## ACTIONS TAKEN, MAJOR PROJECT UPDATES, AND OTHER MILESTONES

- LMI/Green Jobs – The implementation of Autocoder with Green Jobs Extractor is complete and training has been conducted. This will enable new job listings to be scanned to identify those that are “green”.
- LMI/Green Jobs – The project period ended 9/30/11, so all that remains is to receive and pay final invoices.
- Trade Act – Both the House and Senate have passed an extension of the Trade Act provisions protecting service workers and workers displaced due to trade with other nations. This is good news since the U.S. Department of Labor estimates 50% of workers certified in the past 2 years have been eligible due to these expanded provisions. All training benefits and extended trade allowance funds are federally paid.
