DATE RECEIVED BY DAS: December 1, 2006

DEADLINE FOR FINAL ACTION:¹ May 24, 2008

I. SUMMARY OF CLAIMS

The claimant, James Drayton, seeks compensation in the amount of \$30.3 million² under ORS 197.352. The claimant desires compensation but has not identified his desired use of the subject property or how any land use regulations restrict the use of the property with the effect of reducing the property's fair market value. The subject property is located at the geographic coordinates listed above, near Lincoln City, in Lincoln County. (See claims.)

¹ ORS 197.352, as originally enacted, required that final action on claims made under Measure 37 be made within 180 days of the date the claim was filed. In response to the large volume of claims filed in late 2006, the Oregon legislature passed House Bill 3546, which became effective on May 10, 2007. This legislation increased the amount of time state and local governments have to take final action on Measure 37 claims filed on or after November 1, 2006, by 360 days, to a total of 540 days.

² This amount represents total compensation sought for all tax lots subject to claims M133635, M133636, M133637, M133638 and M133639. The claimant submitted a separate claim for relief under ORS 197.352 for each of the tax lots identified above. Those claims are consolidated for this review.

II. SUMMARY OF STAFF RECOMMENDATION

Based on the findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that these claims are not valid because the claimant has not (1) established his ownership of the property or when he acquired it; (2) identified his desired use of the subject property or any land use regulations that restrict his desired use of the property; or (3) established that land use regulations enacted or adopted after he acquired the property have the effect of reducing the property's fair market value. (See the complete recommendation in Section VI. of this report.)

III. COMMENTS ON THE CLAIMS

Comments Received

Oregon Administrative Rule (OAR) 125-145-0100 provides an opportunity for the claimant or the claimant's authorized agent and any third parties to submit written comments, evidence and information in response to the draft staff report and recommendation. Such response must be filed no more than 15 calendar days after the date this report is mailed to the claimant and any third parties. Responses to this draft staff report and recommendation will be considered only as comments related to the claims described in this report.

IV. TIMELINESS OF CLAIMS

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

These claims were submitted to DAS on December 1, 2006, for processing under OAR 125, division 145. The claims do not identify any land use regulations that restrict the claimant's desired use of the property.

Conclusions

The claims have been submitted within two years of the effective date of Measure 37 (December 2, 2004). However, the department cannot determine whether they are based on land use

regulations enacted or adopted prior to December 2, 2004, and therefore, whether they are timely filed.

V. ANALYSIS OF CLAIMS

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352 (11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

The claims do not establish when claimant James Drayton acquired the subject property and do not include copies of any deeds or otherwise establish that the claimant is a current owner of the subject property.³

Conclusions

The claimant, James Drayton, has not established that he is an “owner” of the subject property as that term is defined in ORS 197.352(11)(C).

2. The Laws That are the Basis for These Claims

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimant’s use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimant or a family member acquired the property.

The claims do not indicate the claimant’s desired use of the subject property and do not identify any land use regulations as restricting a desired use of the property.

As explained in Section V.(1) above, the claimant, James Drayton, has not established that he is an “owner” of the subject property as that term is defined in ORS 197.352(11)(c). In addition, the claimant has not identified his desired use of the subject property or any land use regulations that restrict that use. Therefore, it is not possible to determine that any laws enforced by the Land Conservation and Development Commission (the Commission) or the department restrict the claimant’s desired use of the subject property with the effect of reducing the fair market value of the property.

³ On February 9, 2007, department staff sent two letters to the claimant’s attorney requesting the claimant’s intended use of the property, proof of ownership documentation and a list of land use regulations for which the claims are based. The claimant’s attorney responded by letter dated February 28, 2007, but did not include any documentation. The requested documentation has not been received to date.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have “the effect of reducing the fair market value of the property, or any interest therein.”

As explained in Sections V.(1) and (2) of this report, the claimant, James Drayton, has not established his ownership of the subject property and has not identified his desired use of the subject property or any land use regulations that restrict a use of the property with the effect of reducing the property’s fair market value. Therefore, the department can make no determination on the effect of any land use regulations on the fair market value of the subject property.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

As explained in Sections V.(1) and (2) of this report, the claimant, James Drayton, has not established that he is an “owner” of the subject property as that term is defined in ORS 197.352(11)(C) and has not identified a use of the subject property or any land use regulations that restrict a use of the property with the effect of reducing the property’s fair market value. Therefore, the department can make no determination as to whether any land use laws are exempt from ORS 197.352.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the Director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the record, the department finds that these claims are not valid because the claimant has not (1) established his ownership of the property or when he acquired it; (2) identified his desired use of the subject property or any land use regulations that restrict his desired use of the property; or (3) established that land use regulations enacted or adopted after he acquired the property have the effect of reducing the property’s fair market value.

Conclusions

Based on the record before the department, the claimant, James Drayton, has not established that he is entitled to relief under ORS 197.352(1) as a result of land use regulations enforced by the

Commission or the department. Therefore, the department recommends that these claims be denied.

VII. COMMENTS ON THE DRAFT STAFF REPORT

The department issued its draft staff report on this claim on September 25, 2007. OAR 125-145-0100(3), provided an opportunity for the claimant or the claimant's authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation. Comments received have been taken into account by the department in the issuance of this final report.
