4) Report of Executive Director -
   a) 2009 Legislative Session: The Board received a copy of the draft legislative concept, LC 481. The concept is allowed one revision by the agency and is due back to legislative counsel on Monday, September 22, 2008. McMillin shared concerns with the aiding and abetting language. Glenn stated that this discussion was hashed out in the 2007 session, which is why section 2(b) was added to provide one warning before the Board takes any action. There was a discussion on adding the word “knowingly” to the language. McMillin moved to have Glenn contact legislative counsel with the following changes: remove the brackets under section 3, item (i) which begins on page 5, line 18 and ends on line 22, insert the word “knowingly” between the words “has” and “aided” on page 3, line 9 and on page 10, line 6. In favor: Manriquez, Calise, Barton, McMillin, Collier and Catalano Opposed: None. Motion carried.
b) **Financials**: Glenn will e-mail them to the Board. In October, the Board will get a more detailed budget and Glenn plans on spending about 45 minutes to an hour going over the budget and process. McMillin asked about getting an interest bearing account. Glenn said that multiple meetings had been rescheduled with the bank representative; she may just need to go to Portland to see the representative at her office.

c) **House interim committee on health care** – Many boards and associations testified. Glenn will send information to the Board members by e-mail. The semi-independent language was put forward in the form of a legislative concept. Glenn stated that it wasn’t ideal but it wasn’t as bad as initially expected. (Unfortunately the concept was then pulled by the committee and a new concept is expected which will remove semi-independence entirely from the health-related boards.) The associations are working with the Boards to create an informal document for all of the legislators so that when the issues are before them, they will have a file with information to refer to. Most other proposed concepts were things that appeared to have no adverse effect on the Board. Glenn will send language to the Board members for discussion in October.

d) **Scope of practice advisory group** – The group had about 25 or more members for the first formal meeting. This group was formed by Senator Monnes-Anderson and Representative Greenlick focusing on the scope of practice issues in human health care. Senator Monnes-Anderson discussed how important the regulatory entity was in the process. They anticipate a pilot process in 2009.

e) **Health related boards** – The group is continuing to meet on a monthly basis, which is turning out to be really advantageous. There is a lot of support for the semi-independent boards and they seem to understand the value of semi-independence and are willing to support the semi-independent boards to take a stand in opposition of language that is contrary to the semi-independent model. There has been a tremendous amount of value with the group coming together. Manriquez asked if the group would work with the interim committee to educate on semi-independence. Glenn responded that the associations from the professions being affected will be helping. At this time they are not expecting to hire a lobbyist.

5) **Committee Updates** –

a) **Rules Committee** – The committee will be meeting on September 29th between 10 and 12 at the Board office. McMillin thinks that the comments made at the rules hearing were appropriate and will be bringing those comments to the committee. He stated that now it’s getting down to the details. The committee has done a good job and will have version 4 back in time for the LMT’s and associations to look at.

**EXECUTIVE SESSION** -
