

**OREGON DEPARTMENT OF AGRICULTURE ANIMAL HEALTH
LABORATORY
FEE SCHEDULE
Effective 3-1-2009**

General Policies

1. Unless indicated, most tests are set up the day the samples arrive in the laboratory. Specific tests are run only on the days indicated.
2. Requests for STAT testing or testing on days other than indicated will be charged twice the listed fee.
3. Brucellosis and EIA test requests MUST be submitted on official VS forms. These forms MUST have an original signature of the submitting veterinarian.
4. Samples should be submitted on an ODA submission form (available on the website: www.Oregon.gov/ODA/AHID/animal_health/cl_lab_sub.pdf or by calling the lab (503-986-4686).
5. The laboratory does not charge an additional submission charge for samples received, except as indicated below.
6. When 20 or more samples are submitted on the same accession (same date/same owner/same species) the samples must be packaged and received in the same sequential order as listed on the submittal form. Failure to do so will result in an additional \$25.00 charge for the submission.
7. ODA-AHL reports laboratory findings to the submitting veterinarian or clinic and charges for services are billed to the veterinarian/clinic unless other arrangements have been made.
8. Submitters must have an ODA account or submit payment with each submission. Payments should be made to: Oregon Department of Agriculture. Indicate the owner/date on the payment form.
9. For all tests, except EIA, owners residing out of the state of Oregon will be charged double the listed fees.
10. If testing is for export to another country, the submitter must contact the country to which the animal is being exported and or the APHIS area office (503-399-5871) to determine the types of tests, timing of testing and methodology required for each test before sending the samples to the laboratory. Failure to do so and to indicate the appropriate test required may delay or prohibit the timely shipment of the animals for export.
11. Questions should be directed to the Animal Health Laboratory 503-986-4686 or 503 -986-4688 (fax).
