

PUBLIC COMMENT PROCESS FOR THE 2010 ANNUAL OPERATIONS PLAN

The Oregon Department of Forestry issued a Press Release on March 26, 2009 announcing a formal 45 day public comment period for the 2010 Annual Operations Plans from March 30 through May 13, 2009.

The purpose of the Public Comment Period was to provide an opportunity for the public to review the AOPs, ask questions, make recommendations and offer comments. As a public agency, ODF operates in the best interest of Oregonians, conducting business in an open way with opportunities for scrutiny to foster and maintain public confidence that ODF operations are benefiting Oregonians.

Past experience has shown that public comments have the potential to improve plans, so the objective was not only to inform the public, but to receive feedback that would help to clarify the AOPs, improve their consistency with the long range FMPs and IPs, and to become aware of any new information that could affect a planned operation or improve its efficiency or effectiveness.

At the end of the public comment period, the North Cascade District received two letters regarding the AOP. The district considered the questions, comments and recommendations in each letter. Factors that affected the districts consideration of the comments included:

- Does the comment enhance the consistency of the AOP with the FMP?
- Does the comment enhance the consistency of the AOP with the IP?
- Does the comment improve the clarity of the AOP?
- Does the comment provide new information that will affect the AOP or an operation?
- Does the comment improve the efficiency and effectiveness (or outcome) of the AOP?

The district then prepared a response that attempted to resolve each question or comment by providing additional information and explaining why the recommendation was not incorporated into the AOP.

Note: A complete list of public comments and the district response related to the district FY10 AOP can be found on our web site:
