

ORS 197.352 (BALLOT MEASURE 37) CLAIM FOR COMPENSATION
OREGON DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT
Draft Staff Report and Recommendation

July 18, 2006

STATE CLAIM NUMBER: M122454

NAME OF CLAIMANT: Kenneth Van Raden

MAILING ADDRESS: PO Box 504
Gleneden Beach, Oregon 97388

PROPERTY IDENTIFICATION: Township 01N, Range 02S, Section 17
Tax lot 504
Washington County

DATE RECEIVED BY DAS: September 23, 2005

180-DAY DEADLINE: August 8, 2006¹

I. SUMMARY OF CLAIM

The claimant, Kenneth Van Raden, seeks compensation in the amount of \$6,720,000 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimant desires compensation or the right to divide the 31.81-acre property into 32 approximately 1-acre parcels and to develop a dwelling on each parcel. The subject property is located on the south side of NW Meek Road approximately 2,250 feet south of the intersection with NW Jackson School Road in Washington County. (See claim.)

II. SUMMARY OF STAFF RECOMMENDATION

Based on the preliminary findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to Kenneth Van Raden's division of the 31.81-acre property into 32 approximately 1-acre parcels and to his development of a dwelling on each parcel: applicable provisions of Statewide Planning Goals 3 (Agricultural Lands) and 14 (Urbanization), ORS 215 and Oregon Administrative Rules (OAR) 660, division 33. These laws will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use

¹ This date reflects 180 days from the date the claim was submitted, as extended by the 139 days that all timelines under Measure 37 were suspended during the pendency of *MacPherson v. Dept. of Admin. Svcs.*, 340 Or 117 (2006).

described in this report, and only to the extent that use was permitted when he acquired the property on June 30, 1971. (See the complete recommendation in Section VI. of this report.)

III. COMMENTS ON THE CLAIM

Comments Received

On October 10, 2005, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, two written comments were received in response to the 10-day notice.

The comments do not address whether the claim meets the criteria for relief under ORS 197.352. Comments concerning the effects a use of the subject property may have on surrounding areas are generally not something that the department is able to consider in determining whether to waive a state law. If funds do become available to pay compensation, then such effects may become relevant in determining which claims to pay compensation for instead of waive a state law. (See the comment letters in the department's claim file.)

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

This claim was submitted to DAS on September 23, 2005, for processing under OAR 125, division 145. The claim identifies provisions of ORS 215 and OAR 660 as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

The claimant, Kenneth Van Raden, acquired the subject property on June 30, 1971, as reflected by a warranty deed included with the claim. A 2004–05 tax statement submitted with the claim establishes the claimant’s current ownership of the subject property.

Conclusions

The claimant, Kenneth Van Raden, is an “owner” of the subject property as that term is defined by ORS 197.352(11)(C), as of June 30, 1971.

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimant’s use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimant or a family member acquired the property.

Findings of Fact

The claim indicates that the claimant desires to divide the 31.81-acre subject property into 32 approximately 1-acre parcels and to develop a dwelling on each parcel. It indicates the desired use is not allowed under current land use regulations.

The claim is based generally on Washington County’s current Exclusive Farm Use (EFU) zone and the applicable provisions of state law that require such zoning. The claimant’s property is zoned EFU as required by Goal 3, in accordance with ORS 215 and OAR 660, division 33, because the claimant’s property is “agricultural land” as defined by Goal 3.² Goal 3 became effective on January 25, 1975, and required that agricultural lands as defined by the Goal be zoned EFU pursuant to ORS 215.

Current land use regulations, particularly ORS 215.213, 215.263 and 215.780 and OAR 660, division 33, enacted or adopted pursuant to Goal 3, prohibit the division of EFU-zoned land in marginal lands counties into parcels less than 80 acres and establish standards for development of dwellings on existing or proposed parcels on that land.

² The claimant’s property is “agricultural land” because it contains Natural Resources Conservation Service Class I-IV soils.

ORS 215.780 establishes an 80-acre minimum size for the creation of new lots or parcels in EFU zones and became effective on November 4, 1993 (Chapter 792, Oregon Laws 1993). ORS 215.263 (2005 edition) establishes standards for the creation of new parcels for non-farm uses and dwellings allowed in an EFU zone.

OAR 660-033-0135 (applicable to farm dwellings) became effective on March 1, 1994, and interprets the statutory standard for a primary dwelling in an EFU zone in a marginal lands county under ORS 215.213. OAR 660-033-0130(4)(e) (applicable to non-farm dwellings in marginal lands counties) became effective on August 7, 1993. The Commission subsequently adopted amendments to comply with House Bill 3326 (Chapter 704, Oregon Laws 2001, effective on January 1, 2002), which were effective on May 22, 2002. (See administrative rule history for OAR 660-033-0100, -0130 and -0135.)

Goal 14, which also became effective on January 25, 1975, would likely apply to the division of the claimant's property into parcels of less than two acres in size. Goal 14 generally requires that land outside of urban growth boundaries be used for rural uses.

The claimant acquired the subject property on June 30, 1971, prior to the adoption of the statewide planning goals and their implementing statutes and regulations. At the time the claimant acquired the subject property, it was zoned Agriculture District F-1, which did not establish a minimum lot size but allowed single-family dwellings in conjunction with farm use.

Conclusions

The current zoning requirements, minimum lot size and dwelling standards established by applicable provisions of Goals 3 and 14, ORS 215 and OAR 660, division 33, were all enacted or adopted after the claimant acquired the subject property in 1971 and do not allow the desired division or residential development of the property. These laws restrict the use of the subject property relative to the uses allowed when the claimant acquired the property.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimant has identified. There may be other laws that currently apply to the claimant's use of the subject property, and that may continue to apply to the claimant's use of the property, that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of subject property until there is a specific proposal for that use. When the claimant seeks a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have "the effect of reducing the fair market value of the property, or any interest therein."

Findings of Fact

The claim includes an estimate of \$6,720,000 as the reduction in the subject property's fair market value due to the regulations that restrict the claimant's desired use of the property. This amount is based on sales of similar properties in the area.

Conclusions

As explained in Section V.(1) of this report, the claimant is Kenneth Van Raden who acquired the subject property on June 30, 1971. Under ORS 197.352, the claimant is due compensation for land use regulations that restrict the use of the subject property and have the effect of reducing its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since the claimant acquired the subject property restrict the claimant's desired use of the property. The claimant estimates that the effect of the regulations on the fair market value of the subject property is a reduction of \$6,720,000.

Without an appraisal or other documentation, it is not possible to substantiate the specific dollar amount by which the land use regulations have reduced the subject property's fair market value. Nevertheless, based on the evidence in the record for this claim, the department determines that the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

Findings of Fact

The claim is based on state land use regulations that restrict the use of the subject property, including applicable provisions of Goals 3 and 14, ORS 215 and OAR 660, division 33, which Washington County has implemented through its current EFU zone. All of these land use regulations were enacted or adopted after the claimant acquired the subject property.

Conclusions

Without a specific development proposal for the subject property, it is not possible for the department to determine all the laws that may apply to a particular use of the property, or whether those laws may fall under one or more of the exemptions under ORS 197.352. It appears that none of the general statutory, goal and rule restrictions on division and development of the claimant's property were in effect when the claimant acquired it in 1971. As a result, these laws are not exempt under ORS 197.352(3)(E).

Laws in effect when the claimant acquired the subject property are exempt under ORS 197.352(3)(E) and will continue to apply to the claimant's use of the property. There may be other laws that continue to apply to the claimant's use of the subject property that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of subject property until there is a specific proposal for that use. When the claimant seeks a

building or development permit to carry out a specific use, it may become evident that other state laws apply to that use. In some cases, some of these laws may be exempt under ORS 197.352(3)(A) to (D).

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimant has identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable, given the information provided to the department in the claim. The claimant should be aware that the less information he has provided to the department in the claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to his use of the subject property.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced laws that restrict the use of the subject property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the subject property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the Director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimant's desired use of the subject property. The claim asserts that existing state land use regulations enforced by the Commission or the department have the effect of reducing the fair market value of the subject property by \$6,720,000. However, because the claim does not provide an appraisal or other relevant evidence demonstrating that the land use regulations described in Section V.(2) reduce the fair market value of the subject property, a specific amount of compensation cannot be determined. In order to determine a specific amount of compensation due for this claim, it would also be necessary to verify whether or the extent to which the claimant's desired use of the property was allowed under the standards in effect when he acquired the property. Nevertheless, based on the record for this claim, the department has determined that the laws on which the claim is based have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow Kenneth Van Raden to use the subject property for a use permitted at the time he acquired the property on June 30, 1971.

Conclusions

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Kenneth Van Raden's division of the 31.81-acre property into 32 approximately 1-acre parcels or to his development of a dwelling on each parcel: applicable provisions of Goals 3 and 14, ORS 215 and OAR 660, division 33. These land use regulations will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on June 30, 1971.
2. The action by the State of Oregon provides the state's authorization to the claimant to use the subject property for the use described in this report, subject to the standards in effect on June 30, 1971. On that date, the property was subject to Washington County's F-1 farm zone.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimant first obtains that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.
4. Any use of the subject property by the claimant under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).
5. Without limiting the generality of the foregoing terms and conditions, in order for the claimant to use the subject property, it may be necessary for him to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimant from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimant.

VII. NOTICE OF OPPORTUNITY TO COMMENT

This staff report is not a final decision by the department and does not authorize any use of the property that is the subject of this report. OAR 125-145-0100 provides an opportunity for the claimant or the claimant's authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation. Such response must be filed no more than 10 calendar days after the date this report is mailed to the claimant and any third parties. Responses to this draft staff report and recommendation will be considered only as comments related to the claim

described in this report. All responses must be delivered to the Oregon Department of Administrative Services (DAS), Measure 37 Unit, Risk Management–State Services Division, 1225 Ferry Street SE, U160, Salem, Oregon 97301-4292 and will be deemed timely filed if either postmarked on the tenth day, or actually delivered to DAS by the close of business on the tenth day. Note: Please reference the claim number, claimant name and clearly mark your comments as “Draft Staff Report comments.” Comments must be submitted in writing only. Those comments submitted electronically or by facsimile will not be accepted.
