FOREST MODEL ZONE – DRAFT 1

This draft model zoning ordinance section incorporates the mandatory (non-discretionary) elements of Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR) that regulate land uses and divisions in forest zones. Elements that vary between eastern and western Oregon are clearly identified. Two options for codification are presented, list and tabular. There are other reasonable options for organization, but these are presented as a starting point that can be modified to fit other zoning ordinance formats.

The outline structure this model zone uses is:

Section
  A. Subsection
    (1) paragraph
      (a) subparagraph

Approval Process

The notice, review, and approval processes used by Oregon counties are varied and complex. This model code addresses ministerial, administrative and quasi-juridical permits, while zoning ordinances also include procedures for other quasi-judicial plan and zone changes and legislative amendments.

This first draft of the model code uses the term “subject to county review,” which is intended to include any review mechanism a county chooses to employ – an administrative review or hearings officer or planning commission hearing – as long as it complies with relevant statutes. Where the draft model zone does not indicate the need for notice and review, a county may nevertheless choose to require them for its own purposes, such as for a site design review required by another section of the ordinance.

Later drafts of the model zone may provide model notice and review sections based on the recommendation of the Model Zone Project Teams.

Use Categories

The uses listed at OAR 660-006-0025(2) and (3) are either forest-related or are generally compatible with forest uses and should therefore be authorized uses in county zones. These uses are included in the “Uses Permitted” and “Non-residential Uses Permitted Subject to Standards” sections of this model zone, and a county should not add approval criteria to these uses beyond those included herein. (Siting and design standards are allowed if they would not result in the denial of the use.) Residential uses are listed at ORS 215.705 to 755 and are included in the “Residential Uses Permitted Subject to Standards” section. The uses listed at OAR 660-006-0025(4) are included in the “Conditional Uses” section of this model zone. A county may introduce local approval criteria for “Conditional Uses.”
Regional Variation

The provisions for eastern and western Oregon are included in this first draft. If a section applies only to one region, or excludes one region, the provision is depicted in color type:

Eastern Oregon
Western Oregon

Section X.01 Purpose

[Content for this section will be provided in a later draft.]

Section X.02 Definitions

[These may be in a separate section of a zoning ordinance. If so, make sure you want the definition to apply to every zone.]

Words used in the present tense include the future; the singular number includes the plural; and the word “shall” is mandatory and not directory. Whenever the term “this ordinance” is used herewith, it shall be deemed to include all amendments thereto as may hereafter from time to time be adopted.
For the purpose of this zone [or ordinance], the following definitions apply:

A. Definitions contained in ORS 197.015 and the Statewide Planning Goals.

B. “Auxiliary” as used in Section X.03, uses B and C, means a use or alteration of a structure or land that provides help or is directly associated with the conduct of a particular forest practice. An auxiliary structure is located on site, temporary in nature, and is not designed to remain for the forest's entire growth cycle from planting to harvesting. An auxiliary use is removed when a particular forest practice has concluded.

C. “Campground” means an area devoted to overnight temporary use for vacation, recreational or emergency purposes, but not for residential purposes and is established on a site or is contiguous to lands with a park or other outdoor natural amenity that is accessible for recreational use by the occupants of the campground.

D. “Commercial Tree Species” means trees recognized for commercial production under rules adopted by the State Board of Forestry pursuant to ORS 527.715.

E. “Cubic Foot Per Acre” means the average annual increase in cubic foot volume of wood fiber per acre for fully stocked stands at the culmination of mean annual increment as reported by the USDA Natural Resource Conservation Service (NRCS) soil survey.

F. “Cubic Foot Per Tract Per Year” means the average annual increase in cubic foot volume of wood fiber per tract for fully stocked stands at the culmination of mean annual increment as reported by the USDA Natural Resource Conservation Service (NRCS) soil survey.

G. "Date of Creation and Existence." When a lot, parcel or tract is reconfigured pursuant to applicable law after November 4, 1993, the effect of which is to qualify a lot, parcel or tract for the siting of a dwelling, the date of the reconfiguration is the date of creation or existence. Reconfigured means any change in the boundary of the lot, parcel, or tract.

H. "Eastern Oregon" means that portion of the state lying east of a line beginning at the intersection of the northern boundary of the State of Oregon and the western boundary of Wasco County, then south along the western boundaries of the counties of Wasco, Jefferson, Deschutes and Klamath to the southern boundary of the State of Oregon.

I. “Forest Operation” means any commercial activity relating to the growing or harvesting or any forest tree species as defined in ORS 527.620(6).

J. "Governing Body" means a city council, county board of commissioners, or county court or its designate, including planning director, hearings officer, planning commission or as provided by Oregon law.
K. “Lot” means a single unit of land that is created by a subdivision of land as provided in ORS 92.010.

L. “Parcel” means a single unit of land that is created by a partition of land and as further defined in ORS 215.010(1).

M. “Relative” means a spouse, child, parent, stepparent, grandchild, grandparent, stepgrandparent, sibling, stepsibling, niece, nephew or first cousin.

N. “Storage structures for emergency supplies” means structures to accommodate those goods, materials and equipment required to meet the essential and immediate needs of an affected population in a disaster. Such supplies include food, clothing, temporary shelter materials, durable medical goods and pharmaceuticals, electric generators, water purification gear, communication equipment, tools and other similar emergency supplies.

O. “Tract” means one or more contiguous lots or parcels in the same ownership.

P. “Western Oregon” means that portion of the state lying west of a line beginning at the intersection of the northern boundary of the State of Oregon and the western boundary of Wasco County, then south along the western boundaries of the counties of Wasco, Jefferson, Deschutes and Klamath to the southern boundary of the State of Oregon.

Q. “Youth camp” is a facility either owned or leased, and operated by a state or local government, or a nonprofit corporation as defined under ORS 65.001, to provide an outdoor recreational and educational experience primarily for the benefit of persons 21 years of age and younger. Youth camps do not include any manner of juvenile detention center or juvenile detention facility.

R. “Yurt” means a round, domed shelter of cloth or canvas on a collapsible frame with no plumbing, sewage disposal hook-up or internal cooking appliance.

Section X.03 Non-Residential Uses Permitted

In the Forest zone, the following uses and activities and their accessory buildings and uses are permitted subject to the general provisions set forth by this ordinance:

A. Forest operations or forest practices including, but not limited to, reforestation of forest land, road construction and maintenance, harvesting of a forest tree species, application of chemicals, and disposal of slash.

B. Temporary on-site structures that are auxiliary to and used during the term of a particular forest operation.

C. Physical alterations to the land auxiliary to forest practices including, but not limited to, those made for purposes of exploration, mining, commercial gravel
extraction and processing, landfills, dams, reservoirs, road construction or recreational facilities.

D. Uses to conserve soil, air and water quality and to provide for wildlife and fisheries resources.

E. Farm use as defined in ORS 215.203.

F. Local distribution lines (e.g., electric, telephone, natural gas) and accessory equipment (e.g., electric distribution transformers, poles, meter cabinets, terminal boxes, pedestals), or equipment that provides service hookups, including water service hookups.

G. Temporary portable facility for the primary processing of forest products.

H. Widening of roads within existing rights-of-way in conformance with the transportation element of the acknowledged comprehensive plans and public road and highway projects as described in Section X.03 [of the model EFU zone].

I. Exploration for mineral and aggregate resources as defined in ORS chapter 517.

J. Private hunting and fishing operations without any lodging accommodations.

K. Towers and fire stations for forest fire protection.

L. Water intake facilities, canals and distribution lines for farm irrigation and ponds.

M. Uninhabitable structures accessory to fish and wildlife enhancement.

N. Temporary forest labor camps.

O. Exploration for and production of geothermal, gas, oil, and other associated hydrocarbons, including the placement and operation of compressors, separators and other customary production equipment for an individual well adjacent to the well head.

P. Disposal site for solid waste that has been ordered established by the Oregon Environmental Quality Commission under ORS 459.049, together with the equipment, facilities or buildings necessary for its operation.

Q. An outdoor mass gathering as of more than 3,000 persons that is expected to continue for more than 24 hours but less than 120 hours in any three-month period, as provided in ORS 433.735.

R. An agricultural building, as defined in ORS 455.315, customarily provided in conjunction with farm use or forest use. A person may not convert an agricultural building authorized by this section to another use.
Section X.04 Non-Residential Uses Permitted Subject to Standards

In the Forest zone, the following non-residential uses and activities and their accessory buildings and uses are permitted subject to county review and the specific standards for the use set forth as noted below, as well as the general standards for the zone [and any other applicable siting and design standards and review process in the zoning ordinance]:

A. Destination resorts subject to Section X.07.F.

B. Youth camps subject to Section X.11.

C. Any outdoor gathering of more than 3,000 persons that is expected to continue for more than 120 hours in any three-month period is subject to review by a county planning commission under ORS 433.763.

Section X.05 Permitted Residential Uses Subject to Standards

In the Forest zone, the following residential uses and their accessory buildings and uses are permitted subject to county review and the specific standards for the use set forth as noted below, as well as the general standards for the zone [and any other applicable siting and design standards and review process in the zoning ordinance]:

A. Caretaker residences for public parks and public fish hatcheries subject to Subsection X.07.N.

B. A large tract forest dwelling subject to Subsection X.07.A and X.07.N.

C. An ownership of record dwelling authorized under ORS 215.705 subject to Subsections X.07.B and X.07.N.

D. A template dwelling subject to Subsection X.07.C and X.07.N.

E. Alteration, restoration or replacement of a lawfully established dwelling subject to Subsections X.07.D and X.07.N.

Section X.06 Conditional Uses

In the Forest zone, the following uses and their accessory buildings and uses are permitted subject to county review, any specific standards for the use set forth in Section X.07, the conditional use review criteria in Section X.08 and the general standards for the zone [and any other applicable standards and review process in the zoning ordinance]:

A. Log scaling and weigh stations.

B. Forest management research and experimentation facilities as defined by ORS 526.215 or where accessory to forest operations.
C. A manufactured dwelling or recreational vehicle, or the temporary residential use of an existing building, in conjunction with an existing dwelling as a temporary use for the term of a hardship suffered by the existing resident or a relative subject to Subsection X.07.E and Section X.08.

D. Parking of up to seven dump trucks and seven trailers.

E. Home occupations subject to Subsection X.07.G.

F. Permanent facility for the primary processing of forest products.

G. Permanent logging equipment repair and storage.

H. Private seasonal accommodations for fee hunting operations subject to Subsections X.07.H, X.09 and X.010.

I. Private accommodations for fishing occupied on a temporary basis may be allowed subject to Subsections X.07.I, X.09 and X.010.

J. Mining and processing of oil, gas, or other subsurface resources, as defined in ORS Chapter 520, and not otherwise permitted under Subsection X.03.O (e.g., compressors, separators and storage serving multiple wells), and mining and processing of aggregate and mineral resources as defined in ORS Chapter 517.

K. Temporary asphalt and concrete batch plants as accessory uses to specific highway projects.

L. Public road and highway projects as described in Section X.08 [of the model EFU zone.]

M. Expansion of existing airports.

N. Television, microwave and radio communication facilities and transmission towers.

O. New electric transmission lines with right of way widths of up to 100 feet as specified in ORS 772.210. New distribution lines (e.g., gas, oil, geothermal, telephone, fiber optic cable) with rights-of-way 50 feet or less in width.

P. Water intake facilities, related treatment facilities, pumping stations, and distribution lines.

Q. Reservoirs and water impoundments.

R. Disposal site for solid waste approved by the governing body of a city or county or both and for which the Oregon Department of Environmental Quality has granted a permit under ORS 459.245, together with equipment, facilities or buildings necessary for its operation.
S. Commercial utility facilities for the purpose of generating power subject to Subsection X.07.J.

T. Aids to navigation and aviation.

U. Firearms training facility.

V. Fire stations for rural fire protection.

W. Cemeteries.

X. Storage structures for emergency supplies subject to Subsection X.07.K.

Y. Public parks subject to Subsection X.07.L.

Z. Private parks and campgrounds subject to Subsection X.07.M.

Case law: OAR 660-006-0025(1)(b) requires recreational uses in forest zones to be "appropriate in a forest environment." This has been interpreted to mean that low-intensity recreational uses are allowable. (Utsey v. Coos County, 38 Or LUBA 516 (2000).

Section X.07 Use Standards

Residential Uses

A. A large tract forest dwelling authorized under ORS 215.740 may be allowed on land zoned for forest use if it complies with other provisions of law and is sited on a tract that does not include a dwelling:

(1) [In western Oregon] of at least 160 contiguous acres or 200 acres [or eastern Oregon] of at least 240 contiguous acres or 320 acres in one ownership that are not contiguous but are in the same county or adjacent counties and zoned for forest use. A deed restriction shall be filed pursuant to paragraph (3) for all tracts that are used to meet the acreage requirements of this subsection.

(2) A tract shall not be considered to consist of less than 160 acres [or] 240 acres because it is crossed by a public road or a waterway.

(3) (a) Where one or more lots or parcels are required to meet minimum acreage requirements, the applicant shall provide evidence that the covenants, conditions and restrictions form adopted as "Exhibit A" has been recorded with the county clerk of the county or counties where the property subject to the covenants, conditions and restrictions is located.

(b) The covenants, conditions and restrictions are irrevocable, unless a statement of release is signed by an authorized representative of the
county or counties where the property subject to the covenants, conditions and restrictions is located.

Notes: Enforcement of the covenants, conditions and restrictions may be undertaken by the department or by the county or counties where the property subject to the covenants, conditions and restrictions is located.

The failure to follow the requirements of this subsection shall not affect the validity of the transfer of property or the legal remedies available to the buyers of property that is subject to the covenants, conditions and restrictions required by this subsection.

The county planning director shall maintain a copy of the covenants, conditions and restrictions filed in the county deed records pursuant to this subsection and a map or other record depicting tracts do not qualify for the siting of a dwelling under the covenants, conditions and restrictions filed in the county deed records pursuant to this subsection. The map or other record required by this subsection shall be readily available to the public in the county planning office.

B. Ownership of record dwelling
(1) The lot or parcel on which the dwelling will be sited was lawfully created and was acquired and owned continuously by the present owner as defined in paragraph (4):

(a) Since prior to January 1, 1985; or

(b) By devise or by intestate succession from a person who acquired and had owned continuously the lot or parcel since prior to January 1, 1985.

(2) The tract on which the dwelling will be sited does not include a dwelling;

(3) The lot or parcel on which the dwelling will be sited was part of a tract on November 4, 1993, no dwelling exists on another lot or parcel that was part of that tract.

(4) For purposes of this subsection, “owner” includes the wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in-law, aunt, uncle, niece, nephew, stepparent, stepchild, grandparent or grandchild of the owner or a business entity owned by any one or combination of these family members.

(5) The dwelling must be located on a tract [in western Oregon] that is composed of soils not capable of producing 5,000 cubic feet per year [or eastern Oregon] that is composed of soils not capable of producing 4,000 cubic feet per year of commercial tree species and is located within 1,500 feet of a public road as defined under ORS 368.001 that provides or will provide access to the subject tract. The road shall be maintained and either paved or surfaced with rock and shall not be:
(a) A United States Bureau of Land Management road; or

(b) A United States Forest Service road unless the road is paved to a minimum width of 18 feet, there is at least one defined lane in each direction and a maintenance agreement exists between the United States Forest Service and landowners adjacent to the road, a local government or a state agency.

(6) When the lot or parcel on which the dwelling will be sited lies within an area designated in an acknowledged comprehensive plan as habitat of big game, the siting of the dwelling shall be consistent with the limitations on density upon which the acknowledged comprehensive plan and land use regulations intended to protect the habitat are based; and

(7) When the lot or parcel on which the dwelling will be sited is part of a tract, the remaining portions of the tract shall be consolidated into a single lot or parcel when the dwelling is allowed.

C. A single family “template” dwelling authorized under ORS 215.750 on a lot or parcel located within a forest zone if the lot or parcel is predominantly composed of soils that are:

(1) Capable of producing [in western Oregon] zero to 49 cubic feet [or in eastern Oregon] zero to 20 cubic feet per acre per year of wood fiber if:

(a) All or part of at least three other lots or parcels that existed on January 1, 1993, are within a 160 acre square centered on the center of the subject tract; and

(b) At least three dwellings existed on January 1, 1993 and continue to exist on the other lots or parcels.

(2) Capable of producing [in western Oregon] 50 to 85 cubic feet [or in eastern Oregon] 21 to 50 cubic feet per acre per year of wood fiber if:

(a) All or part of at least seven other lots or parcels that existed on January 1, 1993, are within a 160 acre square centered on the center of the subject tract; and

(b) At least three dwellings existed on January 1, 1993 and continue to exist on the other lots or parcels.

(3) Capable of producing more than [in western Oregon] 85 [or in eastern Oregon] 50 cubic feet per acre per year of wood fiber if:

(a) All or part of at least 11 other lots or parcels that existed on January 1, 1993, are within a 160 acre square centered on the center of the subject tract; and
(b) At least three dwellings existed on January 1, 1993 and continue to exist on the other lots or parcels.

(4) Lots or parcels within urban growth boundaries shall not be used to satisfy eligibility requirements.

(5) A dwelling is in the 160-acre template if any part of the dwelling is in the 160-acre template.

(6) Except as provided by paragraph (7), if the subject tract abuts a road that existed on January 1, 1993, the measurement may be made by creating a 160 acre rectangle that is one mile long and 1/4 mile wide centered on the center of the subject tract and that is to the maximum extent possible, aligned with the road.

(7) (a) If a tract 60 acres or larger abuts a road or perennial stream, the measurement shall be made in accordance with paragraph (6). However, one of the three required dwellings shall be on the same side of the road or stream as the tract, and:

   (i) Be located within a 160-acre rectangle that is one mile long and one-quarter mile wide centered on the center of the subject tract and that is, to the maximum extent possible aligned with the road or stream; or

   (ii) Be within one-quarter mile from the edge of the subject tract but not outside the length of the 160 acre rectangle, and on the same side of the road or stream as the tract.

(b) If a road crosses the tract on which the dwelling will be located, at least one of the three required dwellings shall be on the same side of the road as the proposed dwelling.

(8) A proposed “template” dwelling under this ordinance is not allowed:

   (a) If it is prohibited by or will not comply with the requirements of an acknowledged comprehensive plan, acknowledged land use regulations, or other provisions of law;

   (b) Unless it complies with the requirements of Sections X.09 and X.10;

   (c) Unless no dwellings are allowed on other lots or parcels that make up the tract and deed restrictions established under paragraph C(3) for the other lots or parcels that make up the tract are met; or

   (d) If the tract on which the dwelling will be sited includes a dwelling.

D. Alteration, restoration or replacement of a lawfully established dwelling that:
(1) (a) Has intact exterior walls and roof structures;
   (b) Has indoor plumbing consisting of a kitchen sink, toilet and bathing facilities connected to a sanitary waste disposal system;
   (c) Has interior wiring for interior lights;
   (d) Has a heating system; and

(2) In the case of replacement, is removed, demolished or converted to an allowable nonresidential use within three months of the completion of the replacement dwelling.

E. A temporary hardship dwelling is subject to the following:

(1) One manufactured dwelling, or recreational vehicle, or the temporary residential use of an existing building may be allowed in conjunction with an existing dwelling as a temporary use for the term of the hardship suffered by the existing resident or relative, subject to the following:

(a) The manufactured dwelling shall use the same subsurface sewage disposal system used by the existing dwelling, if that disposal system is adequate to accommodate the additional dwelling. If the manufactured home will use a public sanitary sewer system, such condition will not be required;

(b) The county shall review the permit authorizing such manufactured homes every two years; and

(c) Within three months of the end of the hardship, the manufactured dwelling or recreational vehicle shall be removed or demolished or, in the case of an existing building, the building shall be removed, demolished or returned to an allowed nonresidential use.

(2) A temporary residence approved under this section is not eligible for replacement under Subsection X.05.G. Department of Environmental Quality review and removal requirements also apply.

(3) As used in this section “hardship” means a medical hardship or hardship for the care of an aged or infirm person or persons.

Commercial Uses

F. A home occupation:
(1) Shall be operated by a resident or employee of a resident of the property on which the business is located;

(2) Shall employ on the site no more than five full-time or part-time persons;

(3) Shall be operated substantially in:

   (a) The dwelling; or

   (b) Other buildings normally associated with uses permitted in the zone in which the property is located; and

(4) Shall not unreasonably interfere with other uses permitted in the zone in which the property is located.

(5) When a bed and breakfast facility is sited as a home occupation on the same tract as a winery established under Subsection X.04.D. and in association with the winery:

   (a) The bed and breakfast facility may prepare and serve two meals per day to the registered guests of the bed and breakfast facility; and

   (b) The meals may be served at the bed and breakfast facility or at the winery.

G. Private seasonal accommodations for fee hunting operations are subject to the following requirements:

   (1) Accommodations are limited to no more than 15 guest rooms as that term is defined in the Oregon Structural Specialty Code;

   (2) Only minor incidental and accessory retail sales are permitted;

   (3) Accommodations are occupied temporarily for the purpose of hunting during either or both game bird or big game hunting seasons authorized by the Oregon Fish and Wildlife Commission; and

   Note: A county may impose other appropriate conditions.

H. Private accommodations for fishing occupied on a temporary basis are subject to the following requirements:

   (1) Accommodations limited to no more than 15 guest rooms as that term is defined in the Oregon Structural Specialty Code;
(2) Only minor incidental and accessory retail sales are permitted;

(3) Accommodations occupied temporarily for the purpose of fishing during fishing seasons authorized by the Oregon Fish and Wildlife Commission;

(4) Accommodations must be located within one-quarter mile of fish-bearing Class I waters; and

Note: A county may impose other appropriate conditions.

I. A Destination Resort is not permitted on high value farmland. [This use should only be listed for counties that have completed mapping of lands for destination resorts as provided in Goal 8 and ORS 197.435–197.467.]

Utility, Power Generation, Solid Waste Uses

J. A Commercial Utility Facility for the purpose of generating power shall not preclude more than 10 acres from use as a commercial forest operation.

Public and Quasi-public Uses

K. Storage structures for emergency supplies are subject to the following requirements:

(1) Areas within an urban growth boundary cannot reasonably accommodate the structures;

(2) The structures are located outside tsunami inundation zones and consistent with evacuation maps prepared by Department of Geology and Mineral Industries (DOGAMI) or the local jurisdiction;

(3) Sites where the structures could be co-located with an existing use approved under this subsection are given preference for consideration;

(4) The structures are of a number and size no greater than necessary to accommodate the anticipated emergency needs of the population to be served;

(5) The structures are managed by a local government entity for the single purpose of providing for the temporary emergency support needs of the public; and

(6) Written notification has been provided to the County Office of Emergency Management of the application for the storage structures.

L. Public parks may include:
(1) All uses allowed under Statewide Planning Goal 3;

(2) The following uses, if authorized in a local or park master plan that is adopted as part of the local comprehensive plan, or if authorized in a state park master plan that is adopted by OPRD:

   (a) Campground areas: recreational vehicle sites; tent sites; camper cabins; yurts; teepees; covered wagons; group shelters; campfire program areas; camp stores;

   (b) Day use areas: picnic shelters, barbecue areas, swimming areas (not swimming pools), open play fields, play structures;

   (c) Recreational trails: walking, hiking, biking, horse, or motorized off-road vehicle trails; trail staging areas;

   (d) Boating and fishing facilities: launch ramps and landings, docks, moorage facilities, small boat storage, boating fuel stations, fish cleaning stations, boat sewage pumpout stations;

   (e) Amenities related to park use intended only for park visitors and employees: laundry facilities; recreation shops; snack shops not exceeding 1500 square feet of floor area;

   (f) Support facilities serving only the park lands wherein the facility is located: water supply facilities, sewage collection and treatment facilities, storm water management facilities, electrical and communication facilities, restrooms and showers, recycling and trash collection facilities, registration buildings, roads and bridges, parking areas and walkways;

   (g) Park Maintenance and Management Facilities located within a park: maintenance shops and yards, fuel stations for park vehicles, storage for park equipment and supplies, administrative offices, staff lodging; and

   (h) Natural and cultural resource interpretative, educational and informational facilities in state parks: interpretative centers, information/orientation centers, self-supporting interpretative and informational kiosks, natural history or cultural resource museums, natural history or cultural educational facilities, reconstructed historic structures for cultural resource interpretation, retail stores not exceeding 1500 square feet for sale of books and other materials that support park resource interpretation and education.
(3) Visitor lodging and retreat facilities if authorized in a state park master plan that is adopted by OPRD: historic lodges, houses or inns and the following associated uses in a state park retreat area only:

(a) Meeting halls not exceeding 2000 square feet of floor area;

(b) Dining halls (not restaurants).

M. (1) Campgrounds in private parks may be permitted, subject to the following:

(a) Except on a lot or parcel contiguous to a lake or reservoir, campgrounds shall not be allowed within three miles of an urban growth boundary unless an exception is approved pursuant to ORS 197.732 and OAR chapter 660, division 4.

(b) A campground shall be designed and integrated into the rural agricultural and forest environment in a manner that protects the natural amenities of the site and provides buffers of existing native trees and vegetation or other natural features between campsites.

(c) Campgrounds authorized by this rule shall not include intensively developed recreational uses such as swimming pools, tennis courts, retail stores or gas stations.

(d) Overnight temporary use in the same campground by a camper or camper's vehicle shall not exceed a total of 30 days during any consecutive six-month period.

(2) Campsites within campgrounds meeting the requirement of X.07.F and permitted pursuant to Section X.08 must comply with the following:

(a) Allowed uses include tent, travel trailer or recreational vehicle; yurts are also allowed uses, subject to 2.c.

(b) Separate sewer, water or electric service hook-ups shall not be provided to individual camp sites except that electrical service may be provided to yurts.

(c) No more than one-third or a maximum of 10 campsites, whichever is smaller, may include a yurt. The yurt shall be located on the ground or on a wood floor with no permanent foundation.

N. For single-family dwellings, the landowner shall sign and record in the deed records for the county a document binding the landowner, and the landowner's successors in interest, prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937.
Section X.08 Conditional Use Review Criteria

A use authorized by Section X.06 of this zone may be allowed provided the following requirements or their equivalent are met. These requirements are designed to make the use compatible with forest operations and agriculture and to conserve values found on forest lands.

A. The proposed use will not force a significant change in, or significantly increase the cost of, accepted farming or forest practices on agriculture or forest lands.

B. The proposed use will not significantly increase fire hazard or significantly increase fire suppression costs or significantly increase risks to fire suppression personnel.

C. A written statement recorded with the deed or written contract with the county or its equivalent is obtained from the land owner that recognizes the rights of adjacent and nearby land owners to conduct forest operations consistent with the Forest Practices Act and Rules for uses authorized in Subsections 5(E) and 6(E), M, S and V.

Section X.09 Siting Standards for Dwellings and Structures in Forest Zones

The following siting criteria or their equivalent shall apply to all new dwellings and structures in forest zones. These criteria are designed to make such uses compatible with forest operations, to minimize wildfire hazards and risks and to conserve values found on forest lands. A governing body shall consider the criteria in this section together with the requirements of Section X.010 to identify the building site:

A. Dwellings and structures shall be sited on the parcel so that:

(1) They have the least impact on nearby or adjoining forest or agricultural lands;

(2) The siting ensures that adverse impacts on forest operations and accepted farming practices on the tract will be minimized;

(3) The amount of forest lands used to site access roads, service corridors, the dwelling and structures is minimized; and

(4) The risks associated with wildfire are minimized.

B. Siting criteria satisfying Subsection A may include setbacks from adjoining properties, clustering near or among existing structures, siting close to existing roads and siting on that portion of the parcel least suited for growing trees.

C. The applicant shall provide evidence to the governing body that the domestic water supply is from a source authorized in accordance with the Water Resources Department's administrative rules for the appropriation of ground water or surface water and not from a Class II stream as defined in the Forest
Practices rules (OAR chapter 629). For purposes of this section, evidence of a domestic water supply means:

(1) Verification from a water purveyor that the use described in the application will be served by the purveyor under the purveyor's rights to appropriate water;

(2) A water use permit issued by the Water Resources Department for the use described in the application; or

(3) Verification from the Water Resources Department that a water use permit is not required for the use described in the application. If the proposed water supply is from a well and is exempt from permitting requirements under ORS 537.545, the applicant shall submit the well constructor's report to the county upon completion of the well.

D. As a condition of approval, if road access to the dwelling is by a road owned and maintained by a private party or by the Oregon Department of Forestry, the U.S. Bureau of Land Management, or the U.S. Forest Service, then the applicant shall provide proof of a long-term road access use permit or agreement. The road use permit may require the applicant to agree to accept responsibility for road maintenance.

E. Approval of a dwelling shall be subject to the following requirements:

(1) Approval of a dwelling requires the owner of the tract to plant a sufficient number of trees on the tract to demonstrate that the tract is reasonably expected to meet Department of Forestry stocking requirements at the time specified in department of Forestry administrative rules;

(2) The planning department shall notify the county assessor of the above condition at the time the dwelling is approved;

(3) If the lot or parcel is more than 10 acres in western Oregon or more than 30 acres in eastern Oregon, the property owner shall submit a stocking survey report to the county assessor and the assessor will verify that the minimum stocking requirements have been met by the time required by Department of Forestry rules;

(4) Upon notification by the assessor the Department of Forestry will determine whether the tract meets minimum stocking requirements of the Forest Practices Act. If that department determines that the tract does not meet those requirements, that department will notify the owner and the assessor that the land is not being managed as forest land. The assessor will then remove the forest land designation pursuant to ORS 321.359 and impose the additional tax; and
(5) The county governing body or its designate shall require as a condition of approval of a single-family dwelling under ORS 215.213, 215.383 or 215.284 or otherwise in a farm or forest zone, that the landowner for the dwelling sign and record in the deed records for the county a document binding the landowner, and the landowner's successors in interest, prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937.

Section X.10 Fire-Siting Standards for Dwellings and Structures

The following fire-siting standards or their equivalent shall apply to all new dwelling or structures in a forest zone:

A. The dwelling shall be located upon a parcel within a fire protection district or shall be provided with residential fire protection by contract. If the dwelling is not within a fire protection district, the applicant shall provide evidence that the applicant has asked to be included within the nearest such district. If the governing body determines that inclusion within a fire protection district or contracting for residential fire protection is impracticable, the governing body may provide an alternative means for protecting the dwelling from fire hazards that shall comply with the following:

(1) The means selected may include a fire sprinkling system, onsite equipment and water storage or other methods that are reasonable, given the site conditions;

(2) If a water supply is required for fire protection, it shall be a swimming pool, pond, lake, or similar body of water that at all times contains at least 4,000 gallons or a stream that has a continuous year round flow of at least one cubic foot per second;

(3) The applicant shall provide verification from the Water Resources Department that any permits or registrations required for water diversion or storage have been obtained or that permits or registrations are not required for the use; and

(4) Road access shall be provided to within 15 feet of the water's edge for firefighting pumping units. The road access shall accommodate the turnaround of firefighting equipment during the fire season. Permanent signs shall be posted along the access route to indicate the location of the emergency water source.

B. Road access to the dwelling shall meet road design standards described in OAR 660-006-0040.

C. The owners of the dwellings and structures shall maintain a primary fuel-free break area surrounding all structures and clear and maintain a secondary fuel-free break area on land surrounding the dwelling that is owned or controlled by
the owner in accordance with the provisions in "Recommended Fire Siting Standards for Dwellings and Structures and Fire Safety Design Standards for Roads" dated March 1, 1991, and published by the Oregon Department of Forestry.

D. The dwelling shall have a fire retardant roof.

E. The dwelling shall not be sited on a slope of greater than 40 percent.

F. If the dwelling has a chimney or chimneys, each chimney shall have a spark arrester.

Section X.11 Youth Camps

A. The purpose of this section is to provide for the establishment of a youth camp that is generally self-contained and located on a parcel suitable to limit potential impacts on nearby and adjacent land and to be compatible with the forest environment.

B. Changes to or expansions of youth camps established prior to the effective date of this section shall be subject to the provisions of ORS 215.130.

C. An application for a proposed youth camp shall comply with the following:

   (1) The number of overnight camp participants that may be accommodated shall be determined by the governing body, or its designate, based on the size, topography, geographic features and any other characteristics of the proposed site for the youth camp. Except as provided by paragraph (D)(2) a youth camp shall not provide overnight accommodations for more than 350 youth camp participants, including staff.

   (2) The governing body, or its designate may allow up to eight (8) nights during the calendar year when the number of overnight participants may exceed the total number of overnight participants allowed under paragraph (C)(1).

   (3) Overnight stays for adult programs primarily for individuals over 21 years of age, not including staff, shall not exceed 10 percent of the total camper nights offered by the youth camp.

   (4) The use will not force a significant change in, or significantly increase the cost of, accepted farming or forest practices on agriculture or forest lands.

   (5) A campground as described in Subsection X.06.E shall not be established in conjunction with a youth camp.

   (6) A youth camp shall not be allowed in conjunction with an existing golf course.
(7) A youth camp shall not interfere with the exercise of legally established water rights on adjacent properties.

D. The youth camp shall be located on a lawful parcel that is:

(1) Suitable to provide a forested setting needed to ensure a primarily outdoor experience without depending upon the use or natural characteristics of adjacent and nearby public and private land. This determination shall be based on the size, topography, geographic features and any other characteristics of the proposed site for the youth camp, as well as, the number of overnight participants and type and number of proposed facilities. A youth camp shall be located on a parcel of at least [in western Oregon] 40 [or in eastern Oregon] 80 acres.

(2) Suitable to provide a protective buffer to separate the visual and audible aspects of youth camp activities from other nearby and adjacent lands. The buffers shall consist of forest vegetation, topographic or other natural features as well as structural setbacks from adjacent public and private lands, roads, and riparian areas. The structural setback from roads and adjacent public and private property shall be 250 feet unless the governing body, or its designate sets a different setback based upon the following criteria that may be applied on a case-by-case basis:

(a) The proposed setback will prevent conflicts with commercial resource management practices;

(b) The proposed setback will prevent a significant increase in safety hazards associated with vehicular traffic; and

(c) The proposed setback will provide an appropriate buffer from visual and audible aspects of youth camp activities from other nearby and adjacent resource lands.

(3) Suitable to provide for the establishment of sewage disposal facilities without requiring a sewer system as defined in OAR 660-011-0060(1)(f). Prior to granting final approval, the governing body or its designate shall verify that a proposed youth camp will not result in the need for a sewer system.

E. A youth camp may provide for the following facilities:

(1) Recreational facilities limited to passive improvements, such as open areas suitable for ball fields, volleyball courts, soccer fields, archery or shooting ranges, hiking and biking trails, horseback riding or swimming that can be provided in conjunction with the site's natural environment. Intensively developed facilities such as tennis courts, gymnasiums, and golf courses shall not be allowed. One swimming pool may be allowed if no lake or other water feature suitable for aquatic recreation is located on the subject property or immediately available for youth camp use.
(2) Primary cooking and eating facilities shall be included in a single building. Except in sleeping quarters, the governing body, or its designate, may allow secondary cooking and eating facilities in one or more buildings designed to accommodate other youth camp activities. Food services shall be limited to the operation of the youth camp and shall be provided only for youth camp participants. The sale of individual meals may be offered only to family members or guardians of youth camp participants.

(3) Bathing and laundry facilities except that they shall not be provided in the same building as sleeping quarters.

(4) Up to three camp activity buildings, not including primary cooking and eating facilities.

(5) Sleeping quarters including cabins, tents or other structures. Sleeping quarters may include toilets, but, except for the caretaker's dwelling, shall not include kitchen facilities. Sleeping quarters shall be provided only for youth camp participants and shall not be offered as overnight accommodations for persons not participating in youth camp activities or as individual rentals.

(6) Covered areas that are not fully enclosed.

(7) Administrative, maintenance and storage buildings; permanent structure for administrative services, first aid, equipment and supply storage, and for use as an infirmary if necessary or requested by the applicant.

(8) An infirmary may provide sleeping quarters for the medical care provider (e.g. Doctor, Registered Nurse, Emergency Medical Technician, etc.).

(9) A caretaker's residence may be established in conjunction with a youth camp prior to or after June 14, 2000, if no other dwelling exists on the subject property.

F. A proposed youth camp shall comply with the following fire safety requirements:

(1) The fire siting standards in Section X.10;

(2) A fire safety protection plan shall be developed for each youth camp that includes the following:

(a) Fire prevention measures;

(b) On site pre-suppression and suppression measures; and

(c) The establishment and maintenance of fire safe area(s) in which camp participants can gather in the event of a fire.
(3) Except as determined under paragraph 4, a youth camp's on-site fire suppression capability shall at least include:

(a) A 1000 gallon mobile water supply that can access all areas of the camp;

(b) A 30 gallon-per-minute water pump and an adequate amount of hose and nozzles;

(c) A sufficient number of fire-fighting hand tools; and

(d) Trained personnel capable of operating all fire suppression equipment at the camp during designated periods of fire danger.

(4) An equivalent level of fire suppression facilities may be determined by the governing body, or its designate. The equivalent capability shall be based on the Oregon Department of Forestry's (ODF) Wildfire Hazard Zone rating system, the response time of the effective wildfire suppression agencies, and consultation with ODF personnel if the camp is within an area protected by ODF and not served by a local structural fire protection provider.

(5) The provisions of paragraph F(4) may be waived by the governing body, or its designate, if the youth camp is located in an area served by a structural fire protection provider and that provider informs the governing body in writing that on-site fire suppression at the camp is not needed.

G. The governing body, or its designate, shall require as a condition of approval of a youth camp, that the land owner of the youth camp sign and record in the deed records for the county a document binding the land owner, or operator of the youth camp if different from the owner, and the land owner's or operator's successors in interest, prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937.

NOTE: Nothing in this section relieves governing bodies from complying with other requirements contained in the comprehensive plan or implementing land use regulations such as the requirements addressing other resource values (e.g. Goal 5) that exist on forest lands.

The provisions of this section shall apply directly to any land use decision pursuant to ORS 197.646 and 215.427(3) commencing October 12, 2000. A county may adopt provisions in its comprehensive plan or land use regulations that establish standards and criteria in addition to those set forth in this section, or to ensure compliance with any standards or criteria.

Section X.12 Land Divisions

A. The minimum parcel size for new forest parcels is 80 (eighty) acres.
B. New land divisions less than the parcel size in Subsection A may be approved for any of the following circumstances:

(1) For the uses listed in Subsections X.03.O and P, X.04.A and X.06.A, F, G, J, N, P through W, Y and Z provided that such uses have been approved pursuant to section X.08 and the parcel created from the division is the minimum size necessary for the use.

(2) For the establishment of a parcel for a dwelling that has existed since before June 1, 1995, subject to the following requirements:

(a) The parcel established may not be larger than five acres, except as necessary to recognize physical factors such as roads or streams, in which case the parcel shall not be larger than 10 acres; and

(b) The parcel that does not contain the dwelling is not entitled to a dwelling unless subsequently authorized by law or goal and the parcel either:

(i) Meets the minimum land division standards of the zone; or

(ii) Is consolidated with another parcel, and together the parcels meet the minimum land division standards of the zone.

(3) To allow a division of forest land to facilitate a forest practice as defined in ORS 527.620 that results in a parcel that does not meet the minimum area requirements of Subsection A. Approvals shall be based on findings that demonstrate that there are unique property specific characteristics present in the proposed parcel that require an amount of land smaller than the minimum area requirements of Subsection A in order to conduct the forest practice. Parcels created pursuant to this paragraph:

(a) Are not eligible for siting of a new dwelling;

(b) May not serve as the justification for the siting of a future dwelling on other lots or parcels;

(c) May not, as a result of the land division, be used to justify redesignation or rezoning of resource lands; and

(d) May not result in a parcel of less than 35 acres, unless the purpose of the land division is to:

(i) Facilitate an exchange of lands involving a governmental agency; or

(ii) Allow transactions in which at least one participant is a person with a cumulative ownership of at least 2,000 acres of forest land.

(4) To allow a division of a lot or parcel zoned for forest use if:
(a) At least two dwellings lawfully existed on the lot or parcel prior to November 4, 1993;

(b) Each dwelling complies with the criteria for a replacement dwelling under paragraph X.05.A(1);

(c) Except for one parcel, each parcel created under this paragraph is between two and five acres in size;

(d) At least one dwelling is located on each parcel created under this paragraph; and

(e) The landowner of a parcel created under this paragraph provides evidence that a restriction prohibiting the landowner and the landowner’s successors in interest from further dividing the parcel has been recorded with the county clerk of the county in which the parcel is located. A restriction imposed under this paragraph shall be irrevocable unless a statement of release is signed by the county planning director of the county in which the parcel is located indicating that the comprehensive plan or land use regulations applicable to the parcel have been changed so that the parcel is no longer subject to statewide planning goals protecting forestland or unless the land division is subsequently authorized by law or by a change in a statewide planning goal for land zoned for forest use.

(5) To allow a proposed division of land as provided in ORS 215.783.

Note: A county shall maintain a record of lots and parcels that do not qualify for division under the restrictions imposed by Subsections B(4) and D. The record shall be available to the public.

C. A lot or parcel may not be divided under paragraph (B)(4) if an existing dwelling on the lot or parcel was approved under a statute, an administrative rule or a land use regulation as defined in ORS 197.015 that required removal of the dwelling or that prohibited subsequent division of the lot or parcel; or

D. (1) An applicant for the creation of a parcel pursuant to paragraph (B)(2) shall provide evidence that a restriction on the remaining parcel, not containing the dwelling, has been recorded with the county clerk of the county where the property is located. The restriction shall allow no dwellings unless authorized by law or goal on land zoned for forest use except as permitted under Subsection B.

(2) A restriction imposed under this subsection shall be irrevocable unless a statement of release is signed by the county planning director of the county where the property is located indicating that the comprehensive plan or land use regulations applicable to the property have been changed in such a
manner that the parcel is no longer subject to statewide planning goals pertaining to agricultural land or forest land.

Note: A county shall maintain a record of parcels that do not qualify for the siting of a new dwelling under restrictions imposed by this section. The record shall be readily available to the public.

E. A landowner allowed a land division under Subsection B shall sign a statement that shall be recorded with the county clerk of the county in which the property is located, declaring that the landowner will not in the future complain about accepted farming or forest practices on nearby lands devoted to farm or forest use.

Section X... Use Table [Note: Alternative to use lists]

Table 1 identifies the uses permitted in the EFU zone.

A. As used in Table 1:
(1) “A” means the use is allowed.
(2) “STS” means the use is permitted subject to standards. [This may be refined depending on a county’s review procedures.]
(3) “C” means the use is a Conditional Use, subject to Section X.08 and other listed criteria.
(4) The “Subject To” column identifies any specific provisions of Section X.07 to which the use is subject.
(5) “N” means the use is not allowed.
(6) “Permitted uses and activities and their accessory buildings and uses are permitted subject to the general provisions set forth by this ordinance.
