

Pesticide Advisory

Alert – Green Planet Nutrients Mega Wash contains pyrethrins

June 14, 2016

The Oregon Department of Agriculture (ODA) has reason to believe the product, Mega Wash, manufactured by Freq Water, Inc. for H.I.T. Manufacturing, contains a pesticide active ingredient not listed on the label. ODA has tested Mega Wash and found it to contain the active ingredient pyrethrins.

Use of Mega Wash could cause cannabis to fail Oregon Health Authority (OHA) pesticide testing requirements. Growers of all crops and retailers are advised to discontinue using or selling Mega Wash until further notice.

For additional information or questions, please contact ODA at (503) 986-4635 or email pestx@oda.state.or.us
