Steve Hobbs, Chair, Members of The Federal Forestland Advisory Committee and Facilitator  
Robert Fisher:

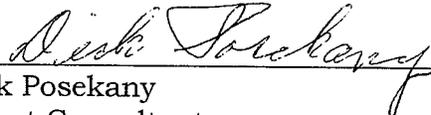

### FEDERAL TIMBER AND RURAL OREGON

The main mission of the FFAC is to develop a management plan to utilize federal timber in Oregon for the financial support of County Governments and services to its citizens. A successful federal tax-free program of this type had been in place previously during the mid-1990's and before.

In addition, industry infrastructure necessary to convert this federal timber to needed wood products and the local logging operations, provide top-scale employment opportunities to Rural Oregon Communities.

Preparing a Federal Forest Management Plan is urgently needed. Economic conditions in Rural Oregon Communities continue to decline. The Federal Forestland Advisory Committee must act without further delay for the benefit of Rural Oregon.
