PORTLAND OR 97232-2162  
Ph: 971- 673-0215 Fax: 971- 673-0218

## Continuing Education Reinstatement Policy for Licensure

### **OAR 337-010-0025(5):**

*Person wishing to reinstate an expired or inactive license or limited permit shall submit evidence of having obtained continuing education (CE) during the period of inactivity or lapse.*

**The number of hours of continuing education shall be no greater than 12 and no less than one hour per month up to the 12 hours for inactive status.**

**In addition Limited Permit Holders are required:** Must complete a minimum of **4 hours** in *Radiation Use and Safety* out of the 12 maximum required hours to be eligible to make application for reinstatement.

*In order to qualify, the licensee or limited permit holder must certify they did not practice radiologic technology in the State of Oregon during the time the license or limited permit was inactive. Lapsed licensure must include the required CE hours for their previous licensing cycle, in addition, include one hour for every month the licensure was lapsed up to 12 hours.*

For reinstatement purposes, the Board requires licensees and limited permit holders to provide verification of attendance of the required number of hours of continuing education (CE). The CE activities must directly relate to **radiologic technology**.

**Please complete the following Continuing Education Worksheet and provide copies of your attendance verification document(s).**

Your verification document(s) must be in the form of a certificate or letter issued to you

by the sponsor at the completion of the CE offering. A list of registrants issued by an organization is not acceptable. If in doubt about whether you will be issued a certificate or other proof of attendance, prepare a letter to take with you and have the sponsor sign it at the completion of the CE offering. **You should retain your verification document(s) for two years.**

1. Attendance at meetings of professional organizations that are directly related to radiologic technology (educational portions of the meetings only).
  - ❖ One hour of continuing education credit granted for each educational meeting hour attended.
  - ❖ No maximum
  
2. Directed reading of professional and scientific journals and newsletters; listening to or viewing cassette or video tapes related to radiologic technology must include a pre-approved (ASRT or OBRT) post-test.
  - ❖ One hour of CE credit granted for each hour spent reading, listening to, or viewing tapes (Must include a pre-approved Post-test from ASRT or OBRT).
  - ❖ No Limit
  
3. Approved symposia, workshops, lectures, refresher courses, correspondence courses, etc., pertaining to radiologic technology.
  - ❖ One hour of continuing education credit granted for each hour of classroom CE education.
  - ❖ No maximum with proof of grades of C or better.
  
4. College-sponsored courses related to radiologic technology.
  - ❖ One hour of CE credit per classroom hour.
  - ❖ No maximum with proof of grades of C or better.
  
5. In-service education when related to radiologic technology.
  - ❖ One hour of CE credit per hour of in-service education.
  - ❖ No maximum
  - ❖ **After January 1, 2007 CPR and Blood Borne Pathogens (OSHA) are not eligible for CE credit.**
