### **SECTION 3. DESCRIPTION OF DUTIES**

The employee in this position is expected to recognize their responsibility to act ethically at all times in accordance with the very highest standards of integrity.

Regular attendance is an essential function required to meet the demands of this job and to provide necessary services.

The incumbent is expected to perform position duties in a manner which promotes customer service and harmonious working relationships, including treating all persons courteously and respectfully; engage in effective team participation through willingness to assist and support co-workers, supervisors, and other work-related associations; develop good working relationships with division and agency staff and supervisors through active participation in cross-divisional group projects and in identifying and resolving problems in a constructive, collaborative manner; demonstrate openness to constructive feedback and suggestions, in an effort to strengthen work performance, and contribute to a positive, respectful and productive work atmosphere.

The Oregon Accountability Model (OAM) depends upon a team approach to custody with security-series personnel and non-security personnel communicating effectively to maintain safe, secure, and sanitary correctional environments while preparing inmates for successful reentry into the community. The vast majority of ODOC inmates will return to Oregon communities. Enhanced public safety, lower crime rates, and reduced recidivism can all be tied directly to attitudes and actions of correctional staff who must effectively apply ODOC rules and transition initiatives in their daily interaction with inmates. All staff are expected to model pro-social behaviors; reinforce positive behaviors; redirect negative behaviors; and effectively communicate observed behaviors to responsible program staff, administrators, and supervisors in support of the OAM.

Correctional Case Management (CCM), the critical next step toward implementation of the Oregon Accountability Model, is a proactive, collaborative, multi-disciplinary process. The CCM process unifies procedures and personnel to balance departmental resources and an inmate's needs throughout his/her incarceration and community supervision.

Correctional Outcomes through Research and Engagement (CORE), is designed to monitor and measure the work we do every day. This allows DOC to identify opportunities to improve and/or streamline processes, use data to identify constraints, effectively use resources and, ultimately, promote public safety. CORE provides employees with opportunities to influence and improve the fundamental ways we do business.

The Oregon Department of Corrections has a zero-tolerance of sexual abuse and sexual harassment within its Institutions/Administration Buildings/Facilities owned, operated, or contracted. The intent of the Prison Rape Elimination Act (PREA) is to ensure a safe, humane, and secure environment, free from the threat of

All forms of sexual contact and sexual harassment between inmates and employees/volunteers/contractors/interns are prohibited by Oregon Department of Corrections policy. All Department of Corrections staff have a valuable role in the delivery of multi-disciplinary services. Despite differences in their training, culture, and job specific mission, they all have some common goals. When all DOC staff share appropriate information and assist in the case planning of inmates, both the quality of change and the safety of the correctional environment improve. Mutual respect, proper orientation and training, and ongoing communication and cooperation provide the foundation of correctional case management. All staff are expected to follow CCM principles and practices.

The Department of Corrections recognizes and respects the dignity, diversity and human rights of all persons. In support of those values DOC employees are expected to promote a respectful work environment that recognizes cultural diversity.
