

Air Transportation General Instructions Oregon Property Tax Report

When to file

File on or before **March 17, 2008**.

Where to file

Mail all schedules, reports, forms, and attachments to:

Valuation Section
Property Tax Division
Oregon Department of Revenue
PO Box 14600
Salem OR 97309-5075

Extension of time for filing statement

The department is allowed by law [Oregon Revised Statute (ORS) 308.535] to extend the time for filing this statement for good cause. To receive an extension, send us a written request explaining your need for the extension. The extension request must be filed before the due date of your annual statement.

If a company fails to make a statement or furnish the required information, the law also allows the department to “inform itself as best it may as to the matters necessary to be known in order to discharge its duties with respect to the property of the company.”

Penalties for failure to file or false or fraudulent statement

Your statement is considered delinquent if it is not filed by March 17 or by the extended date allowed by the department. The penalty for a delinquent statement is \$10 for each \$1,000 (or fraction thereof) of assessed value placed on the assessment roll of the department (ORS 308.030).

Willfully providing a false or fraudulent statement is perjury [ORS 308.990(4)] and “upon conviction, shall be punished as otherwise provided by law for such crime.”

Additional information you must file

In addition to the schedules provided, **all companies** must file a copy of:

- The company’s flight schedule in effect on December 31.
- The company’s 10-K (and parent company’s 10-K, if applicable) filed with the Securities and Exchange Commission.
- The annual report to stockholders (and parent company’s annual report, if applicable), if not included in the 10-K.
- All four quarterly RSPA Form 31 Schedule B-7s for the year.
- Electronic data: spreadsheets detailing the fleet data, saved on diskette.
- **For all companies**, the cover letter sent with this packet may also request information in addition to the data required on the standard schedule forms. Read the letter carefully. The additional data requested is an *integral part of your total reporting requirement*. You must provide us with this additional information [ORS 308.525(16)].

How to complete these Oregon schedules

1. Complete all schedules in this packet.

Many of the Oregon schedules are similar to schedules in the **Research and Special Programs Administration (RSPA) Form 41 Report**. If all requested information is on the Form 41 report, you may reference the Form 41 schedule on the related Oregon schedule.

2. If you need more space than what’s available on a schedule, attach additional sheets. You may attach additional schedules which use other formats, as long as you provide all information that we’ve requested.

3. If a schedule doesn't apply to you, leave it blank. Then attach a statement telling us why you don't need to complete the schedule.
4. Type or print your information on these schedules. If you print, please use ink.
5. Put brackets (< >) around negative ("deficit") amounts.
6. Keep a copy for your files.

Important reminders

- **Calendar Year Basis.** The Oregon report is for a full calendar year.
- **"The Year"** means the year covered by the report.
- **"The Close of the Year"** means the close of business on December 31.
- **"The Beginning of the Year"** means the beginning of business on January 1.

Oregon law

Oregon law (ORS 308.515) requires the department to make an annual assessment of designated utilities and companies. ORS 308.515(1) charges the department to assess the following property having situs in this state:

"Except as provided in subsection (3) of this section, any property used or held for its own future use by any company in performing or maintaining any of the following businesses or services or in selling any of the following commodities, whether in domestic or interstate commerce or both, and whether mutually, or for hire, sale or consumption by other persons: Railroad transportation; railroad switching and terminal; electric rail and trackless trolley transportation; private railcar transportation; air transportation; water transportation upon inland waters of the State of Oregon; air or railway express; communication; heating; gas; electricity; pipeline; toll bridge."

ORS 308.525 specifies what facts the companies should supply to the department. ORS 308.525(14) also allows the department to gather "any other facts or information the department requires in the form of return prescribed by it."

Substitute forms acceptable

The Department of Revenue will accept photocopies and replicas of this packet. If you need an additional packet, please call 503-945-8283, or download forms from our website, www.oregon.gov/DOR.

Electronic filing

Companies with complex tables, especially those with a large asset inventory or those with property located in many tax code areas throughout the state, are encouraged to submit data in an electronic format to save time and reduce errors.

Electronic schedules may be filed in place of hard-copy schedules. If you choose to file electronically, please include the signed Taxpayer Declaration form (150-302-127-3) provided herein.

You may report your schedules in an electronic format that is compatible with Microsoft Office in Windows format (i.e., Excel spreadsheets, Access data, and Word documents). An electronic format must include the information fields located in the annual statement schedules. If you have questions regarding acceptable formats, please contact the appraiser via the phone number located on the attached cover letter.

Important: Please format your electronic data according to the format of the paper schedule or table. Label the schedule so the department can readily identify which schedule you are submitting electronically. If you have questions regarding acceptable formats, please contact the assigned appraiser using the telephone number located on the attached cover letter.

The data may be sent via 3.5" diskette or CD-ROM along with the form or may be attached via an e-mail message to the address below the appraiser's name provided on the cover letter. *If you submit the data using e-mail, there is a possibility that it may not remain secure in transit.* The Department of Revenue maintains that all information, on receipt, is confidential and shall not be released to third parties. During the course of transit, information may be considered insecure and may be intercepted by third parties.

Annual Statement

for Air Transportation

Must be postmarked by March 17, 2008

Declaration of property cost, operations, and other related information as of
January 1, 2008

Be sure to read the instructions on the previous sheet

Schedule A—General Information

Instructions

1. Give the exact name by which the company was known in law at the close of the year.
2. If any change was made in the name of the company during the year, state all such changes and the dates on which they were made.
3. Give the location, including street and number, of the main business office of the company at the close of the year.
4. Give the names and office addresses of the general officers of the company at the close of the year. If there are receivers who are recognized as in the controlling management of the company, give their names, titles, and office locations.
5. Give the name and post office address of the chief officer or managing agent or attorney in fact in Oregon.
6. This information is being requested per ORS 308.525.

Name of company		Business identification number (BIN)		
Previous name of company during the year		Effective dates of previous name		
		Thru		
State or country where company is organized	Nature of business	State	ZIP code	Area code and telephone number ()
Address of principal office (street and number)	City	State	ZIP code	Area code and telephone number ()

Title of general officer:	Name of officer:	Post office address:

- Railroads:**
- Class I
 - Shortline
 - Private car

- Water transportation:**
- Large company
 - Small company

Schedule B Enplaned and Deplaned Tons

Enplaned and deplaned tons—The total of “traffic, enplaned” and “traffic, deplaned” as defined in the RSPA Uniform System of Accounts and Records with number of passengers converted to tons using the standard weight per passenger.

Traffic, enplaned—A count of the number of passengers boarding and tons of cargo loaded on an aircraft. Passengers and cargo on aircraft entering a carrier’s system on interchange flights are considered as enplaning at the interchange point; and passengers and cargo moving from one operation to another operation of the same carrier, for which separate reports are required by the RSPA, are considered as enplaning at the junction point.

Traffic, deplaned—A count of the number of passengers getting off and tons of cargo unloaded from an aircraft. Passengers and cargo on aircraft leaving a carrier’s system on interchange flights are considered as deplaning at the interchange point and passengers and cargo moving from one operation to another operation of the same carrier, for which separate reports are required by the RSPA, are considered as deplaning at the junction point.

	Number		Tons	
	System	Oregon	System	Oregon
Passengers enplaned and deplaned....				
Cargo enplaned and deplaned.....				
Totals				
Percent Oregon				%

Departures

A “departure” occurs each time an aircraft takes off from one airport for purposes of flight to another airport.

Aircraft type	System departures	Oregon total	Oregon only airports (name)		
Total					

If your aircraft operated from more than one airport in Oregon, please provide a breakdown of departures by location above for use in apportioning your Oregon assessment to the various counties. Attach additional sheets if necessary.

Schedule D Inter-Airport Mileage Table

This table is used to compute Oregon ramp-to-ramp hours entered on the previous page. Interstate flights not included in the printed form and flown by the company during the year should be inserted in the spaces provided. Inter-airport distances are those listed in the CAB's Official Airline Route and Mileage Manual, or if not listed therein, computed in similar manner; the miles and ratio in Oregon are based on the portion of such distance in Oregon.

Intra-state flights are not listed; Oregon statistics are included at 100% of the related system statistics. Be prepared to submit a list of the intra-state mileages used for such flights whenever this information is requested by the department.

From	To	Inter-Airport distance	Oregon aircraft miles	Percent Oregon
Portland	Anchorage	1,543	1	0.06
	Boise	345	301	87.25
	Chicago	1,740	232	13.33
	Dallas	1,615	304	18.82
	Denver	986	293	29.72
	Detroit	1,975	171	8.66
