

LAND CONSERVATION AND DEVELOPMENT DEPARTMENT

DIVISION 11

PUBLIC FACILITIES PLANNING

Amendments Adopted January 24, 2008

(No changes other rules in this division)

660-011-0060

Sewer Service to Rural Lands

... (NOTE: no changes except to section (4) of this rule)

(4) A local government may allow the establishment of a new sewer system, or the extension of an existing sewer system, to serve land outside urban growth boundaries and unincorporated community boundaries in order to mitigate a public health hazard, provided that the conditions in subsections (a) and (b) of this section are met, as follows:

(a) The DEQ or the Oregon Health Division initially:

(A) Determines that a public health hazard exists in the area;

(B) Determines that the health hazard is caused by sewage from development that existed in the area on July 28, 1998;

(C) Describes the physical location of the identified sources of the sewage contributing to the health hazard; and

(D) Determines that there is no practicable alternative to a sewer system in order to abate the public health hazard; and

(b) The local government, in response to the determination in subsection (a) of this section, and based on recommendations by DEQ and the Oregon Health Division where appropriate:

(A) Determines the type of sewer system and service to be provided, pursuant to section (5) of this rule;

(B) Determines the boundaries of the sewer system service area, pursuant to section (6) of this rule;

(C) Adopts land use regulations that ensure the sewer system is designed and constructed so that its capacity does not exceed the minimum necessary to serve the area within the boundaries described under paragraph (B) of this subsection, except **the capacity may be designed to provide for future sewer service planned for an area within a designated urban reserve, [areas] as provided under OAR 660-021-0040(6) or OAR 660-027-0070(4).**

(D) Adopts land use regulations to prohibit the sewer system from serving any uses other than those existing or allowed in the identified service area on the date the sewer system is approved;

(E) Adopts plan and zone amendments to ensure that only rural land uses are allowed on rural lands in the area to be served by the sewer system, consistent with Goal 14 and OAR 660-004-0018, unless a Goal 14 exception has been acknowledged;

(F) Ensures that land use regulations do not authorize a higher density of residential development than would be authorized without the presence of the sewer system; and

(G) Determines that the system satisfies ORS 215.296(1) or (2) to protect farm and forest practices, except for systems located in the subsurface of public roads and highways along the public right of way.
