8. General Disposal Criteria:

Parcel has low income-generating potential and limited multiple land uses - is not leased or leasable, has poor physical attributes, or has external constraints to manage for best use

Explanation – This is an isolated parcel of forest land acquired as an in lieu parcel. Recognized in Asset Mgmt Plan for disposal.

Parcel has low appreciation potential

Explanation-Lane County Forest zoning is extremely restrictive and the size of the lot does not make it very appealing as a commercial forest tract.

- Parcel has no or limited access to utilities
Explanation -
- Parcel management costs are high in comparison to actual or potential returns and/or appreciation potential
Explanation -
- Significant environmental risks are present
Explanation -
- Changes in zoning or other circumstances preclude development of the parcel for its highest and best use
Explanation -
- Parcel is an in-holding within a major landowner's ownership, or small isolated tract
Explanation – Surrounded by USFS.
- Market conditions dictate that disposal is prudent in order to realize appreciation in value
Explanation –
A high level of market demand exists for the type of property being considered
Explanation -
- The highest and best use of the parcel has changed to a use not compatible with the uses preferred by the Department or is inconsistent with the AMP
Explanation -
- Parcel has high holding costs, particularly those associated with liability or other risk
Explanation -

9. Classification Disposal Strategy
