

Pop-Up Blocker Information Page

About PopUp Blockers

Most popup blockers allow you to either selectively allow popups from some sites or temporarily disable their function altogether. It is recommended that you enable the Windows popup blocker in IE 7 or IE 6 for our site and disable all others.

We provide instructions for the most common popup blockers below:

- [Google Toolbar](#)
- [Yahoo Toolbar](#)
- [Windows Live/MSN Toolbar](#)
- [Windows XP Service Pack 2, Internet Explorer 7](#)
- [Windows XP Service Pack 2, Internet Explorer 6](#)
- [Norton Internet Security/Personal Firewall](#)

With virtually hundreds of popup blockers on the market today it is impossible to provide an all-inclusive manual. For instructions on other popup blockers, please refer to your popup blocker manufacturer's manual or website.

Notes:

1. In many cases there is more than one popup blocker installed on your computer. This being the case, you'll need to disable all of them.
2. Other examples of popup blockers may be named "Ad Blocker" or "Window Killer," etc.
3. Sometimes a popup blocker may be installed even without your knowledge.

How to Disable the Google Toolbar PopUp Blocker

1. Locate the Google Toolbar, found beneath the address bar
2. Look for an area that lists a number and says, "**Blocked**" next to it

3. Click on this area and the text will read, "**Popups Okay**"

4. The google PopUp Blocker is now disabled. For more information, please visit Google.

How to Disable the Yahoo Toolbar

1. Click the **Pop-Up Blocker** toolbar icon , or locate an area that reads, "Pop-Up Blocker" and click on the

arrow pointing down 

2. Look at the **"Enable Pop-Up Blocker"** line.
3. If there's a checkmark next to it, Pop-Up Blocker is enabled. Otherwise it's disabled.
4. You can also tell by the toolbar icon. It's yellow if enabled, and gray if disabled.

To turn Pop-Up Blocker on or off:

1. Click the **Pop-Up Blocker** menu.
2. Select **"Enable Pop-Up Blocker"**.
3. If the checkmark was present, Pop-Up Blocker is now off. If the checkmark was not present, Pop-Up blocker is now enabled.

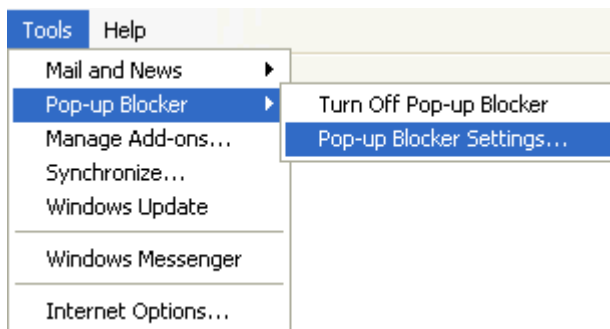

How to Disable the Windows Live/MSN Toolbar

1. To toggle the popup blocker on and off switch between, **"allowed"**  and **"blocked"** 
2. **When "allowed" is visible all popups will appear**
3. **When "blocked" is visible all popups will be blocked**

How to Enable the Windows XP Service Pack 2 PopUp Blocker with Internet Explorer 7

If you are using Windows XP SVP2 popup blocker, follow the steps below:

How to Enable the Windows XP Service Pack 2 (SVP2) PopUp Blocker with Internet Explorer 6:

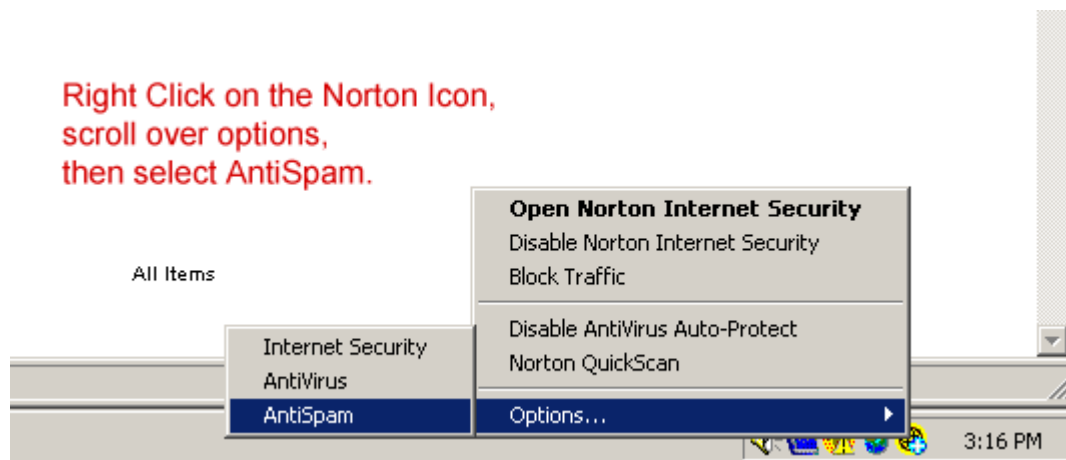

It is possible that you may not see the method described above on your PC. Instead, please follow the instructions below to disable Windows' built in popup blocker:

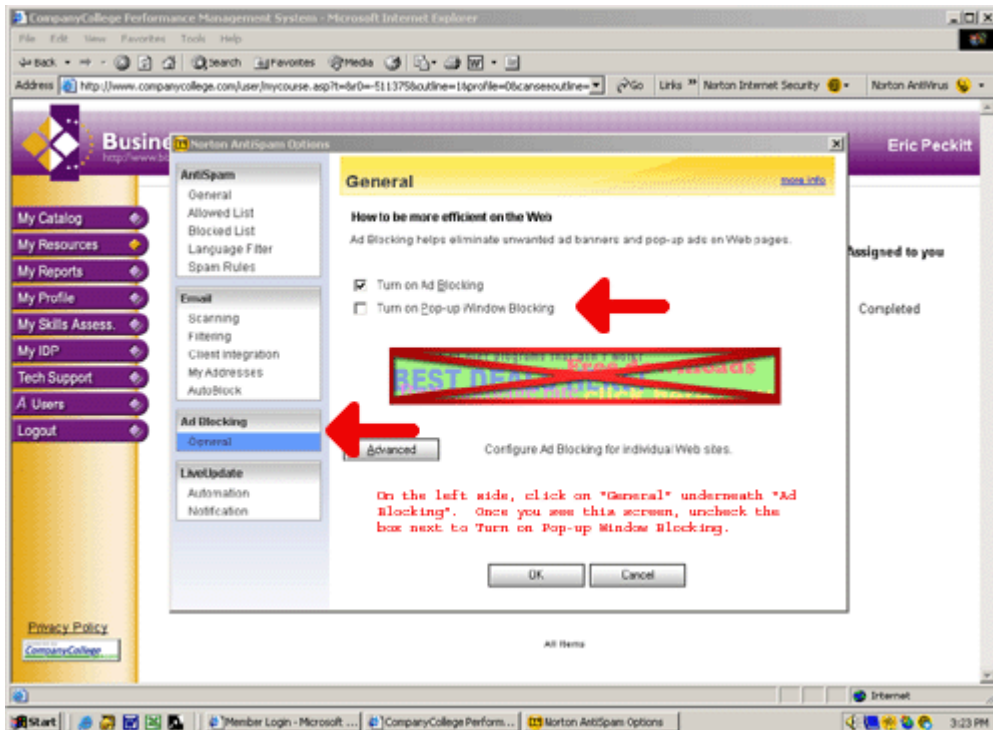

1. From the Menu select Tools.
2. Locate the area that says Turn On/Off Popup Blocker, or it may say Popup Blocker Settings.

- a. Note that if Turn On Popup Blocker is visible the popup blocker for Windows is disabled and you will need to turn it on.
 - b. If Turn Off Popup Blocker is visible, then you can move to step 3.
3. To change the state of the Windows popup blocker, click on the option, and it should change from Turn Off to Turn On or vice versa.
4. Be sure that the option for Turn Off Popup Blocker is visible.
5. Make sure that you add our site to the [Pop-Up Blocker Settings and add our site to trusted sites](#)
