8. **General Disposal Criteria:**

- Parcel has low income-generating potential and limited multiple land uses - is not leased or leasable, has poor physical attributes, or has external constraints to manage for best use

Explanation - This is an isolated parcel of forest land acquired in 1899. ODF managed for DSL until mid 1990's when the land was de-certified.

- Parcel has low appreciation potential
Explanation - No access to this parcel limits its value potential for homesite or other non-resource use

- Parcel has no or limited access to utilities
Explanation -

- Parcel management costs are high in comparison to actual or potential returns and/or appreciation potential
Explanation -
- Significant environmental risks are present
Explanation -
- Changes in zoning or other circumstances preclude development of the parcel for its highest and best use
Explanation -
- Parcel is an in-holding within a major landowner's ownership, or small isolated tract
Explanation – Parcel is surrounded by private land
- Market conditions dictate that disposal is prudent in order to realize appreciation in value
Explanation - Timber land is in demand in this area
- A high level of market demand exists for the type of property being considered
Explanation –
- The highest and best use of the parcel has changed to a use not compatible with the uses preferred by the Department or is inconsistent with the AMP
Explanation -
- Parcel has high holding costs, particularly those associated with liability or other risk
Explanation -
