Section 36CA: tax lot 800
Section 36CB: tax lot 100

DATE RECEIVED BY DAS: November 13, 2006

180-DAY DEADLINE: May 12, 2007

I. SUMMARY OF CLAIM

The claimant, Shirley Stauber, seeks compensation in the amount of \$500,000 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimant desires compensation or the right to divide the 20.38-acre subject property into 0.25-acre parcels and to develop a dwelling on each resulting parcel.¹ The property is located at 5000 North Highway 101, near Lincoln City, in Lincoln County. (See claim.)

II. SUMMARY OF STAFF RECOMMENDATION

Based on the findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is not valid because neither the Land Conservation and Development Commission (the Commission) nor the department has enforced laws that restrict the claimant's use of the private real property. (See the complete recommendation in Section VI. of this report.)

¹ The subject property includes two tax lots. Tax lot 100 consists of 16.92 acres, and tax lot 800 consists of 3.46 acres.

III. COMMENTS ON THE CLAIM

Comments Received

On April 2, 2007, pursuant to Oregon Administrative Rule (OAR) 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, one written comment was received in response to the 10-day notice.

The comment does not address whether the claim meets the criteria for relief under ORS 197.352. Comments concerning the effects a use of the subject property may have on surrounding areas are generally not something that the department is able to consider in determining whether to waive a state law. If funds do become available to pay compensation, then such effects may become relevant in determining which claims to pay compensation for instead of waive a state law. (See the comment letter in the department's claim file.)

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

This claim was submitted to DAS on November 13, 2006, for processing under OAR 125, division 145. The claim identifies "county zoning five-acre requirements" as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

The claimant, Shirley Stauber, acquired the subject property on August 24, 1959, as reflected by a deed included with the claim. The Lincoln County Assessor’s Office confirms the claimant’s current ownership of the subject property.

Conclusions

The claimant, Shirley Stauber, is an “owner” of the subject property as that term is defined in ORS 197.352(11)(C), as of August 24, 1959.

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimant’s use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimant or a family member acquired the property.

Findings of Fact

The claim indicates that the claimant desires to divide the 20.38-acre subject property into 0.25-acre parcels and to develop a dwelling on each resulting parcel. It indicates that current land use regulations prohibit the desired use.

The subject property is currently zoned Residential Zone (R-1) by Lincoln County. The R-1 district is a rural residential zone, which requires 6,000 square feet for a parcel with a single-family dwelling. The subject property is within the City of Lincoln City’s Urban Growth Boundary (UGB).

In general, the zoning of a particular property within a UGB is determined by the city or county with land use jurisdiction over the property. In some circumstances, the Commission’s rules or state statutes may apply to a local government decision regarding zoning, but usually, within a UGB, state laws require or encourage a higher intensity of development rather than restrict the use of real property. In this case, the claimant has not alleged how a specific state land use regulation restricts the use of real property and has the effect of reducing the fair market value of that real property.

Based on the information in the claim, the department has not identified any state laws that restrict the claimant’s use of the subject property.

Conclusions

The claim does not establish any state laws that currently restrict the use of the claimant's property. Because the subject property is located within the City of Lincoln City's UGB, neither the Commission nor the department enforces laws that require specific zoning of the property. Based on the record before the department, neither the Commission nor the department enforces any laws that restrict the use of the claimant's real property.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulations (described in Section V.(2) of this report) must have "the effect of reducing the fair market value of the property, or any interest therein."

As explained in Section V.(2) of this report, the claimant, Shirley Stauber, has not established that any state land use regulations restrict the use of the subject property. Accordingly, the department cannot determine that any laws enforced by the Commission or the department have had the effect of reducing the fair market value of the subject property.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

As explained in Section V.(2) of this report, the claimant, Shirley Stauber, has not established that any state land use regulations restrict the use of the subject property. Accordingly, the department cannot determine that any exemptions under ORS 197.352(3) apply to this claim.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the Director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the record for this claim, the claimant has not established that any state laws enforced by the Commission or the department restrict the use of the subject property, and have the effect of reducing the fair market value of the subject property. Because the subject property is located within Lincoln City's UGB, neither the Commission nor the department enforces laws that require specific zoning of the property.

Conclusions

Based on the record before the department, the claimant, Shirley Stauber has not established that she is entitled to relief under ORS 197.352(1) as a result of land use regulations enforced by the Commission or the department. Therefore, the department recommends that this claim be denied.

VII. COMMENTS ON THE DRAFT STAFF REPORT

The department issued its draft staff report on this claim on April 25, 2007. OAR 125-145-0100(3), provided an opportunity for the claimant or the claimant's authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation. In response to the draft staff report dated April 25, 2007, pursuant to OAR 125-145-0080 on May 1, 2007, the claimant's agent submitted a letter. The Department has considered the comment.
