIS USERS GUIDE

Corrections Information System Integrated Supervision Information Systems

HOW DO I..?

For Changes or Updates, please contact the FAUG Chair

January 2003

March 2010 (revised)

1- How to use this guide:

1. **Most data entry questions** can be resolved with information that is directly in front of the user. By using the “golden rule” of computer use: (Read The Screen) users can discover the answer looking right back at them.

2. **Explore:** See Section 3 on Help.

3. **Local resources:** Know where Training Guides are kept in your office. Or ask an experienced user in your office, such as a FAUG or SOON Representative for advice and/or information about this users’ guide.

4. **Phone:** For technical problems, e-mail the DOC Help Desk at Helpdesk@doc.state.or.us or call 1-866-531-9600.

There are several methods of navigating through ISIS using options and windows.....

In this guide, brackets < > are used to identify the key you should press; i.e. <5> means press the number 5 key, and <F5> means press Function key 5. ISIS is not mouse friendly, so use your arrow and tab keys instead.

Function keys <F1> through <F12> are used simply by pressing the desired key. Function keys <F13-Shift F1> through <F24-Shift F12> may require that you first press the <Shift> key and while holding it down, press the appropriate function key. See the template for the location of each function key.

Read The Screen! Menu options, selection numbers and letters may vary; depending upon which work group you belong to. For example, PPO’s may see different menus and choices than support staff or managers.

2 - Use the Menu Bar to move to other parts of CIS/ISIS:

<F11> Menu Bar displays the four selections available at the top of the screen: <1> **Active Jobs**, <2> **WS (Work Station) Options**, <3> **Process Step**, <4> **Info Windows** and <5> **CIS Web Service**. Typing the number selects that option. A window containing the choices available within that option will then appear. These choices are identified by letters, and are selected by typing just the appropriate letter on the selection line. **Do NOT use <Enter>**.

<1> Active Jobs

- <A> W/W ToDo List*
- W/W Caseload*
- <C> Offender Information*

<2> WS Options

- <N> Add Offender Note (F4)*
- <T> Add a To-Do Task
- <D> W/W System Messages
- <P> W/W Printed Output
- <E> User E-Mail Address and Phone
- <X> PopUp Calendar
- <Z> Date Calculator

* A complete explanation of this feature is provided on page 25.

NOTE: a Menu Bar option is available ONLY when it is highlighted.

<3> Process Step

- <> Letter key will vary by task, when available!

<4> Info Windows

- <> Letter key will vary task, when available!

<5> CIS Web Service

- <A> Open OIS Community
- <C> Open CMIS Community
- <F> Open Web Leds Community
- <J> Open LSCMI Community
- <K> Open ICOTS Community

3 - Get "HELP", use Create or Change modes, or the Audit Stamp....

If <F1> Help does not answer your question, ask someone else in your office for assistance. Most offices have a trained support person, commonly a member of SOON (the clerical users group) or FAUG (the PO's user group).

Help Desk 1-866-531-9600 - Call the Help Desk if you are unable to resolve your problem at the local level. When you call, you will be asked for your name, phone number, User-ID, device name, and other similar questions. Your call will be entered as a “trouble ticket” into a tracking system. This will automatically notify the person who has been pre-identified as having the means of helping you, and they should quickly respond to your call. If you have questions or concerns about your “ticket”, feel free to call the Help Desk and ask about any progress being made. The Help Desk can also be reached via email at Helpdesk@doc.state.or.us

<F2> Audit Stamp - If you want to know who was responsible for the last entry of any information, such as a Treatment date, or a UA, place the cursor on the information you are questioning and press <F2> **Audit** to see who last entered information about this subject.

Create & Change Modes - When an information entry screen or window first appears, the word **CREATE** will be displayed, usually in the upper right hand corner of the screen. Type in the information you need to, and press <Enter> once. The screen or window will now read **CHANGE**, to indicate that your information has been saved, and you are now able to exit the screen (use <F12 Cancel or simply <Enter> again); OR you may edit what you just typed. If you add to, change, or delete something while in the "CHANGE" mode, make sure you press <Enter> again to save your changes or the new information will not appear.

Retrieve An Offender Name - after working with an offender in one part of ISIS, and moving to another part of the program (using the F11=Menu Bar) to work on the same offender, press <F9> **Retrieve** to automatically retrieve that offender's name for use in the new program.

Use "Defaults" To Process Related Groups of Offender Data Entries - From the Edit Offender Data screen, use <F22-Shift F10> Defaults to display the **CHRONO DEFAULTS** window. Set the Date, time if needed, Place, Person, contact, report, and Key Word fields to meet the criteria of your series of entries, and press <Enter> twice; then <F5> Refresh to set the defaults on the current offender's display.

For example, if you did home visits yesterday, you would set the date to <yesterday's date>, Reason to <H>, and Person to <O>, and <Enter>. Then, on the Offender Summary screen (the alphabetical caseload list) type <2> Change on ALL of the offenders you visited, or tried to visit yesterday, and press <Enter> to go to the first offender, alphabetically. The Chrono header is already for you to enter the text information. You can change the header for the exceptions. Press <Enter> to save the chrono, then press <F12> Cancel to move directly to the next pre-selected offender. Repeat until all are completed. Then change the <F22-Shift F10> Defaults back to the normal settings and <F5> Refresh.

Accessing Other Menus: - To access another menu, type “MENU” on the selection line, and then press <F4>. This will display a list of menus that you have authority to. Note: all menus that begin with “CC” (such as CCTRAIN) are Community Corrections-based menus. After finding the desired menu within the list, place your cursor on the menu’s name, and press <Enter>. You should see that the title and options on the left of your menu have now been replaced by the new menu. Hint: if you already know the name of the menu, simply type “MENU” <Spacebar> and then the name. For example: if you type “MENU CCTRAIN” on the selection line, and press <Enter> you will see the menu for Community Corrections online tutorials!

4 - Use W/W Caseload & Option <2> to enter chronos:

An auto-generated e-mail will be sent to the primary caseload owner(s) whenever someone other than the primary(s) adds a chrono to an offender record. The e-mail will contain the offender’s name, SID, and caseload number as well as the UserID of the person who entered the chrono .

Updating Employment Status

1. In the Employed field, type Y for Yes or N for Not employed; enter date offender started employment (not date you made entry in chrono); type in percentage of work week that offender is employed, i.e.,

fulltime=100%; halftime=50%; 2 days a week=20%; retired, disabled, on SSI/SSD, or a homemaker is entered as 101% and a Y in the employment field is required. Fulltime or part time schooling counts.

3. "SC" means "Significant Contact." If in your professional judgment this a contact that meets OCMS and local standards, defaults to "Y" for "Yes." Type "N" if NOT significant.

4. "**MR**" means "**Monthly Report accepted.**" Defaults to "N" for no monthly report submitted. If you accepted a monthly report, type a "**Y**" here.
5. "**Key Word**" identifies the main topic of the chrono. Refer to the list of Key Words on page 6 below, use as appropriate.

Date	Time	Place	Person	SC	MR	Key word
3/20/2007		O	X		Y	N
More...						

*If you do not use these fields - **Place, Person, SC, and MR**, then ISIS cannot collect and give you workload credit for your contacts and Monthly Reports received when an electronic case audit is performed. Nor will generated entries, PO Special Reports, or Chrono Search work as anticipated.*

Text Field

Date	Time	Place	Person	SC	MR	Key word
3/20/2007		O	X			
More...

Chrono Entry

8. Press <Enter> once to save the chrono; you will then be in the CHANGE mode to edit the chrono if necessary.
9. Press <F12> Cancel, OR <Enter> again, to return to the Offender Summary or go to another pre-selected offender name. <F3> Exit will return you to the Summary screen, even if you have pre-selected other names.

Flashing Indicators

On the Offender Data Edit screen you may see the below flashing red indicators; SAN=sanctionable; DET=Detainer; NOT=Notifier.

5 - ISIS Keywords List

The Field Automation User's Group, FAUG, recommends the following list of key words for use in the Keyword field of Chrono entries. The use of these words will promote consistency in and between offices, and improve the ability of users to quickly search chronos for significant information. Below are some suggested keywords.

<u>WORD</u>	<u>DEFINITION</u>
Arrest	All arrests of Offender by any agency.
Associates	All friends, family, and organizations affiliated with the offender.
Audit	Supervisory audit of offender file.
Authorization	All permissions given to the offender, including travel, visitation with victim or minors.
Caution	Any officer safety concern.
Confidential	Private information from Law Enforcement, family, informants, and other sources.
File Review	PPO review of file, or closing summary, or transfer of offender.
Map	Directions to the offender's residence.
Polygraph	Directive and/or results of a polygraph test.
Report	All violations and sanctions pertaining to the offender.
Search	A search of the offender or property.
UA	Urinalysis testing.
TX	Treatment information for offender.

6 - To Edit Chrono History, Append, Delete Or Modify Chronos - You Must Start With Option <2> Change When Selecting The Offender.

<F20-Shift F8>=HISTORY - use to go to the chrono history screen. The most recent entry will be displayed.

Bottom

F4=Prompt F5=Refresh F10=Print F11=Menu bar F12=Cancel F13=Roll change
F14=Find options F16=Find F20=Modify F21=Append F22=Delete

<F4> Prompt - use on SID number to display Offender/Caseload Select window, to move to another offender.

<F5> Refresh - use to "erase" things you have typed, and return the screen to the way it originally was.

<F10> Print - use to print chrono history. Specify start and end dates; or use default setting to print entire history.

<F11> Menu Bar - use to move to some other part of ISIS, or access Offender Notes or ToDo List.

<F13-Shift F1> Roll change - changes the <Page Up> and <Page Down> so the chronos scroll a page at a time, or an entry at a time.

<F14-Shift F2> Find Options - displays screen where you enter chrono search criteria.

"String to Find" - type the word or phrase you want to locate exactly as it would be in the chrono.

NOTE: if you type ALL CAPS just for important words, you can easily locate them by specifying...

"Kind of match"

<1> Same case - (upper or lower) as you typed in the string field; skips all other similar entries.

<2> Ignore case - locates all identical strings regardless of case.

-OR-

- “Chrono date” – locate a specific chrono by date.
- “Chrono place/reason” – locate all chronos relating to a specific type of place, such as H for Home.
- “Chrono person” – locate all chronos relating to the specified type of person.
- “Chrono key word” – locate all chronos bearing the specified key word.
- OR-
- “Signature user” – locate all entries made by any, or a specified, User-ID.
- “Signature date” – locate entries by date chrono actually entered into system, not the date of event.

<F16-Shift F4> **Find** – press to start search after setting chrono search criteria (<F14> or the "Find____" field).

<F20-Shift F8> **Modify** – use to edit a text or narrative chrono not more than 7 days old, that you wrote.

<DOWN-ARROW> to place cursor on the header of the entry needing modification, and press <F20-Shift F8> again. The chrono will reappear on the Edit Offender Data screen, which will be in "Change" mode. Make the changes you need, and press <Enter> to save them.

<F21-Shift F9> **Append** - use to add information to chronos more than 7 days old; chronos you did not write; or to system data entries such as for treatment or UA's. To do, follow same steps as "Modify" above except use <F21-Shift F9> to append.

<F22-Shift F10> **Delete** - used to remove a chrono entry that is less than 7 days old that you wrote, from the chrono history. After 7 days, chronos cannot be deleted. You will be told on screen if you can delete this chrono. Place cursor on chrono header line of the chrono you want to delete. Press <F22-Shift F10> to display the deletion confirmation window; then press <Enter> to confirm deletion. <F12> will cancel, as will <N> <Enter>.

NOTE: Tasks 7-11 are accomplished by using the <F11>Menu Bar, <4>Info Window, and the identifying letter. Do not press <Enter> to select; just type <F11>, <4>, <letter>. These tasks can also be accessed through the Offender Summary Screen by entering the appropriate option number beside the offender's name (i.e. 9=SAT Log; 12=Condition Tracking; 13=Treatment Programs; 14=Names; and 15=Addresses; etc.

```

NOTE: Once changed to a different caseload number, you may use <F6> Use as default caseload to cause ISIS to always display the new caseload number, not the old one. A team member might change their individual caseload number to the team number.

14 - To Add Or Remove “Secondary” Offenders From A Caseload:

Primary refers to those offenders you actually supervise; they were assigned to your caseload through OPS and are indicated with a 'P' on the Work with Offender's Summary screen.

Secondary refers to offenders who are actually assigned to someone else (the primary caseload) but you have temporarily added their name to your caseload for a release or transfer investigation, team supervision, or to monitor while they complete a supervision condition like community service and are indicated with a 'S' on the Work with Offender's Summary screen.

If an offender is a *secondary* member of your caseload, ISIS will also display this information along with the abbreviation of the branch office or institution that actually "owns" the offender immediately under the employment and next office appointment fields.

To add a *secondary* offender to your caseload:

```

CMS203I      TRAINING Corrections Information Systems      10:46:39
TISIS15      Work with Offenders Summary                  3/30/07

```

1. <F6> **Add Offender** - displays the Add Offender window. Enter SID# on Offender field if known.
2. <F4> **Prompt** on the Offender Name field to display the Name Search window, which defaults to *ALL names, a state-wide listing including all field offices, institutions, Compact, and DOC agencies dealing with offenders.
3. Specify and Select Offender:
 - a. Statewide name search - type name as follows: LASTNAME FIRSTNAME, press <Enter> to position the list on or close to the offender name you want. Place the cursor on the name you want and press <Enter> to select.
 - b. Local name search - Type the offenders name as follows: LASTNAME FIRSTNAME, Then <Tab> to the Location field, and <F4> Prompt to select the needed agency, OR just type the desired agency code; e.g. UMAP; OSP, CCOM, etc. on the field. (This limits the search to names at this location.) Press <Enter> to run search. Place the cursor on the name you want and press <Enter> to select.

To remove a *secondary* offender from your caseload:

```

CMS203I      TRAINING Corrections Information Systems      10:56:36

15 - Subset caseload or treatment programs:

Subset - this function is used to select and display only that small part of a given larger group that meets specific, restrictive selection criteria. In ISIS, Subset is used to identify a specific group of offenders within your overall caseload who have certain characteristics in common, such as just your "HI" cases; or treatment program(s) that meet desired criteria such as substance abuse treatment in a certain county.

To subset Caseload - when viewing your caseload from the Offender Summary Screen, press <F17-Shift F5> Subset - this will display the Offender Subset Selection screen.

<F4> Prompt is available on many of the fields which use a code or condition for a subset criteria.

To subset Treatment – when viewing your caseload from the Offender Summary Screen, press <F17-Shift F5> Subset – this will display the Offender Subset Selection screen to obtain the subset selection screen below.

1. <F12> **Cancel** to "back up" one screen to the "Select Offender to Work With" screen.
2. Blank out caseload number field.
3. With the cursor on the Name field, press <F4> **Prompt** to display the "Offender Name Search" window.
4. Type the name of the offender you want as follows: LASTNAME FIRSTNAMEMI, and press <Enter> to move to or close to that name in the list.
5. The list may be restricted to a specific area by first placing the cursor on the "Location" field and either typing in the code for the county or other location; or pressing <F4> Prompt to view and select from the available locations.
6. <F16-Shift F4> **View Description** toggles, or alternatively displays, with <F16> View Status Data.
 - a. Description lists basic offender descriptors, including sex, height, weight, hair, eyes, and race.
 - b. Status lists name type, birthdate, SID, caseload, location, and status/cell.

NOTE: if alias, moniker, and/or true names have been entered, you can also find the offender by that name, and ISIS will automatically match up the court name.

17 - Add Offender Note: <F11-2-N> or from the Offender Summary Screen option 16:

1. Selecting the offender name:

- a. If called from or while displaying an Edit Offender Data or Chrono History screen, notes will automatically select that same offender and display their name on the note.

```

N Work Station Options
N Add Offender Note (F4)

```

2. The window when first displayed is the "**ADD MODE.**" The offender's court name will be displayed, followed by their SID number. Press <Tab> to move to the text entry area.
3. Type the text of the note. Press <Enter> once, the note is saved, and the window will switch to the "**CHANGE MODE.**" If you need to make any corrections or additions, do so and press <Enter> again.
4. Press <Enter> a second time, OR <F12> Cancel to remove the note window.

Notification Of Note Delivery - How will you know a note has been sent, and by whom?

1. In your E-Mail inbox will be a message that an offender note on a specific offender has been received.
2. On the Edit Offender Data screen for that offender, the reminder "NOTES" will appear in the center.

To Read An Offender Note –

1. Select W/W Caseload from the main menu, then Option <2> Change on the name of the offender with the note.
2. Press <F21-Shift F9> Notes to display the Offender Notes window.
 - a. Top right hand corner - advises which note this one is, out of total number of notes present.
 - b. <F6> Create - allows user to write a new note for this offender.
 - c. <Page Up> and <Page Down> scroll up and down through long notes.
 - d. <F7> Previous Note and <F8> Next note move to previous or next note in series.
 - e. <F13> Change - allows the author of a note to change it; all other are excluded.
 - f. <F14> Delete - allows the owner of the case to delete the note if it is not important.
 - g. <F15> Move to chrono - places the note on the Edit Offender chrono screen. Press <Enter> to add note to chrono history.
3. Press <F12> Cancel or <F3> Exit to leave the notes window if still displayed.

18 - Option 23/24 Merge Documents to write reports:

“Option 23/24” Merge Documents - this option merges or combines a pre-existing form, report, or letter (called boilerplate text) with specific information pertaining to the selected offender. An example is merging the outline and section headings of a violation report with an offenders information, so that standard information like name, SID, docket number, and more, are filled in by the computer. This leaves only the sections the computer could not fill in, such as the allegation and substantiation sections, for the user to quickly and easily complete. The amount of user input will vary with the document; some documents are completed entirely by the computer, others require extensive user input.

Individual documents may be linked together to form a larger, multi-page document prior to merging. This will save the user time by doing all of the merge operations of several documents pertaining to the same offender all at the same time. After merging, any unwanted text is easily deleted. One example of this process would be to link a Detainer, a Show Cause Order, a Violation Report, and any other necessary form into one longer document. Within each office, staff has been designated to learn even higher levels of skills, so that they may maintain, copy, and create Option 23/24 documents for their office. Typically, this is the FAUG or SOON representative. Speak to them if you have questions about the use of an Option 23/24 document.

To access and select Option 23/24 Merge Documents -

1. From the Offender Summary screen (the alphabetical list of your caseload) select and type <23 or 24 based on the file format you will need for your system> in front of the name of offender you want to write a report, form, or letter about, and press <Enter>. This will e-mail the merge data to your e-mail folder and you will receive a message at the bottom of your screen that says “offender data has been sent via e-mail”.
2. Retrieve the information using your e-mail program and save the DOCSUM.TXT attachment to the drive designated by your county or FAUG Rep.
3. Document selection – go to the location where your Option 23/24 templates are stored and select the document/form/letter that you wish to use. Your document/form/letter will be displayed with merge fields in place.
4. Use your word processing program to initiate the merge process. When completed, the merged document will display. You may need to contact someone in your office who has received training on this procedure.
5. Save document to your designated folder in your word processing program.
6. Print document using your word processing program.

Notes regarding your individual requirements for merging documents: _____

19 - Structured Sanction/Morrissey Package:

1) To create a Sanction record for an offender on your caseload, select the offender by entering Option <19> in front of the offender’s name on the Caseload Summary screen; this will bring up the Structured Sanction History Window.

CMS203I	TRAINING	Corrections Information Systems	10:59:05
TISIS15		Work with Offenders Summary	4/26/07
Caseload number . . . 3443 LEWIS, PAM			
Position to . . .			

- 13) Code is used to indicate the type of Sanction recommended; select one of the possible sanction types by entering the correct code (use <F4> to see all types). Note: both Sanction types and Intervention types are displayed in the <F4> table.
- 14) To determine the maximum number of units that should be recommended, use the <F4> key in the Units field. This will display the Intermediate Sanctions Sentencing Grid. Choose which column (1-4) the offender's most serious behavior appears in; enter that value, press <Enter>.
- 15) If the sentence information is entered correctly, the maximum number of units should be highlighted, based on the Crime score, the supervision level, and the violation seriousness. To accept the recommended maximum, simply press <Enter>; to enter a different value, press <F12>.
- 16) Enter the authority code (use <F4>) that is making the recommendation. Then enter your userID.
- 17) If there is no hearing pending, and the number of units is within your authority, you may complete the form by entering the "Given" portion, which also included the Sanction Code, Units, Authority and UserID.
- 18) After entering everything possible into the form, press <Enter> and a blank form will be displayed to enter your violation report.
- 19) If you have given the offender rights, press F11-4-N, or from the main screen place the cursor on the Date Notified of Rights line and press F4, to complete the Hearings Officer Notice of Rights screen, seen below.

20 - Structured Sanctions & Movement History

Sanction Movement Tracking

To record “actual servitude” of a sanction, you must accurately reflect the movement of the offender while serving the sanction. This is intended to reflect exactly how many days/units an offender served within a variety of housing environments.

- 1) The W/W Sanction Movement screen can be accessed a variety of ways: 1) from the PPO Main Menu (**Option 42**), or 2) from the Menu Bar/InfoWindows within the Sanction Record itself.

CCPPO	TRAINING Corrections Information Systems	9:15:14
TISIS15	ISIS PPO Main Menu	4/27/07
Select one of the following:		
37. Change User Password		
38. OR Corrections Plan (Inmate)		
39. Criminogenics (Inmate)		
41. W/W County Inmate Status		

```

42. W/W Sanction Movements

45. W/W Release Plans - Caseload
46. W/W Release Plans - Offender
47. W/W Supervisor Warrant Review
48. W/W Supervisor SRF Review
49. Print Parole Board Orders
    More...

Selection:                               Job:

F3=Exit   F4=Prompt   F10=Move to top   F11=Menu bar   F12=Previous menu

```

- 2) Once within the W/W Sanction Movements screen, verify that the correct offender is displayed; if not, enter the correct SID# or use the <F4> Prompt on the Offender field to locate and display the correct offender.
- 3) To begin, choose the type of movement (use <F4>). The two possible choices are either SANC for a Structured Sanction movement, or VLSA for a court-imposed sanction resulting from a formal violation hearing. The LC and LCRB movement types are used by your counties Local Control Authority.
- 4) Then enter the Start date/time to reflect when the offender actually began serving the sanction. If this is being entered at the time the offender is lodged, you will not know the Stop date/time. Do not try to predict when the offender will be released, as this will not accept a future date. You will need to come back after the offender has been moved/released from this housing assignment to enter the Stop date/time.
- 5) Choose from the available Supervision Status codes (use <F4> to choose) to reflect the actual housing assignment the offender is placed in.
- 6) Now identify the Sanction that this movement is tied to, by pressing <F4> on the Sanction Date field. This will display all the Sanctions that have been recorded on the system. Select the Sanction record by putting the cursor on the correct record and pressing <Enter>. You should see the Sanction Record date and Court case displayed.
- 7) Press <Enter> to add this movement to the Sanction Movement history.

Past uncompleted tasks have been retrieved.
```

5. **Option <12> Completed**: used to mark each item as it is done, so it won't be retrieved tomorrow.
6. **Option <13> Reopen**: used to reopen a completed task.
7. **Option <2> Change**: used to modify an existing To-Do task.
8. **Option <3> Copy**: used to copy a task to another user's To-Do list, and/or another date and/or other priority. Since you are copying to another list, the "original" task stays on your list, on the original date.
9. **Option <11> Move**: used to move a task to another user's To-Do list, and/or another date, and/or priority. It will be removed from the original list. And if you move it to another user's list, you can't get it back.
10. **Option <15> Process**: temporarily takes you from the generated entry list directly to a work screen, e.g. going from an offender whose risk assessment is due to the risk assessment screen, or to the offenders Edit Offender Data screen to enter a contact. When done, you are returned to the To-Do List screen.

Effects of using past, present, and future selection dates:

Past: Shows status of your caseload at that time, e.g. who needed significant or other contacts; who was referred to or pending completion of treatment; or if an assessment needed to be completed.

Present (default or current date): Shows current status of your caseload, as of today; e.g. offenders needing significant contacts and how many; the risk reassessments now due; offenders currently referred to or pending completion of treatment; and those offenders who are due for a home or office visit.

Future (used to plan your future casework and schedule):

Significant Contacts - updated every 15 days to meet OCMS standards; set to last day for current month to see how many significant contacts will be needed this month, or remain to be accomplished this month.

Risk Re-assessment - set to 30, 60 or 90 days in the future to determine which offenders will need reassessment.

Treatment Referrals made prior to - usually run on current date only.

Treatment completion due - set 6 or 12 months in future, to remind you of which offenders should finish treatment.

Office Visits due - set to first day of next month (or more) to see which offenders are due to report to office. If printed, can be a checklist of who has and has not reported. Run weekly if using as a checklist.

Home visits due - set to first day of next month to see which offenders are due for a home visit. Low/Limited offenders are not included in this category.

<F10> **Print** – use anytime to make a printout of your To-Do List to use as a checklist.

Contact numbers are specific to the county/location. They reflect local standards, so some contacts may not show if not required locally.

22 - Use Generated Entries to track offender contacts and treatment status, to help you manage your caseload.

CAUTION: Generated Entries will only work for you if you put the necessary information into ISIS, such as correctly chronoing offender contacts, and recording treatment referrals and start of treatment dates.

KEYS TO USE:

- <F14-Shift F2> **Generate entries:** will display report options. All default to today's date, but past and future dates may also be used.
- <F15-Shift F3> **Remove generated:** removes generated entries from To-Do list - always do this when you are done with the list.
- <F16-Shift F4> **Exclude completed:** used to "hide" from view, or re-display, tasks marked as completed

Specific Generated Entry selections include:

1. **Significant contacts:** Will display name of offenders needing contacts, tell how many contacts are due, and by what date they are due. *Use default date for current contacts needed; use a future date e.g. first of next month; to find who needs how many contacts.*
2. **Risk Reassessment:** Will display offenders who need to have a new risk reassessment, and the date by which the assessment is due. *Use default date for list of current assessments due' select a future date 6 to 12 months ahead to list pending assessments.*
3. **Treatment referrals made prior to:** Will display names of offenders who are listed in the treatment files as having been referred, but not started, in a treatment program.
4. **Treatment completion due:** Displays those offenders who should complete treatment as of the specified date. (This is based on the average length of treatment field in the W/W Treatment Program directory.) *Use default date to list offenders who are expected out of treatment now; use future dates (6-12 months ahead) to predict who will end treatment.*
5. **Office visits due:** displays those HI and MED offenders who need office visits, number of visits needed by what date.
6. **Home visits due:** displays those HI and MED offenders who need home visits, number of visits needed by what date. *NOTE: office and home visits may not show any names, if such contacts are not required locally.*

To use, type in the desired date(s) on the selected criteria, and press <Enter>

23 -PO Special Report Process:

Access: From the main PPO Menu type <16> **CC** Reports Menu then hit <Enter>.

PO Special Reports is used to create reports useful for monitoring case management by an officer, or a supervisor. Although the last reports in this series are labeled as Management Reports, they are available to any officer to help monitor their own compliance with OCMS contact standards and other similar issues.

Report screen format – can be located in the Reports Manual located on the DOC home page website.

NOTE: if an example uses an “*”, You must too or the report will not run.

Default settings - These are the Codes you will change as needed, to achieve your report needs.

- *TODAY - due as of this date. May be set to future dates for future caseload activity planning.
- *ALL - includes all members of the specified topic; e.g. all risk classifications HI, MED, LOW, LTD, etc.
- *DFT - (default). In PO caseload number, the default is the caseload number associated with you, the user. Character Value - a caseload number or location (county) code other than the default.
- *DSP - Run Options include *DSP (Display), *PRT (Print) or *ALL (Display and Print.)

To run a report: Set the Code Criteria to meet your needs. .

1. PO Reports will default to display a report as of the current date. Change date and other codes as needed.
2. Management Reports print only. You must specify the start and end dates to define the time period the report will cover.
3. Press <Enter> to run the report.

24 - Release Planning: (W/W Release Plans to complete a field investigation)

There are 3 options on your Main Menu to work with Release Plans: by Offender (SID), by Caseload, or by Location. You will need to select the most appropriate view, depending on your role.

W/W Release Plans by Location: all active plans for offenders being released to a specific location.

W/W Release Plans by Caseload: all plans assigned to a field counselor caseload for investigation.

Community Info screen: enter Field Counselor Caseload to reflect PO assigned to field investigation. Complete Sponsor/Relationship field, Employer/Contact, Employer ph#, and Transport By.

Institution Info screen: Inst Counselor is person reviewing Release Plan w/inmate during sentence. Months Supv Remaining, round off to full month. Can add COFO's to plan by using <F4> on Financial Oblig. Crime Type: S= Sent Guidelines, M=Matrix case. Can also specify Reporting Conditions by using <F4> on Detail. Enter any notes or other misc info on lines above Conditions.

Parole Board Info screen: Confirm or enter Institution Counselor and/or Field PO. Do not use the "Send Completed Plan to" field, if needing to send to another location, exit the plan and use the "Send" option.

W/W Offenses, W/W County Inmate Movement, W/W Sex Offender Assessments, Chrono: these screens are attached to the Release Plan for your convenience, if you don't need them please disregard.

4. **Complete LC:** If offender is currently Local Control status, the Supervisory Authority can mark the plan "complete" by using option <13>. If the offender has already been released and admitted onto PostPrison, the field cannot use the "Complete LC" option, need to contact FAST Team to have them mark as complete.

5. **Moving a Plan:** If needing to move from one caseload to another at same location, simply change the Field Counselor caseload #. If you want to move to a caseload at a different location than where the plan currently is, you need to send to that location first, then have the receiving location make the change to the desired caseload.

25- SUPERVISOR REVIEW – WARRANTS

The Supervisor Review for Warrants process allows warrant requests to be 'passed' electronically from one ISIS user to another ISIS user. This eliminates the need to actually print out a draft form until the request has been approved. After the electronic review process has been completed, a final report can be printed and signed for the file.

```

Supervisor's Review - Sanction Reporting Form (SRF)

The Supervisor Review for SRF's process allows a supervisor to review and monitor active sanctions and Morrissey Hearings. When an SRF is forwarded electronically for approval, it is added to the supervisor's list, where it can be monitored until the hearing is complete.

1. After receiving the e-mail notice that a Sanction Reporting Form has been submitted to you for approval, go to your Main Menu and select "**W/W Supervisor SRF Review**"; this will show all the SRF's that have been sent to you.
2. Use **option <5>** to review an SRF. While reviewing, use <F18-Shift F6> to view HO text.
3. If the SRF is approved, you can then complete the SRF (if no HO is needed), or send the SRF to a Hearings Officer.
 - a) If no Hearings Officer is needed, use **option <2>** to change the form, entering the actual sanction that was given under the "Sanction Given" portion of the form. After all info is entered, press <Enter> twice. Then use **option <16>** to set the sanction to "Complete" status.

- b) If the SRF needs to go onto a Hearings Officer, use **option <15>** to send it electronically. When you send it, the Status will change from SUPV to HO.
4. If the SRF is not approved, use the **option <15>** to send back to the submitting PO. The PO will receive an e-mail indicating that the SRF has been returned.

WINTERS DANIEL is the court name for WINTERS DANIELM.

Parole Board Warrant:

1. Press <F6> **Create PA Warrant**: this will open a new warrant window. Confirm SID#, press <Tab>. Requester ID is person requesting warrant (if you are supervising PO, leave your ID here; if you are support staff, enter supervising PO userID here) press <Tab>. When requesting warrant, "Wrn Type" remains "WREQ"; press <Tab>. Press <F4> to view all cases, enter "1" for primary case, "2"- "5" for any other cases you wish to attach to the warrant; press <Enter> to return to Warrant window. Press <Tab> to move to Address: the last known address from the Chrono file is by default displayed; as most warrants are due to absconding, enter "unknown" for address; press <Tab>. Enter the basis for your warrant in the bottom of the window. The Parole Board does not require a formal "report" here, simply about 6 lines or less that detail the (lack of) action of the offender and the PO's attempts to contact the offender. *[If your supervisor requires a formal report format, the Board asks that you begin with a paragraph as described above, then below that paragraph begin your formal report. This will allow the Board to review the warrant request without having to move through a full report 6 lines at a time]*. Press <Enter> when the request is complete.

2. Once the request is complete, you will need to send it to either a Supervisor or the Board (depending on local policy). Enter a "10-Send" in front of the warrant; press <Enter>. If sending to Supervisor, enter his/her userID and leave "Send to Board" as "N". If sending to Board, use <Tab> to move to "Send to Board" and enter "Y"; press <Enter>. The request will be sent onto the designated recipient at this time (notice the status has changed to either "Supv Review" or "PB Pre-vote").

Probation Warrant:

1. Press <F7> **Create PR Warrant**: you will need to select from MSK1 (Probation Abscond Warrant), MSK2 (Probation Abscond Wrt with Affidavit), or MSK3 (Probation Abscond Wrt w/Affidavit and Orders) - use <Tab> to move to desired format, press <Enter>. Follow same steps as Parole Board Warrant to complete request form. Press <Enter> to add Warrant Request to system.

2. If needing to send to supervisor for approval, use the "10-Send" option and enter his/her UserID. To update the status of a Probation Warrant, you must open the request (by using "2-Change"), then using <F4> on Status; select the current status of the request (Complete, Issued, Withdrawn, etc...). Once the offender has been arrested on the warrant, be sure to change the status to "Complete".

Local Control Warrant:

1. A "Local Control Warrant" currently is used only on an escaped or absconded Local Control Inmate. If the offender has been released onto PPS from a Local Control sentence before absconding, you would need to use an Option 20 report to crease an LC Warrant Request report. Do not create a Parole Warrant request for these offenders, as the warrant will not be able to be marked "complete".

2. Press <F8> **Create LC Warrant**: this will open a window very similar to the Parole Board request. Follow the same steps (see above - "Parole Board Warrant") .

3. To send to supervisor or another user (possibly the Local Supervisory Authority designee), use the "10 - Send" option, and enter the correct UserID.

4. To update the status of the warrant request, use option "12 - LC Dates" to track the Entry Date, Issue Date, and Arrest Date.

27- USING OFFENDER PUBLIC INFORMATION:

Offender Information - "public" information regarding the offender.

To access:

Select Offender Information from the Main ISIS Menu, either by letter if pre-loaded, or by number from menu.

1. Enter SID number for offender, or press <F4> **Prompt** to select an offender to work with.
2. If <F4> **Prompt** is used - select offender from the Name Search window. By default, the window displays offender status information; press <F16-Shift F4> **View Description** to see a brief description of each listed offender.
3. After selection, the "Offender Public Information" screen will display.
4. Press <F11> **Menu Bar**, <4> **Info-Windows** to display Information Windows available. To select a window, type the identifying letter for that window, OR type an asterisk (*) to view each window in turn.
5. The Information Windows available are:

C - W/W Offenses/Court Orders - Shows prior and current court cases. Place cursor on any case and press <Enter> to display specific case information. Use <F7> Browse Backward and <F8> Browse Forward to move between the offender's cases.

A - Admission/Release History - details of admission and/or release to DOC supervision.

H - Housing History - details of county and caseload assignment

I - Initial Trust Accounts Select -

P - Institution Program Window - history of programs offender has been in; <F16> between Current Custody and History.

V - Visitor List -approved institution visitors

R - Relationships – by Inmate - active and discontinued relationships

M - W/W Offender Health Status -

J - Trips -

T - Community Treatments - community treatment, can enter program and referral data here.

G - Supervision Conditions – list of conditions by case or docket number, authorized user may update data here.

F - Supervision Fees - supervision fee status; can enter payments here too.

U - Substance Abuse Tracking - UA test log; authorized user may enter test data from this screen.

N - Names - list of court, true, moniker, and alias names associated with offender; may add new ones here.

X - Addresses - history of physical and mailing addresses; may enter new addresses here.

D - Descriptions - displays physical description and social history information.

S - Scars, Marks and Tattoos - uses OPS list of identifiers, can add comments to descriptors.

B - Other Numbers - for listing any numbers identified with the offender.

Y - W/W Offender Designators - to enter any detainer against offender; will flash on Edit Offender Data screen.

E - Emergency Notifications - whom to notify in case of offender emergency.

O - W/W Offender Caseload History - list of prior caseloads offender has belonged to.

- K – W/W Earned Time – All Cycles –**
- L – W/W Offender Class History –**
- W – Inmate Schedule Calendar –**
- Q – Oregon Corrections Plan –**
- Z – W/W Detainers - log of people to notify regarding offender.**

6. <F6> PTA Caseload will allow the user to see the name and contact phone number of the Program Term Analyst assigned to the offender.
