Notes:

Parole: Recidivism is defined as the total percentage of a release cohort that was convicted of any felony at any time within the specified number of months following release from prison. A release cohort is defined as comprising all individuals who were released to parole or PPS during a six month period. It excludes those released from prison following a revocation from parole/PPS. Inmates initially released on temporary or transitional leave are also included as of their parole or PPS date.

Probation: Recidivism is defined as the total percentage of an admission cohort that was convicted of any felony at any time within the specified number of months after beginning probation. An admission cohort is defined as comprising all individuals who were sentenced for the first time to felony probation during the same six month period. Some offenders have been sentenced to probation more than once. Each new probation admission is considered a separate case.

Notes:

Parole: Recidivism is defined as the total percentage of a release cohort that was convicted of any felony at any time within the specified number of months following release from prison. A release cohort is defined as comprising all individuals who were released to parole or PPS during a six month period. It excludes those released from prison following a revocation from parole/PPS. Inmates initially released on temporary or transitional leave are also included as of their parole or PPS date.

Probation: Recidivism is defined as the total percentage of an admission cohort that was convicted of any felony at any time within the specified number of months after beginning probation. An admission cohort is defined as comprising all individuals who were sentenced for the first time to felony probation during the same six month period. Some offenders have been sentenced to probation more than once. Each new probation admission is considered a separate case.
