Re: Ballot Measure 37 (ORS 197.352) Claim Number M130649

Claimants: Robert and Cheryl Wiley

Enclosed, in regard to the above-referenced claim for compensation under Ballot Measure 37 (ORS 197.352), is the Final Staff Report and Recommendation of the Department of Land Conservation and Development, and the Final Order.

This Final Staff Report and Recommendation and the Final Order constitute the final decision on this claim. No further action will be taken on this matter.

BEFORE THE DEPARTMENT OF ADMINISTRATIVE SERVICES,
THE DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT OF
THE STATE OF OREGON

IN THE MATTER OF THE CLAIM FOR) FINAL ORDER A
COMPENSATION UNDER ORS 197.352) CLAIM NO. M130649
(BALLOT MEASURE 37) OF)
Robert Wiley, CLAIMANT)

Claimant: Robert Wiley (the Claimant)

Property: Township 2N, Range 1W, Section 16C, Tax lot 500, Multnomah County
(the Property)

Claim: The demand for compensation and any supporting information received from the
Claimant by the State of Oregon (the Claim).

Claimant submitted the Claim to the State of Oregon under ORS 197.352. Under OAR 125-145-0010 *et seq.*, the Department of Administrative Services (DAS) referred the Claim to the Department of Land Conservation and Development (DLCD) as the regulating entity. This order is based on the record herein, including the Findings and Conclusions set forth in the Final Staff Report and Recommendation of DLCD (the DLCD Report) attached to and by this reference incorporated into this order.

ORDER

The Claim is approved as to laws administered by DLCD and the Land Conservation and Development Commission (LCDC) for the reasons set forth in the DLCD Report, and subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Robert Wiley's development of a dwelling and accessory structures on the approximately 3.6-acre subject property: applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, enacted or adopted after October 14, 1975. These land use regulations will not apply to Robert Wiley only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on October 14, 1975.
2. The action by the State of Oregon provides the state's authorization to Robert Wiley to use the subject property for the use described in this report, subject to the standards in effect on October 14, 1975. On that date, the property was subject to applicable provisions of Goal 3 and ORS 215 then in effect.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property

unless Robert Wiley first obtains that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by Robert Wiley under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for Robert Wiley to use the subject property, it may be necessary for him to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves Robert Wiley from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to his use of the subject property.

This Order is entered by the Deputy Director of the DLCD as a final order of DLCD and the Land Conservation and Development Commission under ORS 197.352, OAR 660-002-0010(8), and OAR 125, division 145, and by the Administrator for the State Services Division of the DAS as a final order of DAS under ORS 197.352, OAR 125, division 145, and ORS 293.

ORS 197.352 (BALLOT MEASURE 37) CLAIM FOR COMPENSATION

**OREGON DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT
Final Staff Report and Recommendation**

May 4, 2007

STATE CLAIM NUMBER: M130649

NAMES OF CLAIMANTS: Robert and Cheryl Wiley

MAILING ADDRESS: 13755 NW Charleton Road
Portland, OR 97231

PROPERTY IDENTIFICATION: Township 2N, Range 1W, Section 16C
Tax lot 500
Multnomah County

DATE RECEIVED BY DAS: November 9, 2006

180-DAY DEADLINE: May 8, 2007

I. SUMMARY OF CLAIM

The claimants, Robert and Cheryl Wiley, seek compensation in the amount of \$225,000 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimants desire compensation or the right to develop a dwelling and accessory structures on the approximately 3.6-acre subject property. The subject property is located at 13801 NW Charlton Road, near Portland, in Multnomah County. (See claim.)

II. SUMMARY OF STAFF RECOMMENDATION

Based on the findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid in part. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to Robert Wiley's development of a dwelling and accessory structures on the approximately 3.6-acre subject property: applicable provisions of Statewide Planning Goal 3 (Agricultural Lands), ORS 215 and Oregon Administrative Rules (OAR) 660, division 33, enacted or adopted after October 14, 1975. These laws will not apply to Robert Wiley only to the extent necessary to allow him to use the subject property for the uses described in this report, and only to the extent that uses were permitted when he acquired the property on October 14, 1975.

The department has further determined that the claim is not valid for claimant Cheryl Wiley because she has not established her current ownership of the property. (See the complete recommendation in Section VI of this report.)

III. COMMENTS ON THE CLAIM

Comments Received

On March 27, 2007, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, no written comments were received in response to the 10-day notice.

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

This claim was submitted to DAS on November 9, 2006, for processing under OAR 125, division 145. The claim identifies all the state planning goals, ORS 197 and 215 and “all administrative rules enacted pursuant to these regulations” as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

Claimant Robert Wiley acquired the subject property on October 14, 1975, as reflected by a deed included with the claim. The claim does not include any documentation to establish when or if Cheryl Wiley acquired the property. According to the Multnomah County Assessor's Office, Cheryl Wiley is not a current owner of the subject property. The Multnomah County Assessor's Office confirms Robert Wiley's current ownership of the subject property.

Conclusions

Claimant Robert Wiley is an "owner" of the subject property as that term is defined by ORS 197.352(11)(C), as of October 14, 1975. Claimant Cheryl Wiley has not established that she is a current "owner" of the subject property, as that term is defined in ORS 197.352(11)(C).

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimants' use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimants or a family member acquired the property.

Findings of Fact

The claim indicates that the claimants desire to develop a "residential dwelling and structures" on the property, and current land use regulations prevent this desired use.¹

The claim is based generally on the applicable provisions of state law that require Exclusive Farm Use (EFU) zoning and restrict uses on EFU-zoned land. The subject property is zoned EFU as required by Goal 3, in accordance with ORS 215 and OAR 660, division 33, because the property is "agricultural land" as defined by Goal 3.² Goal 3 became effective on January 25, 1975, and required that agricultural lands as defined by Goal 3 be zoned EFU pursuant to ORS 215.

Current land use regulations, particularly ORS 215.284 and OAR 660, division 33, enacted or adopted pursuant to Goal 3, establish standards for the development of dwellings on existing parcels on EFU-zoned land.

OAR 660-033-0135 (applicable to farm dwellings) became effective on March 1, 1994, and interprets the statutory standard for a primary dwelling in an EFU zone under ORS 215.283(1)(f). OAR 660-033-0130(4) (applicable to non-farm dwellings) became effective

¹ The claimants summarily cite numerous state land use laws as applicable to this claim, but do not establish how the laws either apply to the claimants' desired use of the subject property or restrict its use with the effect of reducing its fair market value. On their face, most of the regulations either do not apply to the subject property or do not restrict the use of the property with the effect of reducing its fair market value. This report addresses only those regulations that the department finds are applicable to and restrict the claimants' use of the subject property, based on the claimants' description of their desired use.

² The subject property is "agricultural land" because it contains Natural Resources Conservation Service Class I-IV soils.

on August 7, 1993, and was amended to comply with ORS 215.284(4) on March 1, 1994. The Commission subsequently adopted amendments to comply with House Bill 3326 (Chapter 704, Oregon Laws 2001, effective on January 1, 2002), which were effective on May 22, 2002. (See administrative rule history for OAR 660-033-0100, -0130 and -0135.)

Robert Wiley acquired the subject property after the adoption of the statewide planning goals, but before the Commission acknowledged Multnomah County's land use regulations to be in compliance with the statewide planning goals pursuant to ORS 197.250 and 197.251. Because the Commission had not acknowledged the county's plan and land use regulations when he acquired the subject property on October 14, 1975, the statewide planning goals, and Goal 3 in particular, applied directly to the subject property when Robert Wiley acquired it.³

Under the Goal 3 standards in effect on October 14, 1975, farm dwellings were allowed if they were determined to be "customarily provided in conjunction with farm use" under ORS 215.213(1)(e) (1973 edition). Non-farm dwellings were subject to compliance with ORS 215.213(3) (1973 edition).

No information has been presented in the claim to establish that Robert Wiley's desired development of a dwelling on the subject property satisfies the standards for farm or non-farm dwellings under ORS 215.213 (1973 edition), in effect when he acquired the property in 1975.

Conclusions

The current zoning requirements and dwelling standards established by Goal 3, ORS 215 and OAR 660, division 33, do not allow Robert Wiley's desired development of the subject property. However, the claim does not establish whether or the extent to which the claimants' desired use of the subject property complies with the standards for development under the requirements of Goal 3 and ORS 215 in effect when Robert Wiley acquired the subject property on October 14, 1975.

As explained in Section V.(1), Cheryl Wiley has not established that she is a current owner of the subject property as that term is defined in ORS 197.352(11)(C). Without such demonstration, it is not possible to determine that any laws enforced by the Commission or the department restrict her use of subject property with the effect of reducing its the fair market value.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the use that the claimants have identified. There may be other laws that currently apply to Robert Wiley's use of the subject property, and that

³ The statewide planning goals became effective on January 25, 1975, and were applicable to legislative land use decisions and some quasi-judicial land use decisions prior to the Commission's acknowledgment of each county's comprehensive plan and implementing regulations. *Perkins v. Union County*, 42 Or App 505 (1979); and *1000 Friends of Oregon v. Benton County*, 32 Or App 413 (1978). After the county's plan and land use regulations were acknowledged by the Commission, the statewide planning goals and implementing rules no longer applied directly to such local land use decisions. *Byrd v. Stringer*, 295 Or 311 (1983). However, statutory requirements continue to apply, and insofar as the state and local provisions are materially the same, the local provisions must be interpreted consistent with the substance of the goals and implementing rules. *Forster v. Polk County*, 115 Or App 475 (1992) and *Kenagy v. Benton County*, 115 Or App 131 (1992).

may continue to apply to his use of the property, that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When Robert Wiley seeks a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have “the effect of reducing the fair market value of the property, or any interest therein.”

Findings of Fact

The claim includes an estimate of \$225,000 as the reduction in the subject property’s fair market value due to the regulations that restrict the claimants’ desired use of the property. This amount is based on the claimants’ comparison of comparable properties in the vicinity.

Conclusions

As explained in Section V.(1) of this report, the claimants are Robert Wiley who acquired the subject property on October 14, 1975, and his wife, Cheryl Wiley. The claimants have not established Cheryl Wiley’s ownership of the subject property and therefore, have not established that she is entitled to relief under ORS 197.352. Under ORS 197.352, claimant Robert Wiley is due compensation for land use regulations that restrict the use of the subject property and have the effect of reducing its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since Robert Wiley acquired the subject property restrict his desired use of the property. The claimants estimate that the effect of the regulations on the fair market value of the subject property is a reduction of \$225,000.

Without an appraisal or other documentation and without verification of whether or the extent to which Robert Wiley’s desired use of the subject property was allowed under the standards in effect when he acquired the property, it is not possible to substantiate the specific dollar amount by which the land use regulations have reduced the fair market value of the property. Nevertheless, based on the evidence in the record for this claim, the department determines that the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department since Robert Wiley acquired the subject property.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

Findings of Fact

The claim is based on state land use regulations that restrict the use of the subject property, including applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, which Multnomah County has implemented through its current EFU zone. With the exception of

provisions of Goal 3 and ORS 215 in effect when Robert Wiley acquired the subject property on October 14, 1975, these land use regulations were enacted or adopted after he acquired the property.

Conclusions

Without a specific development proposal for the subject property, it is not possible for the department to determine all the laws that may apply to a particular use of the property, or whether those laws may fall under one or more of the exemptions under ORS 197.352. It appears that with the exception of provisions of Goal 3 and ORS 215 in effect in 1975, the current statutory, goal and rule restrictions on development of the subject property were not in effect when Robert Wiley acquired it, and therefore, these laws are not exempt under ORS 197.352(3)(E). Provisions of Goal 3 and ORS 215 in effect when Robert Wiley acquired the subject property in 1975 are exempt under ORS 197.352(3)(E) and will continue to apply to the property.

Other laws in effect when Robert Wiley acquired the subject property are also exempt under ORS 197.352(3)(E) and will continue to apply to his use of the property. There may be other laws that continue to apply to his use of the subject property that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of property until there is a specific proposal for that use. When Robert Wiley seeks a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use. In some cases, some of these laws may be exempt under ORS 197.352(3)(A) to (D).

As explained in Section V.(1) of this report, claimant Cheryl Wiley has not established that she is a current owner of the subject property. Without such demonstration, the department can make no determination as to whether any land use laws are exempt from ORS 197.352 with regard to the claim by Cheryl Wiley.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimants have identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable, given the information provided to the department in the claim. The claimants should be aware that the less information they have provided to the department in the claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to Robert Wiley's use of the subject property.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on record before it, the department finds that the claim for Cheryl Wiley is not valid because she has not demonstrated her current ownership of the subject property. Based on the findings and conclusions set forth in this report, the department has further determined that laws enforced by the Commission or the department restrict Robert Wiley's desired use of the subject property. The claim asserts that existing land use regulations enforced by the Commission or the department have the effect of reducing the fair market value of the subject property by \$225,000. However, because the claim does not provide an appraisal or other relevant evidence demonstrating that the land use regulations described in Section V.(2) reduce a fair market of the subject property, a specific amount of compensation cannot be determined. In order to determine a specific amount of compensation due for this claim, it would also be necessary to verify whether or the extent to which Robert Wiley's desired use of the subject property was allowed under the standards in effect when he acquired the property. Nevertheless, based on the record for this claim, the department has determined that the laws on which the claim is based have reduced the fair market value of the subject property to some extent since Robert Wiley acquired the subject property.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow Robert Wiley to use the subject property for a use permitted at the time he acquired the property on October 14, 1975.

Conclusions

Based on the record before the department, claimant Cheryl Wiley has not established that she is entitled to relief under ORS 197.352(1) as a result of land use regulations enforced by the Commission or the department because she has not established that she is a current owner of the subject property. Therefore, the department recommends that Cheryl Wiley's claim be denied.

The department further recommends that Robert Wiley's claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Robert Wiley's development of a dwelling and accessory structures on the approximately 3.6-acre subject property: applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, enacted or adopted after October 14, 1975. These land use regulations will not apply to Robert Wiley only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on October 14, 1975.
2. The action by the State of Oregon provides the state's authorization to Robert Wiley to use the subject property for the use described in this report, subject to the standards in effect on October 14, 1975. On that date, the property was subject to applicable provisions of Goal 3 and ORS 215 then in effect.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license

or other form of authorization or consent, the order will not authorize the use of the property unless Robert Wiley first obtains that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by Robert Wiley under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for Robert Wiley to use the subject property, it may be necessary for him to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves Robert Wiley from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to his use of the subject property.

VII. COMMENTS ON THE DRAFT STAFF REPORT

The department issued its draft staff report on this claim on April 12, 2007. OAR 125-145 0100(3), provided an opportunity for the claimants or the claimants' authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation.
