PART C: Other Impacts and Ensuring Successful Package Implementation:

While no specific performance measure is impacted, the funds requested in policy package 103 would allow the Task Force to continue its work towards meeting the statutory directives of the 2005 Legislature. Notably, the additional position requested would focus on the public outreach component of that direction. Specifically, the requested funds would allow the Task Force to conduct public meetings, survey citizens, and gather from and provide to the public comprehensive information to make recommendations on Oregon's land use planning program and develop related legislation.
