

Premium Efficiency Pellet Stoves

Oregon Department of Energy Residential Energy Tax Credit Program

Eligible pellet stove models meet the following requirements: tested emissions of 2.5 grams per hour of smoke or less and must be installed with dedicated outside combustion air intake. See Application Instructions for details. The tax credit is 25% of the eligible cost up to a maximum of \$300. Eligible costs are the stove and outside air ducting, but not labor, delivery, fans, chimney or flues.

New models are regularly added to the list. To appear on this list, stoves must be tested using the procedures specified by the Residential Energy Tax Credit program. For information contact the Oregon Department of Energy at 1-800-221-8035 (503-378-4040) or energyweb.incoming@state.or.us.
