

Hi all -

The OPAC Wave Energy Working Group will meet, briefly, Thursday, March 27th from 4:30 to 5:30 with a limited agenda as outlined below. The meeting will follow the MRWG meeting, in the same room, at the Best Western Agate Beach Hotel, 3019 N. Coast Hwy in Newport.

We won't have much time, but I would suggest these three agenda items:

1. Report back from Cathy Tortorici, Jonathan Allen on cumulative effects presentation to OWET; next steps to get the CE study moving (20 min)
2. Chose a date for a longer meeting WEWG in April (bring your calendars) and suggestions for agenda items (20 min)
3. Quick collective update: OPT - Coos Bay; Tillamook project; you name it . . . (20 min)
