

TA	PR	JURISDICTION	GRANT TYPE	PROJECT TITLE	ABSTRACT	DATE OF APPLICATION	AMOUNT REQUESTED	LOCAL MATCH	AWARD AMOUNT	RANK	STATUS	TOTAL APPS
1		Adams	TA	Update Comprehensive Plan	The project would entail redoing the 2003 Comprehensive Plan with some omitted information from the 1994 version, updating goals/objectives, and providing some additional background information on the City of Adams. This would be the first phase in developing a broader spectrum comprehensive plan.	8/31/2001	\$1,500	\$1,000				1
1		Amity	TA	Amity Employment Lands and Economic Analysis	The City of Amity proposes to evaluate its employment lands and conduct an economic analysis so as to comply with Oregon Goals and Guidelines. This will include an analysis and update of the City's Development Code.	8/31/2011	\$9,500.00	\$2,500.00			Held for Info	1
1		Ashland	TA	Unified Land Use Ordinance with Streamlined Permitting Process and Green Code Updates	Update the Ashland Land Use Ordinance to make the document more user-friendly by combining various separate documents, and improving the code's construction, organization, format and graphics. Additionally, review and update the land use approval process to streamline the permitting process to address concerns regarding timing and predictability, and potential impacts specifically related to economic development projects. Finally, update code to include provisions to facilitate sustainable or green development measures (e.g. cisterns, extended eaves, rain gardens).	9/1/2011	\$60,350	\$20,700			Held for Info	1
1		Bend-Central	TA	Bend Central – Comprehensive Plan, Zoning and Map Amendments	Recommend amendments to the Bend Area General Plan, Plan map, the Bend Development Code and zoning map to enable the adoption of a portion of the Central Area Plan, referred to as Bend Central. The draft text amendments will be based on the work completed for the Central Area Plan and its vision for Bend Central as a new mixed use, east side downtown neighborhood connecting area residents and other users to the Third Street corridor and the Historic Downtown. The district will have a diversity of housing, moderate scale employment and retail uses balanced with unique greenspace features and civic areas.	8/30/2011	\$40,000	\$22,500				1
1		Bend-PFP	TA	Bend Central - Public Facilities Planning	Public Facilities analysis and planning are critical to the implementation of the Central Area Plan (CAP). This proposed project is a focused refinement of the 2011 sewer and water public facility plans to analyze the adequacy of these critical services specifically to accommodate the intensive land uses proposed by the CAP. The project will recommend modifications to the 2011 Public Facilities Master Plan if inadequate capacities are identified. The final Technical Assistance Grant products will also include Goal 11 findings in support of the Central Area Plan.	8/30/2011	\$85,000	\$5,200				1
1		Bend-Trans	TA	Bend Central - Transportation Strategy	The goal of this project is to reinvent Third Street possibly including a couplet system that will include public transit stops within an inviting and vibrant pedestrian environment. In addition, the project will result in recommended infrastructure improvements, amendments to the City's TSP and TPR findings that support the purpose and objective of the Central Area Plan Transportation Element to create a sustainable multi-modal transportation strategy for the CAP and surrounding transportation system and land use patterns.	08/30/2011	\$150,000	\$13,000				1
	1	BentonCo	PR	Rural Unincorporated Community Plans for Alpine, Bellfountain, and Greenberry	In accordance with Goal 14, prepare rural unincorporated community plans for the Benton County communities of Alpine, Bellfountain, and Greenberry. The community of Alpine in particular, with its historic commercial downtown that currently contains NO commercial zoning (except a recent 1-parcel zone change), has been requesting for several years that we re-examine its needs for establishing and maintaining a sustainable community.	9/1/2011	\$11,500	\$5,995			2009-2011 continuation grant app	1

1	Boardman	TA	Economic Development and Housing Needs Planning for the City of Boardman	The anticipated products will include a focused Economic Opportunity Analysis (EOA), and Housing Needs Analysis and Buildable Lands Inventory for the City of Boardman. This project is meant to ensure that this City has an economic development strategy to address real needs coordinated with the County; a complete inventory of employment lands sufficient to capture legitimate economic opportunities and ensure their competitiveness in the regional market; and, a complete inventory of land needed for housing. Products will include any necessary revisions to participating comprehensive plans and zoning ordinances.	8/31/2011	\$52,500	\$6,000				1
1	Brownsville	TA	Brownsville Economic Opportunity Analysis	This grant is sought to assist in obtaining qualified assistance to prepare an Economic Opportunity Analysis as a necessary first step in reevaluating the City's land base, particularly to address a need for additional Light Industrial lands to provide employment opportunities.	9/1/2011	\$20,000	\$5,000				1
1	Burns	TA	Comprehensive Plan Up-grade including Airport Master Plan	The City of Burns will secure the service of a contractor to evaluate, compare and up-grade the Burns Comprehensive Plan, including land use zoning, and the Master Plan for the Burns Municipal Airport. This will include coordinating these documents with the Burns Municipal Codes.	8/30/2011	\$200,000	\$7,100				1
1	Canby	TA	Update to Lands Needs Study	Update Canby's 1999 Lands Need Study. A current Lands Needs Study is a crucial tool employed by our economic development team in their efforts to recruit new business and assist existing businesses seeking to expand and prosper in Canby.	8/30/2011	\$15,000	\$5,500				1
1	ClackamasCo	TA	Rural Cities Population Coordination	Establish a 20-year coordinated population forecast for the rural cities of Barlow, Canby, Estacada, Molalla, and Sandy and unincorporated rural Clackamas County, as per ORS 195.036. The project will include all necessary reports and documents to complete adoption of the forecasts into the Clackamas County Comprehensive Plan.	8/31/2011	\$42,048	\$11,293				1
1	ClatsopCo	TA	Clatsop Plains Growth Management Study	Hire a consultant to perform a growth management study for the Clatsop Plains area. Areas of study should include projection of growth patterns and infrastructure requirements, including water and sewer facilities and the transportation network. End products should include recommendations and strategies to resolve issues identified in narrative and study.	8/22/2011	\$50,000	\$20,000				1
1	Columbia-Waste	TA	Columbia City Wastewater System Facilities Plan	Develop a Wastewater System Facilities Plan that will serve as a planning tool for the residential and commercial areas and a 93-acre underdeveloped industrial site, address remediating 56 City-owned steel septic tanks that may be leaking, and take action on a related Comprehensive Plan Amendment.	9/1/2011	\$35,000	\$33,316				1
1	Columbia-Water	TA	Columbia City Water System Facilities Plan	Develop a Water System Facilities Plan to address providing service to a 93-acre underdeveloped industrial site owned by the Port of St. Helens and serve as a planning tool for the residential and commercial areas and take action on a related Comprehensive Plan Amendment.	9/1/2011	\$15,000	\$30,192				1
1	Coquille	TA	Coquille Economic Opportunity Analysis	Using the basic method, create an EOA for the city that satisfies DLCD requirements and meets all OAR 660-009-0015 procedures. Coquille has not had this done in the past and the current comprehensive plan is not based on such a study. Also, the city was not in possession of the abandoned Georgia - Pacific mill site, which will be an emphasis of this study, including a market assessment of economic potential. We expect product adoption by the City Council after public hearings, with an updated goal 9 of the comprehensive plan.	8/24/2011	\$28,000	\$3,500				1

1		Corvallis	TA	Corvallis Municipal Airport and Airport Industrial Park infrastructure and financial plans.	A variety of Corvallis system master plans include current and future infrastructure needs at the Corvallis Municipal Airport (CMA) and Airport Industrial Park (AIP). This project will develop a consolidated infrastructure plan and a financing plan for the CMA and AIP to help achieve the City's economic development goals.	9/1/2011	\$40,000	\$20,000			Held for Info	1
1		CrookCo	TA	Crook County Big Game Habitat Management Program	The project goal is to develop new GIS maps, ESEEs, and policies for Big Game Habitat Management (Antelope, Elk, and Deer) in Crook County where habitat range has changed. This projects includes intergovernmental coordination across boundaries between Crook, Deschutes and Jefferson Counties, where clean energy farming is developing (Goal 9).	8/31/2011	\$35,000	\$15,000				1
1		Culver	TA	Engineering for new Storm water System	The project divided into four phases, each as a stand-alone project, will complete the engineering and technical assistance required for the construction of a storm water system in Culver. A Feasibility Study was completed and the city needs assistance to continue the project and complete construction.	8/30/2011	\$115,000	\$11,500				1
1		DeschutesCo-EOA	TA	Conduct Implementation Phase of Central Oregon Regional Economic Opportunity Analysis	A 2011-2013 TA Grant recognizes that additional tasks remain to: Finalize a regional governance authority and memorandums of understandings with local governments; Identify large-lot industrial candidate sites. Perform buildable lands inventories and reconnaissance-level public facility assessments; Conduct open houses to engage property owners and stakeholders; and, Update LCDC and OTC	8/31/2011	\$70,000	\$20,000				1
1		DeschutesCO-SCPlan	TA	South County Community Plan Outreach	This grant will help fund an extensive and varied public outreach program with the goal of creating a South County Community Plan for adoption into the Comprehensive Plan. The product will be a draft South County Community Plan.	9/1/2011	\$30,000	\$55,000				1
		DISRES-GORGE	Gorge NSA	Three Counties Gorge Grants	Gorge Grants help the Counties of Multnomah, Hood River and Wasco Administer the planning for the Columbia Gorge National Scenic Area.	8/1/2011	\$240,000	\$0			\$240,000.00	
		DISRES-GORGE	Dispute Resolution	Dispute Resolution and Three Counties Gorge Grants	Oregon Consensus Center grant to assist with resolution/ mediation services in LUBA Appeals. NOTE: The Consensus program will present a proposal to LCDC in December with options for improving the effectiveness of the grant.	8/1/2011	\$20,000	\$0			\$20,000.00	
1		Durham	TA	Comprehensive Land Use Plan Update	Updates Comprehensive Land Use Plan. Last update 1995. Review Natural Resources, Public Facilities and Support Systems, and Growth and Development for needed amendments to reflect more recent changes and to comply with federal, state and metro regulations. Insure conformity between Land Use Plan and Land Use Code and make any necessary revisions. Craft an up to date document emphasizing goals and policies that protect and take advantage of natural resources, plans for adequate facilities and support systems to meet objectives, addresses land allocations to provide for housing needs consistent with the local economy and employment, and updates existing transportation plan. As each task is undertaken it will be closely coordinated with DLCD.	8/31/2011	\$30,000	\$16,220				1

	1	Forest Grove	PR	Forest Grove Comprehensive Plan Periodic Review: Transportation Analysis and TSP Update	This project includes detailed analysis of potential transportation system impacts associated with land use alternatives prepared for the Forest Grove Comprehensive Plan update (periodic review). This project also includes preparing amendments to the Forest Grove Transportation System Plan to bring the plan into conformance with the recently updated Metro Regional Transportation System Plan. Amendments to the Forest Grove Comprehensive Plan and Transportation System Plan will also be prepared to support adoption of mitigation measures and policies to address transportation impacts and requirements contained in the Oregon Transportation Planning Rule (OAR 660-12-000) and RTP. This project also includes conceptual analysis of transportation impacts associated with the development of urban reserve areas likely needed during the 20-year planning period.	9/1/2011	\$70,000	\$9,920					1
	1	HappyValley	TA	Rock Creek Employment Center Infrastructure Funding Plan	Continuing the work of the City's recently approved Economic Opportunities Analysis, identify and prioritize funding mechanisms and strategies to directly facilitate economic development by creating "market ready" lands through the construction of public infrastructure within the approximately 200 buildable acres located in the Rock Creek Employment Center (RCEC).	8/17/2011	\$45,750	\$45,750					1
	1	HarneyCo	TA	Goal 5 – Sage Grouse Element	Working with other county planning programs and local/state agencies, Harney County would incur the services of a contractor to assist in the local legislative process for review of the Oregon Department of Fish and Wildlife Sage Grouse Conservation Strategy and propose listing in the local Goal 5 wildlife inventory. Products would include a possible local protection/mitigation plan for the protected resource.	8/31/2011	\$15,000	\$5,000					1
	1	Harrisburg	TA	Harrisburg UGB Urbanization study update and alternatives analysis	This project will increase Harrisburg's prosperity and livability through increasing economic opportunities in the City. The 2007 Urbanization Study identified a deficit of land for employment and residential uses in Harrisburg. This project will update the 2007 Study, complete a UGB alternatives analysis, and develop findings to expand the UGB.	8/25/2011	\$41,000	\$18,000					1
	1	Hermiston	PR	Periodic Review Tasks 4, 5 and 6	Complete PR Task 6 adding a natural resource inventory and code implementation to protect said resources. Complete PR Task 4 creating new Public Facilities Plans for water and sewer. Complete Task 5 updating existing TSP.	9/1/2011	\$125,000	\$13,762					1
	1	Hood River	TA	Residential Buildable Lands Inventory	The City has completed an EOA with code changes to residential in the Commercial Zone (2011), Population forecast (2008), Housing and Income Metrics Report (2009), TSP (2011), and Capital Facilities Plan (2012), and are just missing a completed BLI to bring these issues together to determine needed housing.	8/31/2011	\$5,000	\$0				Held for Info	1
	1	JeffersonCo	TA	Zoning and Comprehensive Plan Map Consistency Revision and Amendment 2011 - 2013	Currently there are approximately 885 discrepancies in data between the Zoning Map and the Assessors Database. In addition there are also discrepancies between the Comprehensive Plan Map and the Zoning Map. The aim of the project is to identify, review and fix these discrepancies through appropriate and lawful procedures. The end result would be corrected zoning map, comprehensive plan map as well as an amendment to add a declaratory ruling procedure to the zoning code. In addition the County wants to map easements into the GIS system that are missing from approximately 2003 to 2006.	8/31/2011	\$25,300	\$0					1

	Keizer	PR	Keizer Periodic Review grant application for local EOA and HNA	The purpose of this project is to take the work that was done by EcoNorthwest on the Salem-Keizer regional EOA and the regional HNA and develop Keizer's local EOA and local HNA, along with accompanying revisions to the comprehensive plan, and any revision to development code as determined to be warranted.	8/8/2011	\$70,000	\$5,000					1
1	KingCity	TA	King City Comprehensive Plan Update – Phase 1	Phase 1 - To update the King City Comprehensive Plan with an evaluation of existing conditions including land use, public facilities/services and planning context (state/regional requirements and programs for neighboring jurisdictions). This will be followed in 2013 by Phase 2 – Comprehensive Plan Policy Update resulting in a fully updated plan document.	8/31/2011	\$15,500	\$4,000					1
1	KlamathCo	TA	Land Development Code Update	Legal and Technical Update of the Land Development Code (LDC) to meet the new statutes and OARs from the last several legislative sessions; and to streamline code to foster economic development and ease of administration.	9/1/2011	\$15,000	\$5,000					1
1	LaneCo	TA	Goshen Region Employment and Transition (GREAT) Plan	This proposal will enhance the economic viability of nearly 300 acres of underutilized industrial land in the Unincorporated Community of Goshen. Funds will be used to process a plan amendment (w/ goal 1 rule exception) to allow increased industrial development and to conduct necessary facilities planning.	8/31/2011	\$68,424	\$74,556					1
1	LCOG-MCWRAP	TA	Multi City/County Water Resource Assessment Project (MCWRAP) Phase III	This project ensures continued technical assistance to all eight MCWRAP cities. LCOG's development of additional tools and customized help will mean positive economic and resource outcomes for these (and other) cities. An evaluation of wetland assessment methodologies and development of process templates will also streamline resource planning (MCWRAP and other).	8/30/2011	\$52,500	\$210,000					1
1	LCOG-NDOUGEOA	TA	North Douglas County Multi-City Economic Opportunities Analysis Project	The Cities of Elkton, Oakland, Yoncalla and Drain have similar economic dynamics. The cities have partnered with LCOG, and regional economic development organizations to pursue Economic Opportunity (and supporting) Analyses, using an innovative regional approach. The result will be a shared economic strategy and four local Economic (and supporting) Analyses.	8/30/2011	\$98,500	\$43,300					1
1	Lowell	TA	Lowell Comprehensive Plan Update	The project and product is an adopted update of the Lowell Comprehensive Plan to include revised coordinated population projections, housing needs, buildable land inventory and urban growth needs in conformance with amended state regulations in a multi-biennium program that will address UGB expansion areas in a second stage if needed.	8/23/2011	\$33,000	\$8,000					1
1	Monroe	TA	Monroe Economic and Employment Analysis	The City hopes to evaluate our employments, develop facility plans to serve these lands, access the impacts of our Total Maximum Daily Load TMDL Plan and update the Development Code.	8/24/2011	\$44,844	\$4,856					1
1	MWVCOG-Dallas	TA	Dallas Economic Opportunities Analysis and Implementation Strategy	The project includes developing an updated EOA and related implementation strategy to replace the City's current economic development plan, which is over 14 years old. An updated EOA is needed to address the recent trends and opportunities the city is facing after losing over 800 manufacturing jobs and two major industry employers. The City needs a new vision and action plan for economic development that is grounded in current trends, and takes advantage of the City's unique assets and opportunities.	9/1/2011	\$29,000	\$5,000					1

1		MWVCOG-Dayton	TA	Dayton Land Use and Development Code Update to address economic development and better streamline the land use approval process	To update the City of Dayton's Land Use and Development Code to address deficiencies in the current document that limit the expedition of land use applications in conjunction with development efforts and planning for economic opportunities within the community in cooperation with the City governing bodies, the business development groups, and the Main Street and Certified Local Government programs. The goal of changes is to provide efficient and understandable standards and regulations while continuing to preserve and protect the City's numerous (over 40) nationally listed historic and cultural resources, establish a more inclusive sign code, and allow alternative small energy systems. Updated documents, applications, and a historic overlay map will be prepared and made available.	8/30/2011	\$20,000	\$2,500				1
1		MWVCOG-Hubbard	TA	Hubbard Public Facilities Finance Plan for UGB Expansion Areas	The project includes the development of a public facilities finance plan for areas recently brought into the Hubbard Urban Growth Boundary (UGB). The project would provide a plan for providing and financing public utilities needed to serve future development within UGB expansion areas planned for future commercial, industrial and residential use. This plan is particularly critical for ensuring the efficient and orderly redevelopment of exception lands included within the recent UGB expansion.	8/31/2011	\$50,000	\$3,500				1
1		MWVCOG-Jefferson	TA	Jefferson Economic Opportunities Analysis (EOA)	The project will update the Economic Element (Goal 9) of the Jefferson Comprehensive Plan. The EOA project includes a buildabl lands analysis for commercial and industrial lands, a review of state, county and local employment trends, a land needs analysis, a review and updating of the Economic Goals and Policies in the Jefferson Comprehensive Plan, a review and updating of the commercial and industrial zones in the Zone Code, and addressing the properties that have no zone along the Union Pacific RR track. An expansion of the urban growth boundary for commercial and industrial uses is not part of this project.	9/1/2011	\$20,000	\$1,200				1
1		Myrtle Point	TA	Coos Curry Regional Sustainability Project	The Coos Curry Regional Sustainability Project creates a regional sustainability plan for the Southern Oregon's Coos and Curry Counties (also benefiting N. Douglas County). State DLCD funds will be leveraged as local match toward a Federal HUD Sustainability Grant to maximize project benefit and local resources. Focus areas for the plan include: housing, transportation and environment. This funding request will delivers a regional housing assessment, economic opportunities analysis and formalizes intergovernmental working agreements.	9/1/2011	\$100,000	\$1,534,480				1
1		Newport	TA	Newport Economic Opportunity Analysis	The City of Newport is interested in conducting an Economic Opportunity Analysis, consistent with Goal 9, updating its economic trend data, analyzing its future employment needs, and inventorying available employment land. Products will include a written report, maps, and policies that can be incorporated into the City's Comprehensive Plan.	9/1/2011	\$15,000	\$15,000				1
1	1	Nyssa	TA	Updating the Comprehensive Plan, Zoning Code, Public Facilities Plan, and Downtown Vision Plan for the City of Nyssa.	This project will revise the outdated Comprehensive plan, Zoning Code and Public Facilities Plan, currently in place for the City of Nyssa. The final product will also include a Downtown Vision Plan for the City of Nyssa's Main Street Area.	8/31/2011	\$80,000	\$15,000				1

1	Pendleton	PR	Pendleton Phase III Periodic Review	Complete periodic review work program by: 1) Preparing a Local Wetlands Inventory and Goal 5 Program amendments; 2) Updating the Buildable Lands Inventory; 3) Preparing a Public Facilities Plan; 4) Meeting commercial and residential land needs within the existing UGB; 5) Completing the Historic Preservation Inventory and CLG process; and 6) Facilitating a local, state, and tribal coordination and adoption process.	8/29/2011	\$132,500	\$70,000				1
	Portland	PR	A Healthier, Connected and More Affordable City - Integrating Urban Form and Mobility	Analytical tools and policy alternatives for Portland's Comprehensive Plan update. These tools and policies will address emerging issues such as greenhouse gas emissions, cost burdened households, alternative mobility standards, and active transportation modal preferences. Products will facilitate Portland's plan updates, with methods and test cases useful for other jurisdictions.	8/30/2011	\$173,000	\$0				1
1	Redmond	TA	Redmond Westside UGB Expansion Area Plan	The "Area Plan" will be used to further define and implement the adopted City of Redmond Framework Plan for the UGB expansion area. The project will result in separate Comprehensive Plan and Zoning maps, and will streamline the procedural requirements for master planning, rezoning, annexation and site-specific development plans.	8/31/2011	\$180,000	\$38,866				1
1	Riddle	TA	Zoning Ordinance Update	The City of Riddle is stilled due to ordinance language that does not incorporate much that is required in Oregon law. Because of this, the City is vulnerable, and they must rely on consultants that understand the legal requirements. This is expensive and it stifles self-reliance of the City. This proposal will incorporate language revisions and streamline the ordinance to permit residential facilities, childcare facilities, 45-day notice, Measure 56 notice, quasi-judicial hearing requirements, consolidated applications and more.	8/31/2011	\$8,895	\$3,500				1
1	Rivergrove	TA	Phase II-Revision of Rivergrove's Land Development Ordinances	Phase I (completed) involved the (draft) transfer of existing land use ordinances to "Model Development Code for Small Cities" format. Phase II involves the revision of these ordinances and the creation of new ordinances as needed to streamline land use approval process and to correlate with the amended Comprehensive Plan.	8/26/2011	\$15,000	\$20,670				1
1	RVCOG	TA	Regional Problem Solving Implementation	The Jackson County Board of Commissioners expects to adopt the Greater Rogue Valley Regional Problem Solving Plan before the end of 2011. RVCOG will assist three smaller participating jurisdictions in incorporating the RPS plan into their comprehensive plans and development codes.	8/31/2011	\$25,068	\$0			2009-2011 continuation grant app	1
1	Salem	TA	South of Mission	The purpose of this grant project is to implement the University of Oregon's Sustainable Cities Initiative's recommendations for redevelopment of the "South of Mission" area. The grant will fund public outreach and consulting work to prepare amendments for pedestrian connectivity and urban design. The final product may be comprehensive plan and development code changes that will implement the SCI vision.	8/30/2011	\$80,000	\$20,000				1
1	Sodaville	TA	Sodaville Development Code	The project will create a new Development Code for the City of Sodaville, unifying the current zoning and subdivision documents into a seamless set of regulations designed to expedite the land use process in the community.	8/8/2011	\$4,000	\$1,000				1
1	St. Helens	TA	Dalton Lake Recreation Plan	The objective is a recreation plan for the Dalton Lake area. This is identified as a top priority in an adopted Waterfront Development Prioritization Plan. A draft plan was created in 2010 to demonstrate some ideas, but it is only preliminary. With the assistance of professional consultation, the hope is that this plan can be vetted and formalized so improvements to the Dalton Lake area become a reality.	8/22/2011	\$24,000	\$2,000				1

1	The Dalles	PR	The Dalles Periodic Review Phase III	Prepare and Adopt: 1) A local wetlands inventory for the UGB; 2) A cultural resources protection and mitigation plan; 3) A public facilities plan; 4) A revised UGB expansion alternatives analysis that incorporates Periodic Review Phase II products; and 5) Public involvement and support for a coordinated UGB amendment process.	8/30/2011	\$190,000	\$130,000				1
	Tigard	PR	Goal 10 Population and Housing Review	The project will review the population and housing characteristics of the community and the city's compliance with Statewide Planning Goal 10 and the Metropolitan Housing Rule. The project will also develop strategies to meet future housing needs, particularly in regards to high-capacity transit and the recently annexed River Terrace area.	8/31/2011	\$48,500	\$5,500				1
1	Tillamook	TA	Tillamook City/County Economic Opportunities Analysis	The City and County desire to use the provisions of OAR 660-009-0030 to develop an Economic Opportunities Analysis that recognizes the large volume of industrial lands in the County that flank the north and south sides of the City and will lead to the development of a coordinated regional Economic Plan.	8/30/2011	\$30,000	\$5,000				1
	Troutdale	PR	Troutdale Periodic Review Work Program	Troutdale has yet to commence two of the six tasks from its approve work program – 1) development of a public facilities plan, and 2) an update of its TSP. Consultant services are needed to accomplish these remaining technical tasks.	8/30/2011	\$100,000	\$338,000				1
1	Umatilla	TA	Economic Opportunities and Housing Needs for the City of Umatilla	The products will include a detailed Economic Opportunity Analysis (EOA), and Housing Needs Analysis and Buildable Lands Inventory for the City of Umatilla. The purpose of the project is to identify an economic development strategy for the City of Umatilla and capitalize on our competitive advantages, as well as an inventory of land needed for housing and industry and the best locations for residential, commercial and industrial development in the City. Products will include any necessary revisions to participating comprehensive plans and zoning ordinances. It is our intention that the City of Umatilla and the City of Boardman will share consultants for our respective Goal9 and 10 updates.	8/30/2011	\$40,000	\$5,000				1
1	Veneta	TA	Veneta: Ready for Regional Growth Opportunities	The project updates City plans to take advantage of economic growth opportunities expedited by construction of a regional water pipeline. Products include an economic opportunity analysis, buildable lands inventory, housing needs analysis, land supply and demand analysis, urban growth boundary expansion analysis, Public Facilities Plan Update, and Comprehensive Plan Update.	8/31/2011	\$75,300	\$86,664				1
1	Vernonia	TA	Vernonia Goal 9 Update and Zoning Re-allocation	The City desires to amend its Plan and Zone Map in order to re-designate properties that experience recurring flooding, and then adjust the land inventory accordingly. This is the Planning Commission's #1 goal for 2011 -2012. There are up to 90 parcels that are inappropriately zoned for future uses but cannot be built on because of flood hazards. The unbuildable parcels result in an inaccurate supply of land for housing and employment needs, which may impact the location and size of the Vernonia Urban Growth Boundary UGB. Existing and new businesses are frustrated by a lack of vacant employment land to re-locate or meet their needs.	8/22/2011	\$6,000	\$3,228				1

1	WascoCo	TA	Streamlining Development Review & Land Use Approvals: Processes, Procedures & Strategies	Advance the issue of streamlining development review and land use approvals in the County through: 1) auditing and evaluating various development review processes and procedures for efficiency improvements, 2) identifying differences that exist between federal, state and local land use regulations, and 3) developing strategies to implement identified changes.	8/30/2011	\$20,000	\$15,000				1
1	Wood Village	TA	Code Updates to streamline permitting and meet Federal Guidelines	Work will resolve conflicts to meet federal regulatory requirements for storm water, State and Federal guidelines for Solid Waste, and will focus on streamlining the permitting process by clarifying design review for auxiliary structures, hard surfacing lot coverage requirements, and guidelines to enhance economic activity through enabling street vendors.	8/25/2011	\$3,945	\$1,443				1
1	YamhillCo	TA	Yamhill County Population Coordination Study to 2032	Yamhill County will hire a consultant to prepare a 20-year population projection for the County and the 10 cities within its jurisdiction. Hearing will be held to allow interested parties to comment on the forecasts. The adopted forecasts will be available to the cities for their planning efforts.	9/1/2011	\$45,000	\$3,538			Held for Info	1
