TIMBER SALE DATA FILES

Tillamook		
Ferns (WKT files)	Google (KMZ files)	Geo-referenced maps (PDF files)

1. WKT files

These are for use by State timber sale purchasers in filing notifications through <u>FERNS</u> (ODF's <u>F</u>orest Activity <u>E</u>lectronic <u>Reporting and <u>N</u>otification <u>System</u>)</u>

2. KMZ files

These are for use in GOOGLE EARTH on desktop computers or mobile devices

3. PDF files

These are geo-referenced maps produced in <u>ESRI's ArcGIS</u> which can be used as a base map on mobile devices with the <u>AVENZA</u> application installed

To download these files (these steps are showing *Internet Explorer*, your browser maybe different):

1. *Right-click* on the file you wish to download (Bling Ridge's Boundary WKT file is used in this example)

2. Select Save target as... from the menu

henefits

File name:	Clay_Pigeon_Boundary_Google.zip						•
Save as type:	WinZip File (*.zip)						•
Alide Folders					Save	Cancel	L

Save the file to your computer, then re-name the extension back to ~.kmz

When you double-click on the KMZ file, *Google Earth* should open (if you have it installed) and zoom to the location

If you have questions, please contact your local ODF District Office.
