e-mail: Simpson.taylor@cleanharbors.com

This is a one-time anonymous pesticide waste collection event for forest landowners, farmers, and other commercial and institutional pesticide users located in Yamhill, Polk, and surrounding counties. The collection is scheduled for **Saturday, November 19, 2016 at the Wilco Agronomy Center, 14000 S. Hwy 99W, in McMinnville OR.** This event is sponsored by the Greater Yamhill Watershed Council, Yamhill Soil and Water Conservation District, Wilco, the Polk County Soil and Water Conservation District, Oregon State University (OSU) Extension Service, Agriplas, Oregon Department of Agriculture, and Oregon Department of Environmental Quality. Prior to bringing waste to the Pesticide Collection Event, you must complete this application and return it to Clean Harbors by November 5, 2016. Completion of this form will reduce your wait time when you arrive with material to be collected. Please be certain your pesticide inventory information is accurate, any pesticides not included on this survey will not be eligible for disposal on the day of collection. **If you have questions or concerns about the event logistics, contact Taylor Simpson at (360) 607-5434.**

Event Location: McMinnville, OR

Event Date: November 19, 2016

WE MUST HAVE A WAY TO CONTACT YOU BEFORE THE EVENT. YOU WILL BE NOTIFIED OF A SCHEDULED TIME FOR YOU TO REPORT TO THE COLLECTION SITE AND YOUR CONFIDENTIAL IDENTIFICATION NUMBER. PLEASE BRING YOUR CONFIDENTIAL ID NUMBER WITH YOU.

2. Inventory of wastes you want to dispose of at this collection event

Please complete the waste inventory sheet on the following page to list the wastes you will bring to the collection event. Make additional copies of the inventory sheet if needed. Return the completed inventory sheet(s) with this application. Instructions for completing the waste inventory sheet are on the back side of the form. Only wastes that have been pre-registered and approved by Clean Harbors Environmental Services will be accepted at the collection event. **Radioactive materials, explosives, infectious medical wastes, certain poisons, very reactive wastes, and unknown wastes are not accepted at these events. There is no quantity limit for collection of waste pesticides. Please provide adequate containment (e.g., place inside larger container) for leaking or degraded containers prior to transporting pesticide waste to the event.**

If you have trouble identifying the active ingredients in the pesticides you wish to dispose of please contact Kirk Cook at the Oregon Department of Agriculture at (503) 986-6485 for technical assistance.

Instructions for Completing Waste Inventory Sheet

- Source:** Please indicate whether the pesticides you are disposing of come from an active farm, a commercial applicator, or other operation.
- Item Number:** Number each item (or category group of items) you want to dispose of at the collection event. Each item should have an individual number on its container as reference. The container number should correspond to the completed inventory sheet(s) submitted to Clean Harbors Environmental Services.
- Waste Description:** Describe, in as much detail as possible, wastes that you want to dispose of at the collection event. The description should include the chemical and trade name, how you use the material, physical state (i.e., liquid, solid, sludge, gas), chemical characteristics (e.g., flammable/ignitable), and chemical constituents and percentages from the label or material safety data sheet (MSDS). For pesticides (e.g., herbicides, fungicides, rodenticides, etc.), please include the EPA registration number if available, trade name and percent concentration. When listing waste quantities, be accurate as possible. **DO NOT** include wastes you do not want to dispose of at the collection event, nor containers of unknown waste substances. Please avoid mixing your wastes together.
- EPA Number:** For pesticides (e.g., herbicides, fungicides, rodenticides, etc.), please include the EPA registration number if available, trade name and percent concentration.

ID # _____

5. **Quantity:** List the quantity of waste you want to dispose of at the collection event. As a rule, list liquids in gallons and solids and sludges in pounds.

Once **Clean Harbors Environmental Services** has received and reviewed your application, you will receive a letter and/or telephone call acknowledging acceptance of your application. The acknowledgment letter and/or call will provide you with the total estimated cost for disposal of your waste, an appointment time for bringing in your waste, and any changes to the collection event site.

TRANSPORT TIPS

No safety precautions and protective measures can be suggested that totally eliminate risks. However, here are some suggestions that may assist you in minimizing exposure as you work with waste pesticides.

**IF YOU HAVE A SPILL:
CALL 1-800-OIL-TANK; 1-800-645-8265
FOR EMERGENCY ASSISTANCE HANDLING WASTE MATERIAL:**

1. Inspect containers. If, upon inspection, you have reason to suspect that the container will tear or rupture when moved, do not attempt to move or load the container for transport. Come to the collection site without it and we will provide assistance.
2. Wear the protective clothing and protective equipment (goggles, gloves, respirator, etc.) described on product labels when handling pesticides.
3. At a minimum, wear a long sleeved shirt buttoned at the wrist, a pair of chemical-resistant gloves, preferably a chemically resistant apron, rubber boots, goggles and a hat.
4. Have spill control materials available. For example, a 10-pound bag of commercially available safety absorbent, a shovel and a container for spilled material collected with the absorbent and contaminated soil may be useful in control and cleanup of a spill involving a small amount of material. Bring any spilled materials with you to the collection site for disposal.

FOR TRANSPORTING WASTE MATERIALS:

1. Inspect all pesticides to see that they are securely packaged. Only transport containers that are securely closed.
2. Line the storage area of the transport vehicle with plastic sheeting to contain any spillage that might occur and therefore simplify cleanup and decontamination.
3. Assure all labels are securely attached. This is important for disposal of these materials.
4. Arrange containers in your vehicle so that they are braced to prevent shifting which may result in container damage and/or leakage.
5. All containers should be kept dry during transport. Loads in open vehicles such as pick-up trucks should be covered in the event of rainfall.
6. Do not transport pesticide waste in a manner that will allow fumes from those wastes to enter the passenger compartment of the transportation vehicle.

DRIVE CAREFULLY. You are responsible for any spillage, damage, subsequent cleanup and restoration that might occur while you are transporting the wastes, whether the accident is your fault or other's. The State and its contractor are not responsible for any spillage that occurs before the contractor at the collection site accepts the waste.
