Claimant: George Westcott III

Enclosed, in regard to the above-referenced claim for compensation under Ballot Measure 37 (ORS 197.352), is the Final Staff Report and Recommendation of the Department of Land Conservation and Development, and the Final Order.

This Final Staff Report and Recommendation and the Final Order constitute the final decision on this claim. No further action will be taken on this matter.

BEFORE THE DEPARTMENT OF ADMINISTRATIVE SERVICES,
THE DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT OF
THE STATE OF OREGON

IN THE MATTER OF THE CLAIM FOR)	FINAL ORDER
COMPENSATION UNDER ORS 197.352)	CLAIM NO. M130970
(BALLOT MEASURE 37) OF)	
George Westcott III, CLAIMANT)	

Claimant: George Westcott III (the Claimant)

Property: Township 10S, Range 11W, Section 8D, Tax lot 300, Lincoln County
(the Property)

Claim: The demand for compensation and any supporting information received from the Claimant by the State of Oregon (the Claim).

Claimant submitted the Claim to the State of Oregon under ORS 197.352. Under OAR 125-145-0010 *et seq.*, the Department of Administrative Services (DAS) referred the Claim to the Department of Land Conservation and Development (DLCD) as the regulating entity. This order is based on the record herein, including the Findings and Conclusions set forth in the Final Staff Report and Recommendation of DLCD (the DLCD Report) attached to and by this reference incorporated into this order.

ORDER

The Claim is approved as to laws administered by DLCD and the Land Conservation and Development Commission (LCDC) for the reasons set forth in the DLCD Report, and subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to George Westcott III's division of the 26.39-acre subject property into 26 one-acre parcels or to his development of a dwelling on each parcel: applicable provisions of Goal 14 and OAR 660-004-0040, adopted after August 27, 1979. These land use regulations will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on August 27, 1979.
2. The action by the State of Oregon provides the state's authorization to the claimant to use the subject property for the use described in this report, subject to the standards in effect on August 27, 1979. At that time, the property was subject to applicable provisions of Goal 14 then in effect.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license

or other form of authorization or consent, the order will not authorize the use of the property unless the claimant first obtains that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by the claimant under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimant to use the subject property, it may be necessary for him to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimant from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimant.

6. Nothing in this report or the state's final order for this claim constitutes any determination of ownership by the State of Oregon as to submerged or submersible lands, or as to public rights to the use of waters of the state.

This Order is entered by the Manager for the Measure 37 Services Division of the DLCD as a final order of DLCD and the Land Conservation and Development Commission under ORS 197.352, OAR 660-002-0010(8), and OAR 125, division 145, and by the Administrator for the State Services Division of the DAS as a final order of DAS under ORS 197.352, OAR 125, division 145, and ORS 293.

DATE RECEIVED BY DAS: November 20, 2006

DEADLINE FOR FINAL ACTION:¹ May 13, 2008

I. SUMMARY OF CLAIM

The claimant, George Westcott III, seeks compensation in the amount of \$430,000 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimant desires compensation or the right to divide the 26.39-acre subject property into 26 one-acre parcels and to develop a dwelling on each parcel. The subject property is located at Highway 101 and NE 100th Drive, near Newport, in Lincoln County. (See claim.)

II. SUMMARY OF STAFF RECOMMENDATION

Based on the findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department

¹ ORS 197.352, as originally enacted, required that final action on claims made under Measure 37 be made within 180 days of the date the claim was filed. In response to the large volume of claims filed in late 2006, the Oregon legislature passed House Bill 3546, which became effective on May 10, 2007. This legislation increased the amount of time state and local governments have to take final action on Measure 37 claims filed on or after November 1, 2006, by 360 days, to a total of 540 days.

not apply to George Westcott III's division of the 26.39-acre subject property into 26 one-acre parcels and to his development of a dwelling on each parcel: applicable provisions of Statewide Planning Goal 14 (Urbanization) and Oregon Administrative Rule (OAR) 660-004-0040, adopted after August 27, 1979. These laws will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on August 27, 1979. (See the complete recommendation in Section VI of this report.)

III. COMMENTS ON THE CLAIM

Comments Received

On June 6, 2007, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, no written comments were received in response to the 10-day notice.

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004); within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

This claim was submitted to DAS on November 20, 2006, for processing under OAR 125, division 145. The claim identifies Goal 14, ORS 92 and 215 and OAR 660-004-0040 as the bases for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

The claimant, George Westcott III, acquired the subject property from his family member, Margaret Westcott, on August 27, 1979, as reflected by a warranty deed included with the claim. Margaret Westcott acquired the subject property on October 1, 1965, as evidenced by warranty deed included with the claim. The Lincoln County Assessor’s Office confirms the claimant’s current ownership of the subject property.

Conclusions

The claimant, George Westcott III, is an “owner” of the subject property as that term is defined by ORS 197.352(11)(C), as of August 27, 1979. Margaret Westcott is a “family member” as defined by ORS 197.352(11)(A) and acquired the subject property on October 1, 1965.

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimant’s use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimant or a family member acquired the property.

Findings of Fact

The claim indicates that the claimant desires to divide the 26.39-acre subject property into 26 one-acre parcels for residential development and that current land use regulations prevent the desired use.²

The claim is based on the provisions of state law that regulate rural residential zoning. The claimant’s property is zoned RR-2 by Lincoln County. The RR-2 zone is a rural residential zone, in accordance with Goal 14, which prohibits urban use of rural lands. The county’s RR-2 zone requires two acres for the creation of any new lot or parcel and was in effect and applied to the subject property on or before October 4, 2000.

² The claimant summarily cites numerous state land use laws as applicable to this claim, but does not establish how the laws either apply to the claimant’s desired use of the subject property or restrict its use with the effect of reducing its fair market value. On their face, most of these regulations either do not apply to the claimant’s property or do not restrict the claimant’s desired use of the property with the effect of reducing its fair market value. This report addresses only those regulations that the department finds are applicable to and restrict the claimant’s desired use of the subject property, based on the claimant’s description of that desired use.

Goal 14 became effective on January 25, 1975, and requires that local comprehensive plans identify and separate urbanizable land from rural land in order to provide for an orderly and efficient transition from rural to urban land use. In 2000, as a result of a 1986 Oregon Supreme Court decision,³ the Commission amended Goal 14 and adopted OAR 660-004-0040 (Application of Goal 14 to Rural Residential Areas), which was effective on October 4, 2000.

The rule states that if a county rural residential zone in effect on October 4, 2000, specifies a minimum lot size of two acres or more, the area of any new lot or parcel shall equal or exceed the minimum lot size then in effect (OAR 660-004-0040(7)(c)). Because Lincoln County's rural residential zone was in effect on October 4, 2000, and requires a minimum lot size of two acres, the minimum lot size for all new lots or parcels must equal or exceed two acres.

The claimant's family member acquired the subject property in 1965, prior to the adoption of the statewide planning goals and their implementing statutes and rules. At that time, the subject property was not zoned by the county.

Conclusions

The minimum lot size requirements for rural residential lots or parcels established by Goal 14 and OAR 660-004-0040 were adopted since the claimant's family member acquired the subject property in 1965 and do not allow the desired division of the property. These regulations restrict the use of the subject property relative to uses permitted when the claimant's family member acquired it.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have "the effect of reducing the fair market value of the property, or any interest therein."

Findings of Fact

The claim includes an estimate of \$430,000 as the reduction in the subject property's fair market value due to the regulations that restrict the claimant's desired use of the property. This amount is based on the claimant's assessment of the value of the subject property.

Conclusions

As explained in Section V.(1) of this report, the claimant is George Westcott III, whose family acquired the subject property in 1965. Under ORS 197.352, the claimant is due compensation for land use regulations that restrict the use of the property and have the effect of reducing its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since the claimant's family acquired the subject property restrict the claimant's desired use of the property. The claimant estimates that the effect of the regulations on the fair market value of the subject property is a reduction of \$430,000.

³ *1000 Friends of Oregon v. LCDC (Curry County)*, 301 Or 447 (1986).

Without an appraisal or other documentation, it is not possible to substantiate the specific dollar amount by which the land use regulations have reduced the fair market value of the subject property. Nevertheless, based on the evidence in the record for this claim, the department determines that the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department since the claimant's family acquired the property.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

Findings of Fact

The claim is based on state land use regulations that restrict the use of the subject property, including Goal 14 and OAR 660-004-0040, which Lincoln County has implemented through its RR-2 zone. These state land use regulations were not in effect when the claimant's family acquired the property.

Conclusions

It appears that none of the general statutory, goal and rule restrictions on residential division of the subject property were in effect when the claimant's family acquired the property on October 1, 1965. As a result, these laws are not exempt under ORS 197.352(3)(E). Laws in effect when the claimant's family acquired the subject property are exempt under ORS 197.352(3)(E) and do not provide a basis for compensation. In addition, other land use laws enacted or adopted for a purpose set forth in ORS 197.352(3)(A) to (D) are also exempt and would not provide a basis for compensation.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimant's desired use of the subject property. The claim asserts that existing state land use regulations enforced by the Commission or the department have the effect of reducing the fair market value of the subject property by \$430,000. However, because the claim does not provide an appraisal or other relevant evidence demonstrating that the land use regulations described in Section V.(2) reduce the fair market value of the subject property, a

specific amount of compensation cannot be determined. In order to determine a specific amount of compensation due for this claim, it would also be necessary to verify whether or the extent to which the claimant's desired use of the subject property was allowed under the standards in effect when the claimant's family acquired the property. Nevertheless, based on the record for this claim, the department has determined that the laws on which the claim is based have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow George Westcott III to use the subject property for a use permitted at the time he acquired the property on August 27, 1979.

The claimant acquired the subject property after the adoption of the statewide planning goals, but before the Commission acknowledged Lincoln County's land use regulations to be in compliance with statewide planning goals pursuant to ORS 197.250 and 197.251. The subject property was recognized as resource land when the claimant acquired it in 1979, and because the Commission had not acknowledged Lincoln County's plan and land use regulations when the claimant acquired the property, the statewide planning goals, and particularly Goals 3 (Agricultural Lands) and 4 (Forest Lands), in addition to Goal 14, would have applied directly to the claimant's property had he sought the desired use at the time he acquired the property.⁴ Alternatively, the claimant would have been required to establish a basis for an exception to compliance with those goals pursuant to the Goal 2 (Land Use Planning) exceptions process. However, through the county's acknowledgement process, the subject property was ultimately acknowledged as exceptions land pursuant to Goal 2, and zoned by the county for rural residential use.⁵ Therefore, while the county could now require that the property be evaluated as resource land, as would have been required in 1979, because of the property's ultimate designation as rural residential exceptions land, the county could also require that the claimant's desired use be subject to compliance directly with Goal 14.

The claim does not establish whether or to what extent the claimant's desired division of the subject property to create 26 one-acre parcels could have satisfied this standard

In addition to the applicable provisions of Goal 14 in effect on August 27, 1979, and other laws in effect when the claimant acquired the subject property, there may be other laws that apply to the claimant's use of the property that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When the claimant seeks a building or development permit to carry out a

Union County*, 42 Or App 505 (1979); and *1000 Friends of Oregon v. Benton County*, 32 Or App 413 (1978). After the county's plan and land use regulations were acknowledged by the Commission, the statewide planning goals and implementing rules no longer directly applied to such local land use decisions. *Byrd v. Stringer*, 295 Or 311 (1983). However, statutory requirements continue to apply, and insofar as the state and local provisions are materially the same, the local provisions must be interpreted consistent with the substance of the goals and implementing rules. *Foster v. Polk County*, 115 Or App 475 (1992); *Kenagy v. Benton County*, 115 Or App 131 (1992).

⁵ When Lincoln County's plan was acknowledged for compliance with Goal 14 on December 27, 1984, the subject property was zoned A-2 (Rural Residential), which allowed one-acre zoning.

specific use, it may become evident that other state laws apply to that use, and depending on when they were enacted or adopted, may continue to apply to the claimant's property. In addition, some of these laws may be exempt under ORS 197.352(3)(A) to (D) and will continue to apply to the subject property on that basis.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimant has identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable given the information provided to the department in the claim. The claimant should be aware that the less information he has provided to the department in his claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to his use of the subject property.

Conclusions

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to George Westcott III's division of the 26.39-acre subject property into 26 one-acre parcels or to his development of a dwelling on each parcel: applicable provisions of Goal 14 and OAR 660-004-0040, adopted after August 27, 1979. These land use regulations will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on August 27, 1979.
2. The action by the State of Oregon provides the state's authorization to the claimant to use the subject property for the use described in this report, subject to the standards in effect on August 27, 1979. At that time, the property was subject to applicable provisions of Goal 14 then in effect.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimant first obtains that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.
4. Any use of the subject property by the claimant under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).
5. Without limiting the generality of the foregoing terms and conditions, in order for the claimant to use the subject property, it may be necessary for him to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use

regulations applicable to the property. Nothing in this order relieves the claimant from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimant.

6. Nothing in this report or the state's final order for this claim constitutes any determination of ownership by the State of Oregon as to submerged or submersible lands, or as to public rights to the use of waters of the state.

VII. COMMENTS ON THE DRAFT STAFF REPORT

The department issued its draft staff report on this claim on July 20, 2007. OAR 125-145 0100(3), provided an opportunity for the claimant or the claimant's authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation.
