Re: Ballot Measure 37 (ORS 197.352) Claim Number M131359

Claimant: Richard L. Jensen

Enclosed, in regard to the above-referenced claim for compensation under Ballot Measure 37 (ORS 197.352), is the Department of Land Conservation and Development's Draft Staff Report and Recommendation.

This Draft Staff Report and Recommendation sets forth the department's evaluation of and recommendation on the claim. Oregon Administrative Rule 125-145-0100(3) provides that the claimant (or the claimant's agent) and any third parties who submitted comments on the claim may submit written comments, evidence, and information in response to any third-party comments contained in the report, and to the staff report and recommendation itself. Such response must be filed no more than 15 calendar days after the date of mailing of this report. Any response from you must be delivered to the Oregon Department of Administrative Services (DAS), 1225 Ferry Street SE, U160, Salem, Oregon 97301, and will be deemed timely filed if either postmarked on the 15th day or actually delivered to DAS by the close of business on the 15th day.

This department will review any responses submitted, and a Final Order on the claim will be issued after such review.

ORS 197.352 (BALLOT MEASURE 37) CLAIM FOR COMPENSATION

**OREGON DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT
Draft Staff Report and Recommendation**

October 19, 2007

STATE CLAIM NUMBER: M131359
NAME OF CLAIMANT: Richard L. Jensen
MAILING ADDRESS: 34077 East Columbia Avenue
Scappoose, Oregon 97056
PROPERTY IDENTIFICATION: Township 1S, Range 4W, Section 1CC
Tax lot 200
Washington County
DATE RECEIVED BY DAS: November 27, 2006
DEADLINE FOR FINAL ACTION:¹ May 20, 2008

I. SUMMARY OF CLAIM

The claimant, Richard Jensen, seeks compensation in the amount of \$525,000 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimant desires compensation or the right to divide the 7.42-acre subject property into six parcels for residential development. The subject property is located near Forest Grove, in Washington County. (See claim.)

II. SUMMARY OF STAFF RECOMMENDATION

Based on the preliminary findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to Richard Jensen's division of the 7.42-acre subject property into six parcels for his residential development: applicable provisions of Statewide Planning Goal 14 (Urbanization) and Oregon Administrative Rule (OAR) 660-004-0040. These land use regulations will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted

¹ ORS 197.352, as originally enacted, required that final action on claims made under Measure 37 be made within 180 days of the date the claim was filed. In response to the large volume of claims filed in late 2006, the Oregon legislature passed House Bill 3546, which became effective on May 10, 2007. This legislation increased the amount of time state and local governments have to take final action on Measure 37 claims filed on or after November 1, 2006, by 360 days, to a total of 540 days.

when he acquired the property on September 9, 1970. (See the complete recommendation in Section VI. of this report.)

III. COMMENTS ON THE CLAIM

Comments Received

On July 13, 2007, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, no written comments were received in response to the 15-day notice

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

This claim was submitted to DAS on November 27, 2006, for processing under OAR 125, division 145. The claim identifies OAR 660, division 4 and Goal 14 as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for "owners" as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines "owner" as "the present owner of the property, or any interest therein."

Findings of Fact

The claimant, Richard Jensen, acquired the subject property on September 9, 1970, as reflected by a real estate contract included with the claim. The Washington County Assessor's Office confirms the claimant's current ownership of the subject property.

Conclusions

The claimant, Richard Jensen, is an "owner" of the subject property as that term is defined by ORS 197.352(11)(C), as of September 9, 1970.

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimant's use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimant or a family member acquired the property.

Findings of Fact

The claim indicates that the claimant desires to divide the 7.42-acre subject property into six parcels for residential development and that current land use regulations prevent the desired use.

The claim is based on the provisions of state law that regulate rural residential zoning. The claimant's property is zoned Agricultural Forest - Five Acre (AF-5) by Washington County. The AF-5 zone is a rural residential zone, in accordance with Goal 14, which prohibits urban use of rural lands. The county's AF-5 zone requires five acres for the creation of any new lot or parcel and was in effect and applied to the subject property on or before October 4, 2000.

Goal 14 became effective on January 25, 1975, and requires that local comprehensive plans identify and separate urbanizable land from rural land in order to provide for an orderly and efficient transition from rural to urban land use. In 2000, as a result of a 1986 Oregon Supreme Court decision,² the Commission amended Goal 14 and adopted OAR 660-004-0040 (Application of Goal 14 to Rural Residential Areas), which was effective on October 4, 2000.

The claimant acquired the subject property in 1970, prior to the adoption of the statewide planning goals and their implementing statutes and rules. At that time, the subject property was zoned by the county as F-1, which permitted one-acre parcels.

Conclusions

The minimum lot size requirements for rural residential lots or parcels established by Goal 14 and OAR 660-004-0040 were adopted since the claimant acquired the subject property in 1970 and do not allow the desired division of the property. These regulations restrict the use of the subject property relative to uses permitted when the claimant acquired it.

² *1000 Friends of Oregon v. LCDC (Curry County)*, 301 Or 447 (1986).

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimant has identified. There may be other laws that currently apply to the claimant use of the subject property, and that may continue to apply to the claimant's use of the property, that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When the claimant seeks a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have "the effect of reducing the fair market value of the property, or any interest therein."

Findings of Fact

The claim includes an estimate of \$525,000 as the reduction in the subject property's fair market value due to the regulations that restrict the claimant desired use of the property. This amount is based on the claimant's assessment of the subject property's value.

Conclusions

As explained in Section V.(1) of this report, the claimant is Richard Jensen who acquired the subject property on September 9, 1970. Under ORS 197.352, the claimant is due compensation for land use regulations that restrict the use of the subject property and have the effect of reducing its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since the claimant acquired the subject property restrict the claimant's desired use of the property. The claimant estimates that the effect of the regulations on the fair market value of the subject property is a reduction of \$525,000.

Without an appraisal or other documentation, it is not possible to substantiate the specific dollar amount by which the land use regulations have reduced the fair market value of the subject property. Nevertheless, based on the evidence in the record for this claim, the department determines that the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

Findings of Fact

The claim is based on state land use regulations that restrict the use of the subject property, including Goal 14 and OAR 660-004-0040, which Washington County has implemented through its AF-5 zone. Both of these land use regulations were adopted after the claimant acquired the subject property.

Conclusions

Without a specific development proposal for the subject property, it is not possible for the department to determine all the laws that may apply to a particular use of the property, or whether those laws may fall under one or more of the exemptions under ORS 197.352. It appears that none of the general goal and rule restrictions on division of rural residential land were in effect when the claimant acquired the subject property in 1970. As a result, these laws are not exempt under ORS 197.352(3)(E).

Laws in effect when the claimant acquired the subject property are exempt under ORS 197.352(3)(E) and will continue to apply to the claimant's use of the property. There may be other laws that continue to apply to the claimant's use of the subject property that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of property until there is a specific proposal for that use. When the claimant seeks a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use. In some cases, some of these laws may be exempt under ORS 197.352(3)(A) to (D).

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimant has identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable, given the information provided to the department in the claim. The claimant should be aware that the less information he has provided to the department in his claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to his use of the subject property.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the Director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimant's desired use of the subject property. The claim asserts that existing state land use regulations enforced by the Commission or the department have the effect of reducing the fair market value of the subject property by \$525,000. However, because the claim does not provide an appraisal or other relevant evidence demonstrating that the land use regulations described in Section V.(2) reduce the fair market value of the subject property, a specific amount of compensation cannot be determined. In order to determine a specific amount of compensation due for this claim, it would also be necessary to verify whether or the extent to which the claimant's desired use of the property was allowed under the standards in effect when he acquired the property. Nevertheless, based on the record for this claim, the department has

determined that the laws on which the claim is based have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow Richard Jensen to use the subject property for a use permitted at the time he acquired the property on September 9, 1970.

Conclusions

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Richard Jensen's division of the 7.42-acre subject property into six parcels for his residential development: applicable provisions of Goal 14 and OAR 660-004-0040. These land use regulations will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on September 9, 1970.
2. The action by the State of Oregon provides the state's authorization to the claimant to use the subject property for the use described in this report, subject to the standards in effect on September 9, 1970.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimant first obtains that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.
4. Any use of the subject property by the claimant under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).
5. Without limiting the generality of the foregoing terms and conditions, in order for the claimant to use the subject property, it may be necessary for him to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimant from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimant.

6. Nothing in this report or the state's final order for this claim constitutes any determination of ownership by the State of Oregon as to submerged or submersible lands, or as to public rights to the use of waters of the state.

VII. NOTICE OF OPPORTUNITY TO COMMENT

This staff report is not a final decision by the department and does not authorize any use of the property that is the subject of this report. OAR 125-145-0100 provides an opportunity for the claimant or the claimant's authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation. Such response must be filed no more than 15 calendar days after the date this report is mailed to the claimant and any third parties. Responses to this draft staff report and recommendation will be considered only as comments related to the claim described in this report. All responses must be delivered to the Oregon Department of Administrative Services (DAS), Measure 37 Unit, Risk Management-State Services Division, 1225 Ferry Street SE, U160, Salem, Oregon 97301-4292 and will be deemed timely filed if either postmarked on the 15th day, or actually delivered to DAS by the close of business on the 15th day. Note: Please reference the claim number, claimant name and clearly mark your comments as "Draft Staff Report comments." Comments must be submitted in writing only. Those comments submitted electronically or by facsimile will not be accepted.
