08.12.08

The data used to develop this map are derived from multiple sources: ODF statewide forest change data was used for clearcuts from circa 1968 to 2004; landsat forest change data from September 2007, acquired and processed by Wild Salmon Center, was used for clearcuts from 2005 - 2007; and thinning and planned clearcuts for 2008 were derived from ODF forest planning GIS data.

### Legend

- Highway
- Thinning on State Forest, 1998-2008
- Clearcuts since 1968
- US Forest Service National Forest
- Bureau of Land Management
- ODF Land
