Services
PO Box 3084
Ashland, OR 97520
541/941-6874

This is a list of forestry consultants who have indicated to us that they do business in Klamath and Lake Counties. It is the responsibility of the landowner to choose a consultant whose talents match their needs and whose judgment they trust. Landowners can assure good results by: developing a contract with performance criteria, checking public records for violations, checking license and bonding limits where applicable, and checking to see if the consultant has received Better Business complaints, has any actions pending, or has an unsatisfactory credit rating. These checks are the responsibility of the landowner. There is no intention to provide a complete, comprehensive list of consultants. The sole purpose of this document is to provide some information to landowners. If at any time we get a request from a consultant to be added to the list, that name will be added in alphabetical order. Periodically this list is revised in an attempt to keep the information current. For changes to this list please contact: Anne C. Maloney, Stewardship Forester, Oregon Department of Forestry, 3200 Delap Road, Klamath Falls, OR 97601 541/883-5681
