From Health Services

Influenza Vaccine (Flu Shots)

Influenza vaccine (Flu Shot) will be available soon at OSCI.

We will most likely have enough vaccine for those who need a flu shot. They will be available at OSCI soon.

The following patients will be called out for a flu shot in the next week or two.

1. Persons with severe chronic lung disease, such as emphysema.
2. Persons with certain heart problems, especially coronary artery disease and congestive heart failure.
3. Persons with Diabetes.
4. Persons with Kidney failure.
5. Persons with HIV disease.
6. Persons with certain neurological diseases, including epilepsy.
7. Persons **50 years of age or older.**
8. Persons **18 years of age or younger**

If you do not fall into one of these groups, you are NOT eligible for the flu shot this year. There is no policy allowing those who want one to purchase a flu shot if they do not qualify.

If you believe you fit into one of these categories and you are not called out for a flu shot, send us a kyte asking about it, and explaining why you think you qualify.

Mr. Puerini, MD
Chief Medical Officer

OSCI CYCLIC MENU FOR WEEK OF SEPTEMBER 14, 2009

Health Services

Release medications and earned time reduction

We have been receiving numerous kytes requesting release medications from those of you who have been informed or may be informed that you have to be granted earned time reduction and early release under HB 3508. There is no need at this time to send a kyte to request release medications because we will be handling early release inmates on a case by case basis. Once your counselor informs you of your reduction they will in turn notify Health Services so we may prepare any release medications for you.

You can do your part by asking your counselor to inform us as soon as possible that you will be releasing so we may expedite the pharmacy order. Thank you.
