

Tax Credit-Certified Duct / Heat Pump _AC Companies for 2009

To be eligible for an Oregon Residential Energy Tax Credit, equipment must meet certain performance requirements and be verified by a tax credit certified technician. Following is a list of companies that employ tax credit certified duct sealing and heat pump/AC technicians. The Oregon Department of Energy provides this list for your convenience and only for the purpose of assisting Oregon taxpayers in obtaining a Residential Energy Tax Credit. Companies listed have technicians who have successfully completed training to install and test equipment and ducts. If you live in an area that is not served, please contact Tina Suzuki at the Oregon Department of Energy toll-free at 1-800-221-8035.

The Oregon Department of Energy does not make any warranty, expressed or implied, concerning the construction, operation, installation or any other characteristic or feature of systems installed or worked on by the technician.

Duct Technicians

Technicians who are interested in tax credit certified duct sealing technician training should contact Andres Morrison, Ecos Consulting, PTCS Program Manager, at (503) 525-2700 x142.

Heat Pump _AC technicians

Technicians who are interested in tax credit certified heat pump/AC technician training should contact Randy Larson, Project Manager with Proctor Engineering, at (toll-free) 1-888-455-5742 ext. 118 or Andres Morrison, Ecos Consulting, PTCS Program Manager, at (503) 525-2700 x142. Technicians must pass a written test to become state-certified.
