

**ORS 197.352 (BALLOT MEASURE 37) CLAIM FOR COMPENSATION**  
**OREGON DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT**  
**Draft Staff Report and Recommendation**

July 24, 2006

**STATE CLAIM NUMBER:** M122528

**NAMES OF CLAIMANTS:** Bob and Caltha Combs

**MAILING ADDRESS:** 9992 Saratoga Drive NE  
Salem, Oregon 97305

**PROPERTY IDENTIFICATION:** Township 6S, Range 1W, Section 18  
Tax lot 1400  
Marion County

**DATE RECEIVED BY DAS:** September 29, 2005

**180-DAY DEADLINE:** August 14, 2006<sup>1</sup>

**I. SUMMARY OF CLAIM**

The claimants, Bob and Caltha Combs, seek compensation in the amount of \$272,886 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimants desire compensation or the right to divide the 48.2-acre property into one 41.2-acre parcel and one 7-acre parcel and to develop a dwelling on the 7-acre parcel. The subject property is located at 9992 Saratoga Drive NE, near Salem, in Marion County. (See claim.)

**II. SUMMARY OF STAFF RECOMMENDATION**

Based on the preliminary findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to Bob and Caltha Combs' division of the 48.2-acre property into one 41.2-acre parcel and one 7-acre parcel to develop a dwelling on a dwelling on the 7-acre parcel: applicable provisions of Statewide Planning Goal 3 (Agricultural Lands), ORS 215 and Oregon Administrative Rules (OAR) 660, division 33. These laws will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use

---

<sup>1</sup> This date reflects 180 days from the date the claim was submitted, as extended by the 139 days that all timelines under Measure 37 were suspended during the pendency of *MacPherson v. Dept. of Admin. Svcs.*, 340 Or 117 (2006).

described in this report, and only to the extent that use was permitted when they acquired the property on March 29, 1962. (See the complete recommendation in Section VI of this report.)

### **III. COMMENTS ON THE CLAIM**

#### **Comments Received**

On October 11, 2005, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, two written comments were received in response to the 10-day notice.

One of the comments does not address whether the claim meets the criteria for relief under ORS 197.352. Comments concerning the effects a use of the subject property may have on surrounding areas are generally not something that the department is able to consider in determining whether to waive a state law. If funds do become available to pay compensation, then such effects may become relevant in determining which claims to pay compensation for instead of waive a state law.

The second comment is relevant to whether the restriction of the claimants' use of the subject property reduces the fair market value of the property and whether a state agency may waive state law. The comment has been considered by the department in preparing this report. (See the comment letters in the department's claim file.)

### **IV. TIMELINESS OF CLAIM**

#### **Requirement**

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

#### **Findings of Fact**

This claim was submitted to DAS on September 29, 2005, for processing under OAR 125, division 145. The claim identifies the property's Exclusive Farm Use (EFU) zoning as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

## **Conclusions**

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

## **V. ANALYSIS OF CLAIM**

### **1. Ownership**

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

### **Findings of Fact**

The claimants, Bob and Caltha Combs, acquired the subject property on March 29, 1962, as reflected in a September 7, 2005, title report included with the claim. On April 5, 1970, Bob and Caltha Combs transferred the subject property to a revocable trust with themselves as the trustors and the Western Oregon Conference Association of Seventh-day Adventists as trustees. On July 17, 1974, the trust transferred the subject property back to the claimants. On October 30, 2002, the claimants transferred the subject property to the Combs Living Trust with Bob and Caltha Combs as trustees (deed recorded on November 5, 2002).<sup>2</sup> The September 7, 2005, title report submitted with the claim establishes the claimants’ current ownership of the subject property.

### **Conclusions**

The claimants, Bob and Caltha Combs, are “owners” of the subject property as that term is defined by ORS 197.352(11)(C), as of March 29, 1962.

### **2. The Laws That are the Basis for This Claim**

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimants’ use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimants or a family member acquired the property.

### **Findings of Fact**

The claim indicates that the current EFU zoning does not allow the claimants to divide their 48.2-acre property into one 41.2-acre parcel and one 7-acre parcel and to develop a dwelling on the 7-acre parcel.

---

<sup>2</sup> Transfers of property to and from a revocable trust do not result in a change in ownership for the purposes of ORS 197.352.

The claim is based generally on Marion County's current EFU zone and the applicable provisions of state law that require such zoning. The claimants' property is zoned EFU as required by Goal 3, in accordance with ORS 215 and OAR 660, division 33, because the claimants' property is "agricultural land" as defined by Goal 3.<sup>3</sup> Goal 3 became effective on January 25, 1975, and required that agricultural lands as defined by the Goal be zoned EFU pursuant to ORS 215.

Current land use regulations, particularly ORS 215.263, 215.284 and 215.780 and OAR 660, division 33, enacted or adopted pursuant to Goal 3, prohibit the division of EFU-zoned land into parcels less than 80 acres and establish standards for development of dwellings on existing or proposed parcels on that land.

ORS 215.780 establishes an 80-acre minimum size for the creation of new lots or parcels in EFU zones and became effective on November 4, 1993 (Chapter 792, Oregon Laws 1993). ORS 215.263 (2005 edition) establishes standards for the creation of new parcels for non-farm uses and dwellings allowed in an EFU zone.

OAR 660-033-0135 (applicable to farm dwellings) became effective on March 1, 1994, and interprets the statutory standard for a primary dwelling in an EFU zone under ORS 215.283(1)(f). OAR 660-033-0130(4) (applicable to non-farm dwellings) became effective on August 7, 1993, and was amended to comply with ORS 215.284(4) on March 1, 1994. The Commission subsequently adopted amendments to comply with House Bill 3326 (Chapter 704, Oregon Laws 2001, effective on January 1, 2002), which were effective on May 22, 2002. (See administrative rule history for OAR 660-033-0100, -0130 and -0135.)

The claimants acquired the subject property on March 29, 1962, prior to the adoption of the statewide planning goals and their implementing statutes and regulations.

### **Conclusions**

The current zoning requirements, minimum lot size and dwelling standards established by applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, were all enacted or adopted after the claimants acquired the subject property in 1962 and do not allow the desired division or residential development of the property. These laws restrict the use of the subject property relative to the uses allowed when the claimants acquired the property.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the use that the claimants have identified. There may be other laws that currently apply to the claimants' use of the subject property, and that may continue to apply to the claimants' use of the property, that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of subject property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use.

---

<sup>3</sup> The claimants' property is "agricultural land" because it contains Natural Resources Conservation Service Class I-IV soils.

### **3. Effect of Regulations on Fair Market Value**

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have “the effect of reducing the fair market value of the property, or any interest therein.”

#### **Findings of Fact**

The claim includes an estimate of \$272,886 as the reduction in the subject property’s fair market value due to the regulations. This amount is based on an evaluation of tax statements and area land sales, prepared for the claimants by a realtor, that compares the current value of the subject property to what it may be worth if it could be developed as the claimants desire.

#### **Conclusions**

As explained in Section V.(1) of this report, the claimants are Bob and Caltha Combs who acquired the subject property on March 29, 1962. Under ORS 197.352, the claimants are due compensation for land use regulations that restrict the use of the property and have the effect of reducing its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since the claimants acquired the subject property restrict the claimants’ desired use of the property. The claimants estimate that the effect of the regulations on the fair market value of the subject property is a reduction of \$272,886.

Without an appraisal or other documentation, it is not possible to substantiate the specific dollar amount by which the land use regulations have reduced the fair market value of the subject property. Nevertheless, based on the evidence in the record for this claim, the department determines that the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department.

### **4. Exemptions Under ORS 197.352(3)**

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

#### **Findings of Fact**

The claim is based on state land use regulations that restrict the use of the subject property, including applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, which Marion County has implemented through its current EFU zone. All of these land use regulations were enacted or adopted after the claimants acquired the subject property.

#### **Conclusions**

Without a specific development proposal for the subject property, it is not possible for the department to determine all the laws that may apply to a particular use of the property, or whether those laws may fall under one or more of the exemptions under ORS 197.352. It appears that none of the general statutory, goal and rule restrictions on division and development

of the claimants' property were in effect when the claimants acquired it in 1962. As a result, these laws are not exempt under ORS 197.352(3)(E).

Laws in effect when the claimants acquired the subject property are exempt under ORS 197.352(3)(E) and will continue to apply to the claimants' use of the property. There may be other laws that continue to apply to the claimants' use of the subject property that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of subject property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use. In some cases, some of these laws may be exempt under ORS 197.352(3)(A) to (D).

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the use that the claimants have identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable, given the information provided to the department in the claim. The claimants should be aware that the less information they have provided to the department in the claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to their use of the subject property.

## VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced laws that restrict the use of the subject property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the subject property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

### **Findings of Fact**

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimants' desired use of the subject property. The claim asserts that the laws enforced by the Commission or the department reduce the fair market value of the subject property by \$272,886. However, because the claim does not provide an appraisal or other relevant evidence demonstrating that the land use regulations described in Section V.(2) reduce the fair market value of the subject property, a specific amount of compensation cannot be determined. In order to determine a specific amount of compensation due for this claim, it would also be necessary to verify whether or the extent to which the claimants' desired use of the property was allowed under the standards in effect when they acquired the property. Nevertheless, based on the record for this claim, the department has determined that the laws on which the claim is based have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or

parts of certain land use regulations to allow Bob and Caltha Combs to use the subject property for a use permitted at the time they acquired the property on March 29, 1962.

### **Conclusions**

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Bob and Caltha Combs' division of the 48.2-acre property into one 41.2-acre parcel and one 7-acre parcel and to develop a dwelling on the 7-acre parcel: applicable provisions of Goal 3, ORS 215 and OAR 660, division 33. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when they acquired the property on March 29, 1962.
2. The action by the State of Oregon provides the state's authorization to the claimants to use the subject property for the use described in this report, subject to the standards in effect on March 29, 1962.
3. To the extent that any law, order, deed, agreement, or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license, or other form of authorization or consent, the order will not authorize the use of the property unless the claimants first obtain that permit, license, or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit; a land use decision; a "permit" as defined in ORS 215.402 or 227.160; other permits or authorizations from local, state or federal agencies; and restrictions on the use of the subject property imposed by private parties.
4. Any use of the subject property by the claimants under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).
5. Without limiting the generality of the foregoing terms and conditions, in order for the claimants to use the subject property, it may be necessary for them to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimants from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimants.

### **VII. NOTICE OF OPPORTUNITY TO COMMENT**

This staff report is not a final decision by the department and does not authorize any use of the property that is the subject of this report. OAR 125-145-0100 provides an opportunity for the claimants or the claimants' authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to

the draft staff report and recommendation. Such response must be filed no more than 10 calendar days after the date this report is mailed to the claimants and any third parties. Responses to this draft staff report and recommendation will be considered only as comments related to the claim described in this report. All responses must be delivered to the Oregon Department of Administrative Services (DAS), Measure 37 Unit, Risk Management–State Services Division, 1225 Ferry Street SE, U160, Salem, Oregon 97301-4292 and will be deemed timely filed if either postmarked on the tenth day, or actually delivered to DAS by the close of business on the tenth day. Note: Please reference the claim number, claimant name and clearly mark your comments as “Draft Staff Report comments.” Comments must be submitted in writing only. Those comments submitted electronically or by facsimile will not be accepted.
