To Whom it may concern,

I have read your plans for this area, and to sum it up, I don't like it at all. It appears to me that the main focus is to raise money by charging the public to use the land for any and all uses. I do not have a problem with using the land for wind farms, or cattle grazing, but I do not think that the state should get in the business of selling hunting leases. The hunting possibilities are slim enough as it is.

Sincerely,
