RULE SUMMARY

This rulemaking would add two registry subspecialty credentials to the list of recognized credentials that the Board could print on the license of a licensee who earns the respective credential through one of the national imaging registries. The subspecialty credentials to be added by this rulemaking would be the computed tomography credential that was recently developed and is now offered by the Nuclear Medicine Technology Certification Board, and the pediatric sonography subspecialty credential that was recently developed and is now offered by the American Registry of Diagnostic Medical Sonographers.

A public rulemaking hearing may be requested in writing by 10 or more people, or by an association with 10 or more members, within 21 days following the publication of the Notice of Proposed Rulemaking in the Oregon Bulletin or 28 days from the date Notice was sent to people on the agency mailing list, whichever is later. If sufficient hearing requests are received, the notice of the date and time of the rulemaking hearing must be published in the Oregon Bulletin at least 14 days before the hearing.

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing negative economic impact of the rule on business.
