

Unlicensed Activity

The Board of Tax Practitioners has closed several unlicensed tax preparation businesses this past year. Many of these operations were quite large. For example, in Yamhill County, the Board discovered an unlicensed tax preparation business that prepared over 600 returns each year. The Board has concentrated its resources towards stopping unlicensed activities. But the Board needs your help. If you know of any unlicensed activity in your area, contact us through email or telephone the Board's investigator, Duane Hunter at (503) 378-4860. The Board has made a commitment to respond quickly, with 12 hours, to any complaints received. Without your help, it is very difficult to successfully eliminate unlicensed tax preparation in Oregon.
