This Final Staff Report and Recommendation and the Final Order constitute the final decision on this claim. No further action will be taken on this matter.

(BALLOT MEASURE 37) OF)

Property: Township 10S, Range 10W, Section 10, Tax lot 512, Lincoln County
(the Property)

Claim: The demand for compensation and any supporting information received from the
Claimants by the State of Oregon (the Claim).

Claimants submitted the Claim to the State of Oregon under ORS 197.352. Under OAR 125-145-0010 *et seq.*, the Department of Administrative Services (DAS) referred the Claim to the Department of Land Conservation and Development (DLCD) as the regulating entity. This order is based on the record herein, including the Findings and Conclusions set forth in the Final Staff Report and Recommendation of DLCD (the DLCD Report) attached to and by this reference incorporated into this order.

ORDER

The Claim is approved as to laws administered by DLCD and the Land Conservation and Development Commission (LCDC) for the reasons set forth in the DLCD Report, and subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to the claimants' development of a dwelling on the 9.2-acre subject property: applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, enacted or adopted after June 12, 1986. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when they acquired the property on June 12, 1986.
2. The action by the State of Oregon provides the state's authorization to the claimants to use the subject property for the use described in this report, subject to the standards in effect on June 12, 1986. At that time, the property was subject to compliance with Goal 3 and OAR 660, division 5, as implemented by Lincoln County's acknowledged EFU zone, and the applicable provisions of ORS 215 then in effect.

3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimants first obtain that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by the claimants under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimants to use the subject property, it may be necessary for them to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimants from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimants.

6. Nothing in this report or the state's final order for this claim constitutes any determination of ownership by the State of Oregon as to submerged or submersible lands, or as to public rights to the use of waters of the state.

This Order is entered by the Manager for the Measure 37 Services Division of the DLCD as a final order of DLCD and the Land Conservation and Development Commission under ORS 197.352, OAR 660-002-0010(8), and OAR 125, division 145, and by the Administrator for the State Services Division of the DAS as a final order of DAS under ORS 197.352, OAR 125, division 145, and ORS 293.

DATE RECEIVED BY DAS: November 20, 2006

DEADLINE FOR FINAL ACTION:¹ May 13, 2008

I. SUMMARY OF CLAIM

The claimants, Robert D. and Beverly Updenkelder and Sandra LaRoche, seek compensation in the amount of \$120,000 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimants desire compensation or the right to develop a dwelling on the 9.2-acre subject property. The subject property is located on Logsdan Road, near Siletz, in Lincoln County. (See claim.)

¹ ORS 197.352, as originally enacted, required that final action on claims made under Measure 37 be made within 180 days of the date the claim was filed. In response to the large volume of claims filed in late 2006, the Oregon legislature passed House Bill 3546, which became effective on May 10, 2007. This legislation increased the amount of time state and local governments have to take final action on Measure 37 claims filed on or after November 1, 2006, by 360 days, to a total of 540 days.

II. SUMMARY OF STAFF RECOMMENDATION

Based on the findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to the claimants' development of a dwelling on the 9.2-acre subject property: applicable provisions of Statewide Planning Goal 3 (Agricultural Lands), ORS 215 and Oregon Administrative Rules (OAR) 660, division 33, enacted or adopted after June 12, 1986. These laws will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when they acquired the property on June 12, 1986. (See the complete recommendation in Section VI. of this report.)

III. COMMENTS ON THE CLAIM

Comments Received

On June 12, 2007, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, no written comments were received in response to the 10-day notice.

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

This claim was submitted to DAS on November 20, 2006, for processing under OAR 125, division 145. The claim identifies Goal 3, ORS 215 and all statewide planning goals, statutes and rules enforced against the property as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

The claimants, Robert D. and Beverly Updenkelder and Sandra LaRoche, acquired the subject property from their family members, Robert E. and Maxine Updenkelder, on June 12, 1986, as reflected by a bargain and sale deed included with the claim. Robert E. and Maxine Updenkelder acquired the subject property on September 19, 1967, as evidenced by a warranty deed included with the claim. The Lincoln County Assessor’s Office confirms the claimants’ current ownership of the subject property.

Conclusions

The claimants, Robert D. and Beverly Updenkelder and Sandra LaRoche, are “owners” of the subject property as that term is defined by ORS 197.352(11)(C), as of June 12, 1986. Robert E. and Maxine Updenkelder are “family members” as defined by ORS 197.352(11)(A) and acquired the subject property on September 19, 1967.

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimants’ use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimants or a family member acquired the property.

Findings of Fact

The claim indicates that the claimants desire to develop a dwelling on the 9.2-acre subject property, and that current land use regulations prevent the desired use.²

² The claimants summarily list “all statewide planning goals” as applicable to this claim, but do not establish how the goals either apply to the claimants’ desired use of the subject property or restrict its use with the effect of reducing its fair market value. On their face, most of the regulations either do not apply to the claimants’ property or do not restrict the claimants’ desired use of the subject property with the effect of reducing its fair market value. This report addresses only those regulations that the department finds are applicable to and restrict the claimants’ desired use of the subject property, based on the claimants’ description of their desired use.

The claim is based generally on the applicable provisions of state law that require Exclusive Farm Use (EFU) zoning and restrict uses on EFU-zoned land. The claimants' property is zoned A-C (Agricultural Conservation) by Lincoln County as required by Goal 3, in accordance with ORS 215 and OAR 660, division 33, because the claimants' property is "agricultural land" as defined by Goal 3.³ Goal 3 became effective on January 25, 1975, and required that agricultural lands as defined by Goal 3 be zoned EFU pursuant to ORS 215.

Current land use regulations, particularly ORS 215.284 and OAR 660, division 33, enacted or adopted pursuant to Goal 3, establish standards for the development of dwellings on existing or any proposed parcel on EFU-zoned land.

OAR 660-033-0135 (applicable to farm dwellings) became effective on March 1, 1994, and interprets the statutory standard for a primary dwelling in an EFU zone under ORS 215.283(1)(f). OAR 660-033-0130(4) (applicable to non-farm dwellings) became effective on August 7, 1993, and was amended to comply with ORS 215.284(4) on March 1, 1994.⁴

The claimants' family first acquired the subject property in 1967, prior to the adoption of the statewide planning goals and their implementing statutes and regulations. No county zoning applied to the subject property in 1967.

Conclusions

The current zoning requirements and dwelling standards established by applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, were all enacted or adopted after the claimants' family acquired the subject property. These laws restrict the use of the subject property relative to the uses allowed when the claimants' family acquired the property.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulations (described in Section V.(2) of this report) must have "the effect of reducing the fair market value of the property, or any interest therein."

Findings of Fact

The claim includes an estimate of \$120,000 as the reduction in the subject property's fair market value due to the regulations that restrict the claimants' desired use of the property. This amount is based on a real estate broker's assessment of the subject property's value, included with the claim.

³ The claimants' property is "agricultural land" because it contains Natural Resources Conservation Service Class I-IV soils.

⁴ The Commission subsequently adopted amendments to OAR 660-033-0100, -0130 and -0135 to comply with House Bill 3326 (Chapter 704, Oregon Laws 2001, effective on January 1, 2002), which were effective on May 22, 2002. These amendments clarified but did not further restrict dwelling standards for EFU-zoned land.

Conclusions

As explained in Section V.(1) of this report, the claimants are Robert D. and Beverly Updenkelder and Sandra LaRoche whose family members acquired the subject property in 1967. Under ORS 197.352, the claimants are due compensation for land use regulations that restrict the use of the property and have the effect of reducing its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since the claimants' family acquired the subject property restrict the claimants' desired use of the property. The claimants estimate that the effect of the regulations on the fair market value of the subject property is a reduction of \$120,000.

Without an appraisal or other documentation, it is not possible to substantiate the specific dollar amount by which the land use regulations have reduced the fair market value of the subject property. Nevertheless, based on the evidence in the record for this claim, the department determines that the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department since the claimants' family acquired the property.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

Findings of Fact

The claim is based on state land use regulations that restrict the use of the subject property, including applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, which Lincoln County has implemented through its current A-C zone. All of these land use regulations were enacted or adopted after the claimants' family acquired the subject property.

Conclusions

It appears that none of the general statutory, goal and rule restrictions on residential development of the subject property were in effect when the claimants' family acquired the property on September 19, 1967. As a result, these laws are not exempt under ORS 197.352(3)(E). Laws in effect when the claimants' family acquired the subject property are exempt under ORS 197.352(3)(E) and do not provide a basis for compensation. In addition, other land use laws enacted or adopted for a purpose set forth in ORS 197.352(3)(A) to (D) are also exempt and would not provide a basis for compensation.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the Director of the

department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimants' desired use of the subject property. The claim asserts that existing state land use regulations enforced by the Commission or the department have the effect of reducing the fair market value of the subject property by \$120,000. However, because the claim does not provide an appraisal or other relevant evidence demonstrating that the land use regulations described in Section V.(2) reduce the fair market value of the subject property, a specific amount of compensation cannot be determined. In order to determine a specific amount of compensation due for this claim, it would also be necessary to verify whether or the extent to which the claimants' desired use of the subject property was allowed under the standards in effect when the claimants' family acquired the property. Nevertheless, based on the record for this claim, the department has determined that the laws on which the claim is based have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow Robert D. and Beverly Updenkelder and Sandra LaRoche to use the subject property for a use permitted at the time they acquired the property on June 12, 1986.

At the time the claimants acquired the subject property, it was subject to Lincoln County's acknowledged comprehensive plan and A-C-10 zone.⁵ That zone generally allowed a dwelling on lots of a minimum size of 10 acres and on conditional approval. At that time, the claimants' desired use of the property would have been subject to compliance with Goal 3, and OAR 660, division 5, as implemented through the county's acknowledged A-C-10 zone, and the applicable provisions of ORS 215 then in effect.⁶

In 1986, ORS 215.283(1)(f) (1985 edition) generally allowed farm dwellings "customarily provided in conjunction with farm use." Non-farm dwellings were allowed under ORS 215.283(3) if they were determined to be compatible with farm use, not interfere seriously with accepted farm practices, not materially alter the stability of the land use pattern in the area and be situated on generally unsuitable land for the production of farm crops and livestock.

The claim does not establish whether or to what extent the claimants' desired development of the subject property was allowed under the standards in effect when they acquired the property on June 12, 1986.

⁵ Lincoln County's EFU zone was acknowledged by the Commission for compliance with Goal 3 on January 18, 1983.

⁶ After the county's comprehensive plan and land use regulations were acknowledged by the Commission as complying with the statewide planning goals, the goals and implementing rules no longer applied directly to individual local land use decisions. *Byrd v. Stringer*, 295 Or 311 (1983). However, statutory requirements continue to apply, and insofar as the state and local provisions are materially the same, the local provisions must be interpreted consistent with the substance of the goals and implementing rules. *Forster v. Polk County*, 115 Or App 475 (1992) and *Kenagy v. Benton County*, 115 Or App 131 (1992).

In addition to the applicable provisions of Goal 3, ORS 215 and OAR 660 in effect on June 12, 1986, and other laws in effect when the claimants acquired the subject property, there may be other laws that apply to the claimants' use of the property that have not been identified in the claim. Lincoln County also notes that a portion of the property is located within the regulated flood hazard area of the Siletz River. ORS 197.352(3)(B) specifically exempts regulations "restricting or prohibiting activities for the protection of public health and safety. . . ." To the extent the county's flood plain regulations are based on state law, these regulations would be exempt under ORS 197.352(3)(B).

In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use, and depending on when they were enacted or adopted, may continue to apply to the claimants' property. In addition, some of these laws may be exempt under ORS 197.352(3)(A) to (D) and will continue to apply to the subject property on that basis.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimants have identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable given the information provided to the department in the claim. The claimants should be aware that the less information they have provided to the department in their claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to their use of the subject property.

Conclusions

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to the claimants' development of a dwelling on the 9.2-acre subject property: applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, enacted or adopted after June 12, 1986. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when they acquired the property on June 12, 1986.
2. The action by the State of Oregon provides the state's authorization to the claimants to use the subject property for the use described in this report, subject to the standards in effect on June 12, 1986. At that time, the property was subject to compliance with Goal 3 and OAR 660, division 5, as implemented by Lincoln County's acknowledged EFU zone, and the applicable provisions of ORS 215 then in effect.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimants first obtain that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a

“permit” as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by the claimants under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimants to use the subject property, it may be necessary for them to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimants from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimants.

6. Nothing in this report or the state’s final order for this claim constitutes any determination of ownership by the State of Oregon as to submerged or submersible lands, or as to public rights to the use of waters of the state.

VII. COMMENTS ON THE DRAFT STAFF REPORT

The department issued its draft staff report on this claim on July 3, 2007. OAR 125-145 0100(3), provided an opportunity for the claimants or the claimants’ authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation.
