**Subject:** Management Plan

Dear Sir or Ma'am, I am opposed to this Stockade Block Area Management Plan as it would result in the exploitation of my rights to various and currently unrestricted forms of recreation within the given boundaries of said plan to which my family and I participate in. I am opposed to the thought that these lands could be converted to potential revenue generating endeavors at further expense, both monetarily and forfeiture of free access, to myself and my family. I ask for continued free access to these lands as they were intended by our fore-fathers.....Michael D Cochran
