

**Oregon
Department
of State Lands**

**Supplement to the Joint Permit Application for
Fish Habitat and Wetland Restoration and Enhancement Activities**

This information is required for all fish habitat and wetland restoration and enhancement projects.
Please complete all applicable sections.

By filling in this form and signing the removal-fill application, the applicant certifies that they will complete the project according to the General Authorization for Fish Habitat Enhancement Rules ([OAR 141-089-0100 through -0130](#)) and General Authorization for Wetland Restoration and Enhancement Rules ([OAR 141-089-0205 through -0240](#)).

1. This project involves activities that will provide

- Fish Habitat Enhancement
- Wetland Restoration and Enhancement
- Both Fish Habitat and Wetland Restoration and Enhancement

2. PROJECT DESCRIPTION.

In the Joint Permit Application or on separate sheet(s), please describe the project, and how the project meets the requirements of the General Authorization for Fish Habitat Enhancement and/or Wetland Restoration and Enhancement.

3. ODFW REVIEW:

I have evaluated the above project and find it will be constructed in a way that minimizes impact to aquatic resource values. The [recommended in-water work period](#) is

to

ODFW Biologist Signature

Date

4. FISH ENHANCEMENT ACTIVITIES

ACTIVITIES ¹	QUANTITY	CUBIC YARDS EACH		TOTAL CUBIC YARDS	
		Removal	Fill	Removal	Fill
Fish Rocks					
Deflectors					
Rock or Log Weirs					
Gravel Placement					
Pool/Pond Construction					
Back/Side Channel Construction					
Channel Construction					
Barrier Removal					
Woody Material					

¹ Below ordinary high water line or within wetlands

5. WETLAND RESTORATION AND ENHANCEMENT ACTIVITIES

ACTIVITIES ⁴	QUANTITY	CUBIC YARDS EACH		TOTAL CUBIC YARDS	
		Removal	Fill	Removal	Fill
Ditch Plugging					
Water Diversion					
Drain Tile Removal or Destruction					
Dike Construction/Relocation					
Water Impoundment Structure					
Bank Excavation/Contouring					
Dike Removal/Breaching					
Surface Grading					
Other (describe)					

Required Attachments for Wetland Restoration And Enhancement Activities.

All information needs to be on 8.5 x 11 or 8.5 X 14 paper (match lines should be used for larger documents) and be legible when copied in black and white.

- Project site located on [National Wetlands Inventory map](#)
- Recent aerial photograph showing project boundaries
- Project Site located on soil survey map (if available)
- Location of all proposed construction, including dikes, water control structures, spoils placement, etc.
- Location & approximate boundaries of existing wetlands and wetlands to be restored, enhanced, and/or created

Proposed quantities of wetland restoration/enhancement/creation.			
	Acres	<u>HGM Class</u>	<u>Cowardin Class</u>
Restoration (Reestablish a former wetland)		of none, none	none
		of none, none	none
Enhancement (Improve an existing wetland)		of none, none	none
		of none, none	none
Creation (Create a new wetland)		of none, none	none
		of none, none	none

Proposed impacts/affects associated with the proposed activities.							
Wetland converted to upland (i.e dikes, ditch plugs, etc constructed in existing wetlands)		of	none, none				none
		of	none, none				none
Wetland converted to another wetland type (Ex. emergent to shrub scrub)		of	none, none				none
				to		to	
			none, none				none
		of	none, none				none
				to		to	
			none, none				none

Please note: Construction activities that disturb one acre or more may require a DEQ [1200-C permit](#). More information is available at <http://www.deq.state.or.us/wq/wqpermit/stormwaterfeestable.htm> or by calling (503) 229-5696.
