

**OREGON DEPARTMENT OF AGRICULTURE
APPLICATION FOR MINT FIELD INSPECTION
FOR VERTICILLIUM WILT**

Please complete the following application form for an Oregon Department of Agriculture inspection of mint fields in Klamath and Union counties for Verticillium wilt, as eligible for planting in Control Areas under department rules (OAR 603-52). Please use one form for each field to be inspected.

The Department will assess the fees for these inspections based on the current rates for time and mileage. Inspection reports and invoices will be mailed as soon as possible, or upon request by calling 503-986-4620.

This application is due by June 1. If the application is late, the department may not be able to inspect the field. The fields will be surveyed during the last two weeks of July. If pesticides will be applied to the field immediately prior to or during the inspection period, please notify the department by mail or by fax at 503-986-4737.

REQUIRED INFORMATION

Make a simple line drawing of the field location, including geological reference (i.e., North), landmarks such as buildings, field roads, pumps, county lines. If the field is not on a main road, please indicate the distance in tenths of miles from the road or a landmark. Aerial photographs will be accepted if access routes and roads are labeled. If the area to be inspected is less than the entire field, mark the map to show the area to be inspected, and flag the corners of the field area to be inspected. The entire field will be inspected if markers are not provided.

Please provide a short narrative explaining directions for the location shown on the map.

Please include GPS reference if known: _____
Field location description:
