**Subject:** Proposed plans to modify existing Goal 5

Oregon Department of Land Conservation and Development Commission  
RE: Proposed amendment for Goal 5  
July 20, 2016

I am a proponent for the National Registry Listing of the Pilot Butte Canal Historic District and very concerned with what is being proposed by the Oregon Department of Land Conservation and Development.

The current Goal 5 was passed into law and put in place by respected individuals to protect any National Registered entity at the local level. I believe that ODLCD is attempting to

circumvent the existing Goal 5 with language that will allow the protection of any registered land mark to be unprotected based on the desires of organizations who have other plans for that particular land mark.

This is not progress it is out right criminal.

Please take a step back and look at how your plans, if implemented will be perceived by other organizations and financial institutions. It is your responsibility to respect and protect the laws put into place by previous law makers. Changing existing laws in order to benefit groups/organizations that have other intentions for properties listed on the National Registry should not be an undertaking that you pursue.

Regards,

Rob Rector
