

Revised 'parcel' definition proposed by ODF:

“Parcel”, as described in this section [this will be the (1) of (2) of OAR 629-642-0120]] means contiguous single ownership recorded at the register of deeds within the county or counties where the property is located, including any parcel(s) touching along a boundary, but a railroad, road, stream, or utility-right-of-way may intersect the parcel. Single ownership is defined in ORS 527.620(14).
