SUBJECT: 2015-2017 Technical Assistance Grants

The Department of Land Conservation and Development is pleased to offer grant awards for land use planning projects in Oregon communities during the 2015–2017 biennium. If your community or organization is considering a planning project that is eligible for Technical Assistance grant funding, please complete and submit an application. For forms and instructions, please visit <http://www.oregon.gov/LCD/grants.shtml>. If you have trouble accessing the materials on the Web, please contact Larry French, Grants Administrative Specialist, at 503-934-0054 or DLCD.GFGrant@state.or.us.

Please contact the DLCD regional representative for your region or community for guidance prior to submitting the application. You can find a current list of regional representatives at <http://www.oregon.gov/LCD/repstlist.shtml>.

Technical assistance grant applications are due no later than September 30, 2015. The grant awards for the \$500,000 fund are determined through a competitive process based on program priorities contained in the Grants Allocation Plan approved by the Land Conservation and Development Commission and evaluation criteria explained in the application packet.

Please note a new application requirement: Technical Assistance grant applications must include a resolution or letter of support from the governing body of the jurisdiction that will benefit from the grant. Applications without this indication of support will not be complete.

This memo addresses Technical Assistance grants only. Other grants from the department's general fund (*e.g.*, Periodic Review, Planning Assistance, and Columbia River Gorge grants) are offered separately.
