THE STATE OF OREGON

IN THE MATTER OF THE CLAIM FOR) FINAL ORDER A
COMPENSATION UNDER ORS 197.352) CLAIM NO. M122798
(BALLOT MEASURE 37) OF)
Donald Slaughter, CLAIMANT)

Claimant: Donald Slaughter (the Claimant)

Property: Township 6S, Range 2E, Section 6, Tax lots 600 and 601
 Township 5S, Range 2E, Section 31, Tax lot 900
 Clackamas County (the Property)

Claim: The demand for compensation and any supporting information received from the
 Claimant by the State of Oregon (the Claim).

Claimant submitted the Claim to the State of Oregon under ORS 197.352. Under OAR 125-145-0010 *et seq.*, the Department of Administrative Services (DAS) referred the Claim to the Department of Land Conservation and Development (DLCD) as the regulating entity. This order is based on the record herein, including the Findings and Conclusions set forth in the Final Staff Report and Recommendation of DLCD (the DLCD Report) attached to and by this reference incorporated into this order.

ORDER

The Claim is approved as to laws administered by DLCD and the Land Conservation and Development Commission (LCDC) for the reasons set forth in the DLCD Report, and subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Donald Slaughter's 1) division of parcel 4 of partition plat 1992-155 into two parcels and to his development of a dwelling on each resulting parcel and 2) development of a dwelling on parcel 3 of partition plat 1991-146 and on each of parcels 5, 6 and 7 of partition plat 1992-155: applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33. These land use regulations will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on April 6, 1959.
2. The action by the State of Oregon provides the state's authorization to the claimant to use the property for the use described in this report, subject to the standards in effect on April 6, 1959.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license

or other form of authorization or consent, the order will not authorize the use of the property unless the claimant first obtains that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by the claimant under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimant to use the subject property, it may be necessary for him to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimant from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimant.

This Order is entered by the Director of the DLCD as a final order of DLCD and the Land Conservation and Development Commission under ORS 197.352, OAR 660-002-0010(8), and OAR 125, division 145, and by the Deputy Administrator for the State Services Division of the DAS as a final order of DAS under ORS 197.352, OAR 125, division 145, and ORS 293.

NOTICE OF RIGHT TO APPEAL OR OTHER JUDICIAL RELIEF

You are entitled, or may be entitled, to judicial remedies including the following:

1. Judicial review under ORS 183.484: Judicial review under ORS 183.484 may be obtained by filing a petition for review within 60 days from the service of this order. A petition for judicial review under ORS 183.484 may be filed in the Circuit Court for Marion County or the Circuit Court in the county in which you reside.
2. A cause of action under ORS 197.352 (Measure 37 (2004)): If a land use regulation continues to apply to the subject property more than 180 days after the present owner of the property has made written demand for compensation under ORS 197.352¹, the present owner of the property, or any interest therein, shall have a cause of action in the circuit court in which the real property is located.

I. SUMMARY OF CLAIM

The claimant, Donald Slaughter, seeks compensation in the amount of \$700,000 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimant desires compensation or the right to 1) divide parcel 4 of partition plat 1992-155 into two parcels and develop a dwelling on each resulting parcel and 2) develop a dwelling on parcel 3 of partition plat 1991-146 and on each of parcels 5, 6 and 7 of partition plat 1992-155. The subject property is located at 11498 South Wildcat Road, near Molalla, in Clackamas County.³ (See claim.)

¹ This report is one of two addressing the property subject to this claim. Tax lot 800 is addressed in companion staff report B.

² This date reflects 180 days from the date the claim was submitted, as extended by the 139 days that all timelines under Measure 37 were suspended during the pendency of *MacPherson v. Dept. of Admin. Svcs.*, 340 Or 117 (2006).

³ The claim form submitted to the state lists 11498 South Wildcat Road as the street address for the property subject to this claim. However, the appraisal submitted as a supplement to the claim lists 12545 South Wildcat Road as the property's address.

II. SUMMARY OF STAFF RECOMMENDATION

Based on the findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to Donald Slaughter's 1) division of parcel 4 of partition plat 1992-155 into two parcels and to his development of a dwelling on each resulting parcel and 2) development of a dwelling on parcel 3 of partition plat 1991-146 and on each of parcels 5, 6 and 7 of partition plat 1992-155: applicable provisions of Statewide Planning Goals 3 (Agricultural Lands) and 4 (Forest Lands), ORS 215 and Oregon Administrative Rules (OAR) 660, divisions 6, and 33. These laws will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property in 1959. (See the complete recommendation in Section VI of this report.)

III. COMMENTS ON THE CLAIM

Comments Received

On June 16, 2006, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, no written comments were received in response to the 10-day notice.

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

This claim was submitted to DAS on October 14, 2005, for processing under OAR 125, division 145. The claim identifies Senate Bill 100 (1973) as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

The claimant, Donald Slaughter, acquired the subject property on April 6, 1959, as reflected by a deed included with the claim. A July 28, 2005, title report submitted with the claim establishes the claimant’s current ownership of the subject property.

Conclusions

The claimant, Donald Slaughter, is an “owner” of the subject property as that term is defined by ORS 197.352(11)(C), as of April 6, 1959.

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimant’s use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimant or a family member acquired the property.

Findings of Fact

The claim indicates that the claimant desires to 1) divide parcel 4 of partition plat 1992-155 into two parcels and develop a dwelling on each resulting parcel and 2) develop a dwelling on parcel 3 of partition plat 1991-146 and on each of parcels 5, 6 and 7 of partition plat 1992-155. It indicates that current land use regulations prevent the desired use.

The claim is based generally on the applicable provisions of state law that require Exclusive Farm Use (EFU) and forest zoning. The claimant’s property is zoned AG/F by Clackamas County, which is a mixed agricultural and forest land zone, as permitted by Goal 4 and the implementing provisions of OAR 660-006-0050 (effective on February 5, 1990), subsequently amended on March 1, 1994, to comply with the provisions of House Bill 3661 (Chapter 792, Oregon Laws 1993).

Under OAR 660-006-0050, all the uses permitted under Goals 3 and 4 are allowed in mixed agriculture and forest zones except that, for dwellings, either the Goal 3 or 4 standards are

applicable based on the predominant use of the tract on January 1, 1993.⁴ Depending on the predominant use on that date, the property is subject to either the requirements for dwellings applicable under EFU zoning required by Goal 3 and OAR 660, division 33, or forest zone provisions required by Goal 4 and OAR 660, division 6.

For land divisions, OAR 660-006-0055 authorizes the creation of new parcels based on the standards applicable to farm or forest zones that implement the 80-acre minimum lot size specified in ORS 215.780. Under ORS 215.780(2)(a), the minimum lot size in Clackamas County's AG/F zone is 80 acres. The claimant's property cannot be divided into parcels smaller than 80 acres.

The claimant acquired the subject property on April 6, 1959, prior to the adoption of statewide planning goals and their implementing statutes and regulations.

Conclusions

The current zoning requirements, minimum lot size and dwelling standards established under Goal 4 for lands zoned for mixed farm-forest use and the statutory and rule restrictions under applicable provisions of ORS 215 and OAR 660, divisions 6, and 33, were enacted or adopted after the claimant acquired the subject property in 1959, and do not allow the desired division and development of the property.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimant has identified. There may be other laws that currently apply to the claimant's use of the subject property, and that may continue to apply to the claimant's use of the property, that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When the claimant seeks a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have "the effect of reducing the fair market value of the property, or any interest therein."

Findings of Fact

The claim includes an estimate of \$700,000 as the reduction in the subject property's fair market value due to the regulations that restrict the claimant's desired use of the property. This amount is based on an appraisal provided by the claimant.

Conclusions

As explained in Section V.(1) of this report, the claimant is Donald Slaughter who acquired the subject property on April 6, 1959. Under ORS 197.352, the claimant is due compensation for

⁴ No information was provided to the department regarding the predominant use of the property on January 1, 1993.

land use regulations that restrict the use of the subject property and have the effect of reducing its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since the claimant acquired the subject property restrict the claimant's desired use of the property. The claimant estimates that the effect of the regulations on the fair market value of the subject property is a reduction of \$700,000.

Without additional documentation and verification, it is not possible to substantiate the specific dollar amount by which the land use regulations have reduced the fair market value of the subject property. Nevertheless, based on the evidence in the record for this claim, the department determines the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

Findings of Fact

The claim is based on state land use regulations that restrict the use of the subject property, including applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33, which Clackamas County has implemented through its AG/F zone. All of these land use regulations were enacted or adopted after the claimant acquired the subject property.

Conclusions

Without a specific development proposal for the subject property, it is not possible for the department to determine all the laws that may apply to a particular use of the property, or whether those laws may fall under one or more of the exemptions under ORS 197.352. It appears that none of the general statutory, goal and rule restrictions on residential division and development of the subject property were in effect when the claimant acquired it in 1959. As a result, these laws are not exempt under ORS 197.352(3)(E).

Laws in effect when the claimant acquired the subject property are exempt under ORS 197.352(3)(E) and will continue to apply to the claimant's use of the property. In addition, the department notes that ORS 215.730 and OAR 660, division 6, include standards for siting dwellings in forest zones. The provisions include fire protection standards for dwellings and for surrounding forest zones. ORS 197.352 (3)(B) specifically exempts regulations "restricting or prohibiting activities for the protection of public health and safety, such as fire and building codes. . . ." To the extent they are applicable to the claimant's property, the siting standards for dwellings in forest zones in ORS 215.730 and OAR 660, division 6, are exempt under ORS 197.352(3)(B).

There may be other laws that continue to apply to the claimant's use of the subject property that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When the claimant seeks a building or development permit to carry out a specific use, it may become

evident that other state laws apply to that use. In some cases, some of these laws may be exempt under ORS 197.352(3)(A) to (D).

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimant has identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable, given the information provided to the department in the claim. The claimant should be aware that the less information he has provided to the department in the claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to his use of the subject property.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimant's desired use of the subject property. The claim asserts that existing state land use regulations enforced by the Commission or the department have the effect of reducing the fair market value of the subject property by \$700,000. However, because the claim does not provide additional relevant evidence demonstrating that the land use regulations described in Section V.(2) reduce the fair market value of the subject property, a specific amount of compensation cannot be determined. In order to determine a specific amount of compensation due for this claim, it would also be necessary to verify whether or the extent to which the claimant's desired use of the property was allowed under the standards in effect when he acquired the property. Nevertheless, based on the record for this claim, the department has determined that the laws on which the claim is based have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow Donald Slaughter to use the subject property for a use permitted at the time he acquired the property on April 6, 1959.

Conclusions

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Donald Slaughter's 1) division of parcel 4 of partition plat 1992-155 into two parcels and to his development of a dwelling on each resulting parcel and 2) development of a dwelling on parcel 3 of partition plat 1991-146 and on each of parcels 5, 6 and 7 of partition plat 1992-155: applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33. These land use regulations will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on April 6, 1959.
2. The action by the State of Oregon provides the state's authorization to the claimant to use the property for the use described in this report, subject to the standards in effect on April 6, 1959.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimant first obtains that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.
4. Any use of the subject property by the claimant under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).
5. Without limiting the generality of the foregoing terms and conditions, in order for the claimant to use the subject property, it may be necessary for him to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimant from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimant.

VII. COMMENTS ON THE DRAFT STAFF REPORT

The department issued its draft staff report on this claim on August 8, 2006. OAR 125-145-0100(3), provided an opportunity for the claimant or the claimant's authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation. Comments received have been taken into account by the department in the issuance of this final report.

Claim: The demand for compensation and any supporting information received from the Claimant by the State of Oregon (the Claim).

Claimant submitted the Claim to the State of Oregon under ORS 197.352. Under OAR 125-145-0010 *et seq.*, the Department of Administrative Services (DAS) referred the Claim to the Department of Land Conservation and Development (DLCD) as the regulating entity. This order is based on the record herein, including the Findings and Conclusions set forth in the Final Staff Report and Recommendation of DLCD (the DLCD Report) attached to and by this reference incorporated into this order.

ORDER

The Claim is approved as to laws administered by DLCD and the Land Conservation and Development Commission (LCDC) for the reasons set forth in the DLCD Report, and subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Donald Slaughter development of a dwelling on the 29.4-acre subject property: applicable provisions of Goal 3, ORS 215 and OAR 660, division 33. These land use regulations will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on April 6, 1959.
2. The action by the State of Oregon provides the state's authorization to the claimant to use the subject property for the use described in this report, subject to the standards in effect on April 6, 1959.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimant first obtains that permit, license or other form of authorization or consent.

Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by the claimant under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimant to use the subject property, it may be necessary for him to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimant from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimant.

This Order is entered by the Director of the DLCD as a final order of DLCD and the Land Conservation and Development Commission under ORS 197.352, OAR 660-002-0010(8), and OAR 125, division 145, and by the Deputy Administrator for the State Services Division of the DAS as a final order of DAS under ORS 197.352, OAR 125, division 145, and ORS 293.

DATE RECEIVED BY DAS: October 14, 2005

180-DAY DEADLINE: August 29, 2006²

I. SUMMARY OF CLAIM

The claimant, Donald Slaughter, seeks compensation in the amount of \$700,000 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimant desires compensation or the right to develop a dwelling on the 29.4-acre subject property. The subject property is located at 11498 South Wildcat Road,³ near Molalla, in Clackamas County. (See claim.)

II. SUMMARY OF STAFF RECOMMENDATION

Based on the findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff

¹ This report is one of two addressing property subject to this claim. Tax lots 600, 601 and 900 are addressed in companion staff report A.

² This date reflects 180 days from the date the claim was submitted, as extended by the 139 days that all timelines under Measure 37 were suspended during the pendency of *MacPherson v. Dept. of Admin. Svcs.*, 340 Or 117 (2006).

³ The claim form submitted to the state lists 11498 South Wildcat Road as the street address for the property subject to this claim. However, the appraisal submitted as a supplement to the claim lists 12545 South Wildcat Road as the property's address.

recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to Donald Slaughter's development of a dwelling on the 29.4-acre subject property: applicable provisions of Statewide Planning Goal 3 (Agricultural Lands), ORS 215 and Oregon Administrative Rules (OAR) 660, division 33. These laws will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on April 6, 1959. (See the complete recommendation in Section VI of this report.)

III. COMMENTS ON THE CLAIM

Comments Received

On June 16, 2006, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, no written comments were received in response to the 10-day notice.

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

This claim was submitted to DAS on October 14, 2005, for processing under OAR 125, division 145. The claim identifies Senate Bill 100 (1973) as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

The claimant, Donald Slaughter, acquired the subject property on April 6, 1959, as reflected by a deed included with the claim. A July 28, 2005, title report submitted with the claim establishes the claimant’s current ownership of the subject property.

Conclusions

The claimant, Donald Slaughter, is an “owner” of the subject property as that term is defined by ORS 197.352(11)(C), as of April 6, 1959.

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimant’s use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimant or a family member acquired the property.

Findings of Fact

The claim indicates that the claimant desires to develop a dwelling on the subject property, and that current land use regulations prevent the desired use.

The claim is based generally on the applicable provisions of state law that require Exclusive Farm Use (EFU) zoning and restrict uses on EFU-zoned land. The claimant’s property is zoned EFU as required by Goal 3, in accordance with ORS 215 and OAR 660, division 33, because the claimant’s property is “agricultural land” as defined by Goal 3.⁴ Goal 3 became effective on January 25, 1975, and required that agricultural lands as defined by the Goal be zoned EFU pursuant to ORS 215.

Current land use regulations, particularly 215.284 and OAR 660, division 33, enacted or adopted pursuant to Goal 3, establish standards for development of dwellings on existing or proposed parcels on EFU-zoned land.

OAR 660-033-0135 (applicable to farm dwellings) became effective on March 1, 1994, and interprets the statutory standard for a primary dwelling in an EFU zone under ORS 215.283(1)(f). OAR 660-033-0130(4) (applicable to non-farm dwellings) became effective

⁴ The claimant’s property is “agricultural land” because it contains Natural Resources Conservation Service Class I-IV soils.

on August 7, 1993, and was amended to comply with ORS 215.284(4) on March 1, 1994. The Commission subsequently adopted amendments to comply with House Bill 3326 (Chapter 704, Oregon Laws 2001, effective on January 1, 2002), which were effective on May 22, 2002. (See administrative rule history for OAR 660-033-0100, -0130 and -0135.)

The claimant acquired the subject property on April 6, 1959, prior to the adoption of the statewide planning goals and their implementing statutes and regulations.

Conclusions

The current zoning requirements and dwelling standards established by applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, were all enacted or adopted after the claimant acquired the subject property in 1959 and do not allow the desired development of the property. These laws restrict the use of the subject property relative to the uses allowed when the claimant acquired the property.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the use that the claimant has identified. There may be other laws that currently apply to the claimant's use of the subject property, and that may continue to apply to the claimant's use of the property, that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of subject property until there is a specific proposal for that use. When the claimant seeks a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have "the effect of reducing the fair market value of the property, or any interest therein."

Findings of Fact

The claim includes an estimate of \$700,000 as the reduction in the subject property's fair market value due to the regulations that restrict the claimant's desired use of the property. This amount is based on an appraisal provided by the claimant.

Conclusions

As explained in Section V.(1) of this report, the claimant is Donald Slaughter who acquired the subject property on April 6, 1959. Under ORS 197.352, the claimant is due compensation for land use regulations that restrict the use of the subject property and have the effect of reducing its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since the claimant acquired the subject property restrict the claimant's desired use of the property. The claimant estimates that the effect of the regulation(s) on the fair market value of the subject property is a reduction of \$700,000.

Without additional documentation and verification, it is not possible to substantiate the specific dollar amount by which the land use regulations have reduced the fair market value of the

property. Nevertheless, based on the evidence in record for this claim, the department determines that the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

Findings of Fact

The claim is based on state land use regulations that restrict the use of the subject property, including applicable provisions of Goal 3, ORS 215 and OAR 660, division 33, which Clackamas County has implemented through its current EFU zone. All of these land use regulations were enacted or adopted after the claimant acquired the subject property.

Conclusions

Without a specific development proposal for the subject property, it is not possible for the department to determine all the laws that may apply to a particular use of the property, or whether those laws may fall under one or more of the exemptions under ORS 197.352. It appears that none of the general statutory, goal and rule restrictions on development of the claimant's property were in effect when the claimant acquired it in 1959. As a result, these laws are not exempt under ORS 197.352(3)(E).

Laws in effect when the claimant acquired the subject property are exempt under ORS 197.352(3)(E) and will continue to apply to the claimant's use of the property. There may be other laws that continue to apply to the claimant's use of the subject property that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of subject property until there is a specific proposal for that use. When the claimant seeks a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use. In some cases, some of these laws may be exempt under ORS 197.352(3)(A) to (D).

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the use that the claimant has identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable, given the information provided to the department in the claim. The claimant should be aware that the less information he has provided to the department in the claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to his use of the subject property.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced laws that restrict the use of the subject property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the subject

property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the Director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimant's desired use of the subject property. The claim asserts that existing state land use regulations enforced by the Commission or the department have the effect of reducing the fair market value of the subject property by \$700,000. However, without additional relevant evidence demonstrating that the land use regulations described in Section V.(2) reduce the fair market value of the subject property, a specific amount of compensation cannot be determined. In order to determine a specific amount of compensation due for this claim, it would also be necessary to verify whether or the extent to which the claimant's desired use of the subject property was allowed under the standards in effect when he acquired the property. Nevertheless, based on the record for this claim, the department has determined that the laws on which the claim is based have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow Donald Slaughter to use the subject property for a use permitted at the time he acquired the property on April 6, 1959.

Conclusions

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Donald Slaughter development of a dwelling on the 29.4-acre subject property: applicable provisions of Goal 3, ORS 215 and OAR 660, division 33. These land use regulations will not apply to the claimant only to the extent necessary to allow him to use the subject property for the use described in this report, and only to the extent that use was permitted when he acquired the property on April 6, 1959.
2. The action by the State of Oregon provides the state's authorization to the claimant to use the subject property for the use described in this report, subject to the standards in effect on April 6, 1959.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimant first obtains that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by the claimant under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimant to use the subject property, it may be necessary for him to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimant from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimant.

VII. COMMENTS ON THE DRAFT STAFF REPORT

The department issued its draft staff report on this claim on August 8, 2006. OAR 125-145-0100(3), provided an opportunity for the claimant or the claimant's authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation. Comments received have been taken into account by the department in the issuance of this final report.
