

Response Matrix Based on Water Monitoring Data

- Detected concentration relative to a benchmark concentration
- Frequency of detection

Detection as % of Reference Concentration

Frequency of Detection		0 - 20% (Level 1)	20 - 50% (Level 2)	> 50% (Level 3)*	>100% (Level 4)*
	0 - 10% (Level A)	1A : Low Concern	2A: Low Concern	3A: Moderate Concern	4A: Mod-High Concern
	11 - 30% (Level B)	1B : Low Concern	2B : Moderate Concern	3B : Moderate Concern	4B : High Concern
	>30% (Level C)	1C : Low Concern	2C : Moderate Concern	3C : Mod-High Concern	4C : Very High Concern

* Actions @ levels 3 & 4 if detected 2 out of 3 years of monitoring
