As a result, a period of 139 days (the number of days the time lines were suspended) has been added to the 180-day time period under ORS 197.352(6) for claims that were pending with the state on October 25, 2005.

**ORS 197.352 (BALLOT MEASURE 37) CLAIM FOR COMPENSATION**

**OREGON DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT  
Final Staff Report and Recommendation<sup>1</sup>**

June 16, 2006

**STATE CLAIM NUMBER:** M121770

**NAMES OF CLAIMANTS:** Rod and Alice Rush

**MAILING ADDRESS:** PO Box 268  
Brookings, Oregon 97415

**PROPERTY IDENTIFICATION:** Township 40S, Range 13W, Section 34  
Tax lot 200  
Curry County

**DATE RECEIVED BY DAS:** August 8, 2005

**180-DAY DEADLINE:** June 23, 2006<sup>2</sup>

**I. SUMMARY OF CLAIM**

The claimants, Rod and Alice Rush, seek compensation in the amount of \$1 million for the reduction in fair market value as a result of certain land use regulations that are alleged to restrict the use of certain private real property. The claimants desire compensation or the right to divide the 32.89-acre property into 1-acre parcels and to develop a dwelling on each parcel. The property is located at 16897 Yellow Brick Road, near Brookings, in Curry County. (See claim.)

**II. SUMMARY OF STAFF RECOMMENDATION**

Based on the preliminary findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is not valid because neither the Land Conservation and Development Commission (the Commission) nor the department has enforced laws that restrict the claimants' use of the private real property. (See the complete recommendation in Section VI. of this report.)

---

<sup>1</sup> The recommendation in this report is a revision from the draft report in order to account for new information regarding the land use regulations that currently apply to the subject property.

<sup>2</sup> This date reflects 180 days from the date the claim was submitted, as extended by the 139 days that all timelines under Measure 37 were suspended during the pendency of *MacPherson v. Dept. of Admin. Svcs.*, 340 Or 117 (2006).

### **III. COMMENTS ON THE CLAIM**

#### **Comments Received**

On September 28, 2005, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, seven written comments, evidence or information were received in response to the 10-day notice.

The comments do not address whether the claim meets the criteria for relief under ORS 197.352. Comments concerning the effects a use of the subject property may have on surrounding areas are generally not something that the department is able to consider in determining whether to waive a state law. If funds do become available to pay compensation, then such effects may become relevant in determining which claims to pay compensation for instead of waive a state law. (See the comment letters in the department's claim file.)

### **IV. TIMELINESS OF CLAIM**

#### **Requirement**

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

#### **Findings of Fact**

This claim was submitted to DAS on August 8, 2005, for processing under OAR 125, division 145. The claim identifies the Curry County comprehensive plan and zoning ordinance as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

#### **Conclusions**

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

## V. ANALYSIS OF CLAIM

### **1. Ownership**

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

### **Findings of Fact**

The claimants, Rod and Alice Rush, acquired the subject property on April 27, 1971, as reflected by a contract of sale included with the claim. The Curry County Assessor’s Office confirms the claimants’ current ownership of the subject property.

### **Conclusions**

The claimants, Rod and Alice Rush, are “owners” of the subject property as that term is defined by ORS 197.352(11)(C), as of April 27, 1971.

### **2. The Laws That are the Basis for This Claim**

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimants’ use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimants or a family member acquired the property.

### **Findings of Fact**

The claim indicates that the claimants desire to divide the 32.89-acre parcel into 1-acre parcels and develop a dwelling on each parcel, and current county zoning prevents that desired use.

The claim is based generally on Curry County’s current Forest Grazing zone and the applicable provisions of state law that require such zoning. The subject property is within the City of Brooking’s Urban Growth Boundary (UGB).

In general, the zoning of a particular property within a UGB is determined by the city or county with land use jurisdiction over the property. In some circumstances, the Commission’s rules or state statutes may apply to a local government decision regarding zoning, but usually, within a UGB, state laws require or encourage a higher intensity of development rather than restrict the use of real property. In this case, the claimants have not alleged how a specific state land use regulation restricts the use of real property and has the effect of reducing the fair market value of that real property.

Based on the information in the claim, the department has not identified any state laws that restrict the claimants’ use of the subject property.

## **Conclusions**

The claim does not establish any state laws that currently restrict the use of the claimants' property. Because the subject property is located within the City of Brooking's UGB, neither the Commission nor the department enforces laws that require specific zoning of the property. Based on the record before the department, neither the Commission nor the department enforce any laws that restrict the use of the claimants' real property.

### **3. Effect of Regulations on Fair Market Value**

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have "the effect of reducing the fair market value of the property, or any interest therein."

As explained in Section V.(2) of this report, the claimants, Rod and Alice Rush, have not established that any state laws restrict the use of the subject property. Accordingly, the department cannot determine that any laws enforced by the Commission or the department have had the effect of reducing the fair market value of the subject property.

### **4. Exemptions Under ORS 197.352(3)**

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

As explained in Section V.(2) of this report, the claimants, Rod and Alice Rush, have not established that any state laws restrict the use of the subject property. Accordingly, the department cannot determine that any exemptions under ORS 197.352(3) apply to this claim.

## **VI. FORM OF RELIEF**

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the Director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

### **Findings of Fact**

Based on the record for this claim, the claimants have not established that any state laws enforced by the Commission or the department restrict the use of the subject property, and have the effect of reducing the fair market value of the subject property. Because the subject property is located within the City of Brooking's UGB, neither the Commission nor the department enforces laws that require specific zoning of the property.

## **Conclusions**

Based on the record before the department, the claimants, Rod and Alice Rush, have not established that they are entitled to relief under ORS 197.352(1), as a result of land use regulations enforced by the Commission or the department. Therefore, the department recommends that this claim be denied.

## **VII. COMMENTS ON THE DRAFT STAFF REPORT**

The department issued its draft staff report on this claim on May 30, 2006. OAR 125-145-0100(3), provided an opportunity for the claimant or the claimant's authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation. Comments received have been taken into account by the department in the issuance of this final report.
